CANTONMENTS.

REGULATIONS.

No. 641.—In exercise of the powers conferred by section 24 of the Cantonments Act, 1910 (XV of 1910), the Governor-General in Council is pleased to amend the Cantonment Code, 1912, to the extent set forth below:—

In Schedule VI, Annexure to Form "A," Condition IX (iv) shall be omitted.

In Schedule VI, Form "C" at the foot of page 203 the following note shall be inserted:—

"*Note.*—Condition VII (1) and (2), and Condition IX (1) and (2), first and second clauses.

These conditions provide for alternative leases. In the first the buildings on the site become the property of the Local Government on the termination of the period for which the lease is granted. In the second alternative the lease is renewable at the discretion of the Officer Commanding the Division, but when renewal is refused the lessee must deliver up the site and all buildings and erections thereon, receiving compensation for such buildings and erections as have been made under proper authority. In the first alternative, Conditions VII (2) and IX (2) first and second clauses will be struck out, in the second alternative they will be retained and IX (1) struck out. In the latter form renewals can be granted by the Officer Commanding the Division from time to time as often as may be considered desirable since the second and subsequent leases may, if the Officer Commanding the Division thinks fit, contain the Conditions VII (2) and IX (2) first and second clauses."

In Condition IX (2) of Form "C" on page 204, against (iv) of the fourth clause the following marginal note shall be inserted:—

"To be struck out if Conditions VII (2) and IX (2), first and second clauses, are retained."

In Schedule VI, Form "D" at the foot of page 210 the following note shall be inserted:—

"*Note.*—Conditions XXV (1) and (2), and Conditions XXVII (1) and (2), first and second clauses.

These conditions provide for alternative leases. In the first the buildings on this site become the property of the Local Government on the termination of the period for which the lease is granted. In the second alternative the lease is renewable at the discretion of the Officer Commanding the Division, but when renewal is refused the lessee must deliver up the site and all buildings and erections thereon, receiving compensation for such buildings and erections as have been made under proper authority. In the first alternative Conditions XXV (2) and XXVII (2) first and second clauses will be struck out, in the second alternative they will be retained and XXVII (1) struck out. In the latter form renewals can be granted by the Officer Commanding the Division from time to time as often as may be considered desirable since the second and subsequent leases may, if the Officer Commanding the Division thinks fit, contain the Conditions XXV (2) and XXVII (2) first and second clauses."

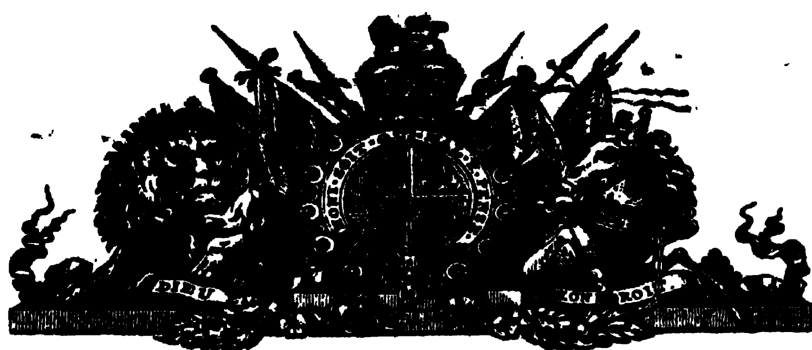
In Condition XXVII (2) of Form "D" on page 211, against (iv) of the fourth clause, the following marginal note shall be inserted:—

"To be struck out if Conditions XXV (2) and XXVII (2), first and second clauses, are retained."

No. 642.—In exercise of the powers conferred by section 24 of the Cantonments Act, 1910 (XV of 1910), the Governor-General in Council is pleased to amend the Cantonment Code, 1912, to the extent set forth below:—

In Schedule VI, Lease Form "C" in the 14th line for the words "Cantonment Authority of" the words "Officer Commanding ——Division" shall be substituted.

No. 643.—In exercise of the powers conferred by section 24 of the Cantonments Act, 1910 (XV of 1910), the Governor-General in Council is pleased to amend the Cantonment Code, 1912, to the extent set forth below:—



In section 67, sub-section (*1*), after clause (*n*) the following clause shall be inserted:—

"(*o*) being the owner or person in charge of any dog or other animal, knows or has reason to believe, that such dog or animal has been bitten by an animal suffering or reasonably suspected to be suffering from rabies, and neglects to give immediate information of the fact to the Cantonment Magistrate, or gives information which is false; or"

The present clauses (*o*), (*p*) and (*q*) shall be re-lettered (*p*), (*q*) and (*r*).

No. 644.—In exercise of the powers conferred by section 25, sub-section (2) of the Cantonments Act, 1910 (XV of 1910), and in continuation of the notification of the Government of India in the Army Department No. 192, dated the 1st March 1912, the Governor-General in Council is pleased to direct that the cantonments of Calicut, Cannanore and Trichinopoly in the Madras Presidency shall be excepted from the operation of the Cantonment Code, 1912.

(*b*) burn in any such dustbin any paper, leaves, grass, wood or other materials.

Fine, Rs. 10.

18. No person shall convey sewage or offensive matter by any road otherwise than—

(*a*) in a closely covered receptacle of such description and pattern as are prescribed from time to time by the Commissioners at a meeting, and

(*b*) between such hours as are so prescribed.

Fine, Rs. 10.

19. No person shall build or cause to be built or shall keep, after prohibition by the Commissioners, any tatti, privy or urinal within ten feet of any road.

Fine, Rs. 10; daily fine, Rs. 2.

20. No person shall take or drive any carriage or cart over a road or part of a road which is closed under section 201 of the Bengal Municipal Act, 1884, or displace any barrier or fence erected under that section.

Fine, Rs. 10.

REGULATION OF THE USE OF, AND PREVENTION OF NUISANCES IN REGARD TO PUBLIC WATER-SUPPLY, BATHING AND WASHING PLACES, STREAMS, CHANNELS, TANKS AND WELLS.

21. No person shall, without the general or special permission of the Commissioners, set up any obstruction in any *nala* or water-course which is a source of public water-supply.

EXPLANATION.—The spreading of fishing nets and the placing of fishing-traps in any such *nala* or water-course are included in the word "Obstruction" as used in the by-law.

Fine, Rs. 10; daily, fine Rs. 2.

22. No person shall ease himself at the side of or into any river, stream, channel, tank or well which is used by the public.

Fine, Rs. 10.

23. Every owner or occupier of any part of the bank of any *nala* or water-course which is a source of public water supply shall—

(*a*) keep such bank free from filth, dense vegetation and other obstruction, and

(*b*) at all times allow the Commissioners or any of their servants duly authorised in this behalf to have access to such *nala* or water-course for any purpose of public conservancy.

Fine, Rs. 10.

24. The owner of every well which is a source of public water-supply shall construct a masonry platform and drains to prevent the suaface water falling into the well or stagnating in its vicinity.

Fine, Rs. 10; daily fine, Rs. 2.

25. No person shall bathe or wash clothes, utensils or any other article within a distance of ten feet from the lowest platform of any public well.

Fine, Rs. 10.

26. No person shall, without the general or special permission of the Commissioners, steep in any tank or ditch any jute, hemp or other vegetable matter which is likely to render the water offensive or noxious to the neighbourhood.

Fine, Rs 10; on a second or subsequent conviction, Rs. 50.

27. No person shall wash or cause to be washed in any tank or water-course or any other receptacle for water used by the public for drinking or bathing purpose any clothes, bedding or other articles which have been used by a person suffering from any infectious or contagious disease.

Fine, Rs. 50.

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

State Scholarship tenable in the United Kingdom by Europeans or Anglo-Indian girls or women domiciled in India.

It is notified that a scholarship of £200 a year will be henceforth awarded annually by the Government of India to a domiciled European or Anglo-Indian girl or woman who is a native of India within the meaning of Statute 33 Vict., Chapter 3, Section 6, and whose parents are not resident in India for temporary purposes only.

The scholarship will be granted for educational or medical training and will be tenable in the United Kingdom for a period of three years in the first instance with possibility of extension in special circumstances, and in particular in the case of medical students, to four and five years. The scholarship will carry with it no conditions as to any subsequent career or service under Government and no expectation of such employment is held out.

The term educational training will be held to include (*a*) training for teaching in secondary institutions, (*b*) training in domestic sciences, (*c*) training as teachers of modern European languages, (*d*) training as music mistresses, (*e*) training as art teachers, (*f*) training in Kindergarten methods.

The scholar will be selected annually by the Government of India from among candidates nominated by the Local Governments. Nominations for the current year are due to the Government of India on 15th August. Intending candidates are requested to make immediate application to the undersigned, forwarding (1) evidence of having obtained the B.A. degree or, in the case of a medical candidate, a degree in medicine of an Indian University, (2) a medical certificate of fitness to undergo abroad the course of study proposed, (3) the names, addresses and other particulars of friends or relatives in the United Kingdom to whom the applicant's parents or guardians are willing to commit her guardianship during vacation.

The selected candidate will be provided with a second class passage to England, and with a second class return passage if she completes the full period of residence or is compelled by sickness to return within that period.

Further particulars may be obtained on application.

CALCUTTA UNIVERSITY.

NOTICE.

IN accordance with Rule 6 of the Rules for admission to the Executive Branch of the Provincial Civil Service of Bihar and Orissa, the Syndicate of the Calcutta University will proceed to nominate two graduates of high character whom they regard as the most distinguished students among those who are natives of, or who belong to families permanently domiciled in, the Province of Bihar and Orissa. From amongst these two nominated candidates, or from amongst graduates previously nominated by the Syndicate who have not passed the age of 25 years, the Lieutenant-Governor of Bihar and Orissa in Council will, after enquiry, select one person to be a probationer.

The indispensable qualifications of a candidate for appointment are (1) that he is not under 20 nor over 25 years of age; (2) that he is of good character; (3) that he is a graduate; and (4) that he is of sound health, good physique and active habits, and free from organic defect or bodily infirmity.

Applications for nomination by the Syndicate are hereby invited from graduates of the Calcutta University who have passed the B.A. or B.Sc. Examination with honours, or the M.A. or M.Sc. Examination, or any higher Examination in the Faculty of Arts, Science, or Law, and who also satisfy the requirements above specified. Such applications must reach the undersigned on or before the 15th August 1913.

Each application must contain information on the following points and must be accompanied by the certificates mentioned below:—

(1) Name of candidate and address in full.
(2) Father's name, profession or occupation and address in full.
(3) Religion and caste or race.
(4) Date of birth (day and month to be given).
(5) Date of passing the Entrance or Matriculation Examination and a brief statement of the candidate's subsequent academical career.
(6) Certificates of moral character from the Principal and Professors of the institution in which the candidate last studied for not less than one year.
(7) A medical certificate showing that the candidate is of sound health, good physique and active habits, and that he is free from organic defect or bodily infirmity.

RESOLUTION ON THE AMENDMENT OF THE CALCUTTA MUNICIPAL ACT, III OF 1899.

MUNICIPAL DEPARTMENT.

MUNICIPAL.

DACCA, THE 21ST JULY 1913.

RESOLUTION No. 111½T.—M.

IN the Address which the Chairman and Commissioners of the Calcutta Corporation, on behalf of the citizens of Calcutta, presented to His Excellency the Governor on his arrival in Calcutta to take up the government of the Presidency, they expressed the opinion that their administration would not be effective without some radical alterations in the law and in the constitution of the Corporation, and they invited consideration of the suggestions of the Royal Commission on Decentralization regarding the Corporation. Since that

time numerous representations have been submitted to Government from private individuals as well as from representative Associations, and various proposals have been suggested for the consideration of Government in connection with an amendment of the Calcutta Municipal Act. The Governor in Council realizes that there is a widespread feeling in favour of an amendment of the Act, in particular of an alteration in the constitution of the Corporation, and he agrees that the time has come when a revision of the Act should be undertaken.

2. His Excellency in Council has had under consideration and examination the various proposals and suggestions which have been put forward, but before coming to a decision he is desirous of ascertaining the views of the citizens of Calcutta on the main alterations in the law which have been suggested. These relate chiefly to the constitution of the Corporation, and are set forth below.

3. The Royal Commission upon Decentralization made a number of recommendations in respect of the Calcutta Municipality, the most important being that in which they expressed their opinion in favour of the Bombay system of a nominated official Commissioner with an elected Chairman. There appears to be a general agreement in favour of this recommendation and of the adoption of a system which, it is held, would tend to greater efficiency by relieving the Head of the Executive from the dual functions which he now exercises, and allowing him to devote a greater measure of his time and attention to his executive duties. The Chairman would be elected by the Municipal Councillors from among their own number, and his duties would be limited to presiding at the Corporation meetings. The election of the Chairman would be entirely in the hands of the Corporation. It is a question whether such a Chairman should be allowed to take part in the debates, whether he vacated the chair or not while he was speaking, and also whether he should be allowed to vote on every question, or should merely have a casting vote in the event of an equality of votes on a division.

4. The Head of the Executive, who would be designated the Municipal Commissioner, would be appointed by Government. His Excellency in Council does not at present propose to deal with the powers of this officer. This question involves a very detailed examination of the provisions of the Act, and it will be preferable that criticism be deferred until the Bill is framed and published.

5. The constitution of the Corporation is a question on which many divergent views have been put forward. It has been urged that the existing number of elected Commissioners—1 for each ward—is inadequate to secure a proper representation of the local needs of each ward, and that there should be a uniform representation of 2 members for each ward. It has also been maintained that the representation of the Muhammadan community on the Corporation is inadequate, and that in view of the failure from various causes of Muhammadan candidates to secure election, a fixed number of Muhammadan Commissioners—not less than one-third of the total number of Commissioners—should be recruited through separate electorates composed entirely of Muhammadan ratepayers in different divisions of the Municipality.

The existing constitution of the Corporation, excluding the Chairman, is as follows :—

Elected Commissioners (1 for each ward)	25
Appointed by the Bengal Chamber of Commerce ...	4
" " the Calcutta Trades Association ...	4
" " the Port Trust	2
" " Government	15

The question is not free from difficulty. It will be within the recollection of many that the question of the elected representation on the Corporation formed the subject of much discussion when the present Act was passed in 1899. The original proposals in the Bill of 1899 provided for the retention of the then existing constitution of 50 elected and 25 nominated members. It was however held to be unreasonable that 13,890 voters should

return as many as 50 members, or that the interests of a city even of over 681.000 inhabitants should require the services of 75 Commissioners for their proper protection. And while the numerical strength of the Corporation was held to be disproportionately and unnecessarily large, it was also pointed out that the constitution of the Corporation failed to secure just and adequate representation of the various interests that composed the corporate life and wealth of the community. The number finally determined—25 elected and 25 nominated—constituted an equality of balance between the two main interests and classes in the then population of the city, viz., the European interest, largely predominating in wealth and influence, and the Indian interest, largely predominating in numbers. In considering the future constitution of the Corporation these considerations must be borne in mind. If an increase in the total of the elected members is conceded in consideration of the increase in the population and voting power, it must be regulated by the necessity for a proper representation of the various interests in Calcutta. The ward population of Calcutta has increased from 681,000 in 1899 to 861,501 at the present day, and the number of voters has more than doubled itself in the interval, being 35,852 as against 13,890. This increase in the total population may be put forward as an argument in favour of enlarging the strength of the Corporation; and as the proportion of voters to the ward population has increased from 2 to 4 per cent., there is a possible justification for an increase in the number of elected representatives. There is undoubtedly a certain amount of feeling in favour of an increase in the number of members of the Corporation, and it is evident that if either of the two suggestions,—increased ward and separate Muhammadan representation,—were carried into effect, an increase must necessarily follow. It has, however, been urged that the adoption of the proposal that two members should be elected for each ward without racial restriction would result in a very strong preponderance of Hindu Commissioners, and that the representation of the other large and influential minorities would be very inadequate except by an increase in the total strength of the Corporation to a number which would not be justified. A suggestion has therefore been made that any increase in the number of elected Commissioners should be confined to the twelve more populous wards, and that to these wards only should be given the right to elect 2 representatives. This would increase the representation by election from the wards from 25 to 37. Following the considerations which influenced the decision to equalise the number of elected and nominated members in 1899, it may then be held that a similar number of members should be nominated by Government and public bodies, and that the total number of members should be fixed at 75. It is a question, however, whether the Municipality requires as many as 75 Councillors to protect its interests, and it may with some reason be argued that a smaller body would control the operations of the Corporation with greater efficiency and promptitude. The adoption of a lesser number than 75 would, on the foregoing considerations, necessitate a modification of the proposals for ward elections; any increase in the number of ward representatives might be obtained by a redistribution of the wards.

6. On the subject of the representation of the Muhammadan community three questions arise: firstly, whether the Muhammadan community should be allowed separate representation; secondly, whether in such an event representatives of the Muhammadan community should be elected by the general body of ward electors or by Muhammadans only; and thirdly, whether, if granted separate representation, the Muhammadans should be allowed to vote at the general elections for the wards.

Statistics relating to the proportion of the various communities show that, although the Muhammadans form 25·6 per cent. of the total population, the number of Muhammadan voters in each ward is very small, and that the percentage of Muhammadan votes to the total voting power is as low as 8·1. These figures support the view that in ordinary circumstances the chances of a Muhammadan seeking election as a ward representative are very small, and to some extent justify the claim that the principle by which Muhammadan representation is secured on the Legislative Council should be followed in the case of the Calcutta Corporation. The

representatives of the Muhammadan community on the Legislative Council are elected by the Muhammadans themselves, and there will no doubt be a natural desire on their part that those who are chosen to represent their interests on the Corporation should be elected by the votes of their coreligionists only. Much might be urged in favour of an election rule on these principles, but it is a question whether, in the event of such separate representation being allowed, the Muhammadan voters should be allowed to vote at the general ward election. Two suggestions for separate Muhammadan representation have been put forward—one that it should be a mere minimum representation, intended only to secure that the Muhammadan community should not be altogether unrepresented, and based merely on the strength of its voting power, while the other aims at giving the community that degree of representation which upon the whole it might expect in view not merely of its voting power, but of its numbers, wealth and degree of advancement. Under the former suggestion the Muhammadan community would be entitled to 4 or 5 separate representatives, but this is considered to be inadequate, and it is proposed that the community should be allowed to secure such additional representation as it can at the ordinary ward elections. The second proposal would give the community 9 representatives. This would secure to the community a representation which it could not expect to attain under the former system, and it is considered that a definite measure of representation would be preferable to a totally inadequate minimum with no expectation of any additions thereto. If this latter proposal be accepted, the Muhammadan community could not perhaps expect to be allowed a voice in the general ward election.

7. Assuming that the total number of Councillors should be raised from 50 to 75, and accepting the suggestions that 37 ward members and 9 Muhammadan representatives be elected, 29 places would remain to be filled by nomination, either by public bodies or by Government. The Bengal Chamber of Commerce, the Calcutta Trades Association, and the Port Trust will naturally desire to retain their existing powers of nomination, and with an increase in the total number may ask for increased representation. There are two other Associations whose claims must now be taken into account in view of the interests which they represent. The Bengal National Chamber of Commerce and the Marwari Association are public bodies representative of important interests in Calcutta, and might reasonably expect to be allowed representatives on the Corporation. The educational community must not be forgotten, and the nomination by the Calcutta University of one representative would result in a valuable addition to the Corporation. Government will retain in its own hands the power of making a certain number of nominations. This number would depend on the conclusions that may be arrived at in respect of the total number of Commissioners and of the representatives of the various public bodies mentioned, but for present purposes it may be taken at 12, or 3 less than the existing number. On these various considerations and suggestions, and allowing for slightly increased representation to the Bengal Chamber of Commerce and the Calcutta Trades Association, the following tentative distribution is arrived at :—

Representatives of wards (25 *plus* 12 extra members for the most populous wards)	37
Muhammadans	9
Bengal Chamber of Commerce	6
Calcutta Trades Association	5
Port Commissioners	2
Calcutta University	1
Marwari Association	2
Bengal National Chamber of Commerce	1
Government nominees	12
Total ...	75

8. The '*General Committee*,' which is constituted under section 9 of the Act, has been the subject of much discussion, and there is a strong body of opinion in favour of the abolition of this Committee and the transfer of its powers partly to the Corporation and partly to the Municipal Commissioner.

With the appointment of a Municipal Commissioner as Head of the Executive the existence of three co-ordinate Municipal authorities would undoubtedly appear anomalous, and there is much force therefore in the suggestion to abolish the General Committee. This Committee serves many useful purposes, but its powers cover many detailed matters which might well be dealt with by the Head of the Executive, and some matters of general administration which more properly belong to the Corporation. If these particular powers were transferred to the Municipal Commissioner and the Corporation respectively, the functions of the General Committee would be comparatively few, and it is doubtful whether the existence of the Committee would then be justified. In the event of its abolition the distribution of its functions must be taken into consideration. Its powers at present embrace a multitude of questions, such as those relating to improvements in private premises, which could not be properly exercised by the Corporation. It has been suggested therefore that these powers should be made over to the Municipal Commissioner, with a right of appeal to a specially constituted Appeals Committee,—a Committee which would hear all appeals which at present lie from the Chairman to the General Committee. This suggestion has much to commend it. The constitution and powers of such a Committee however demand examination. Should it be elected entirely or only partly by the Corporation, and should its proceedings be subject to confirmation by the Corporation? What should be the length of its tenure of apppointment; should it be elected for one year only, or should it continue in power during the life of the Corporation as constituted?

9. Although when the present Act was framed it was not apparently contemplated that it would be necessary for the Corporation to appoint Standing Committees to deal with certain classes of questions, such Committees have been formed and do a large amount of useful work. It has been suggested that provision should be made in the Act for the constitution of Standing Committees, but there appears to be considerable diversity of opinion as to the exact nature of the provision which should be made. Under section 96 of the Act the Corporation has power to appoint Special Committees, and it may be desirable that a provision should be inserted in the Act to cover the appointment of Standing Committees as distinct from Special Committees, and to extend section 96 (*4*) to both classes of Committees. Certain restrictions on the constitution of Standing Committees would seem to be called for; and suggestions have been made that (1) the number of members on each Committee should ordinarily be limited to 7, (2) no Councillor should be appointed to more than two Committees, and (3) no Councillor should be President of more than one Committee.

10. These are the main principles in connection with the amendment of the Act on which the Governor in Council desires to ascertain the views of the public and of the various representative bodies in Calcutta. They involve complicated questions of great importance, and the Governor in Council wishes to place them before the public before he proceeds with the drafting of the Bill. There are several other points on which an amendment of the Act may be necessary, such as the responsibility for notifying transfers of title to property and reoccupation of unoccupied buildings, amalgamation of the rates, control of *bastis*, registration of carts and cart drivers, rules relating to buildings, and the exclusion from the Act of purely administrative provisions. These questions can, however, be dealt with to greater advantage when they have been set out in the form of chapters and sections of an amending Bill, and the Governor in Council does not therefore intend to publish them until the Bill has been drafted. His Excellency in Council proposes to take the whole matter into further consideration on the 15th September next, and he desires that all those who are interested will communicate their views before that date.

By order of the Governor in Council,

J. DONALD,

Offg. Secy. to the Govt. of Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 28th July 1913.

Summary.—During the greater part of the week under review, stormy weather accompanied by much rain prevailed in 24-Parganas, Midnapore, Jessore, Khulna, Bakarganj, Faridpur and Chittagong, causing some damage to jute and paddy. Transplantation of winter rice and harvesting of jute in Eastern Bengal districts are in progress. The average price of rice has risen about 1·2 per cent., as compared with that of the previous week. Scarcity of fodder is reported from three, and cattle-disease is reported from six, districts. Report of damage by insect-pests to winter rice has been received from parts of the Faridpur district.

NOTIFICATIONS.

No. 1650A.D.—The 31st July 1913.—In 1910, the Government of India delegated to Local Governmets, subject to their general control, the power of making rules for the recruitment of the Provincial Civil Services. The orders delegating this power, which re-state the general conditions governing appointments to the Provincial Civil Services, are contained in the Resolution which is reproduced below :—

Nos. 1046—1058, dated Simla, the 19th August 1910.

RESOLUTION—By the Government of India, Home Department.

THE Governor-General in Council has had under consideration the recommendation made by the Royal Commission on Decentralization at the end of paragraph 128 of their report on the subject of framing rules for the recruitment of Provincial Services. The majority of the Commission consider it unnecessary that rules for the recruitment of those services should, as is now the case, require the sanction of the Government of India, and they express the opinion that the functions of that Government should be limited to laying down a few general principles as to eligibility for appointment, etc., on which detailed provincial rules would be based.

2. In the present Resolution the Governor-General in Council proposes to deal only with the Provincial Civil Services (executive and judicial). The case of other Provincial Services will be separately considered.

3. The present system under which the previous sanction of the Government of India is required to making or altering the rules for the recruitment of the Provincial Civil Services was introduced in 1892 as the result of the Report of the Public Service Commission. The Governor-General in Council has now decided to accept in substance the recommendation of the Decentralization Commission and is pleased accordingly to invest local Governments with the power to make rules for the recruitment of the Provincial Civil Services without the previous sanction of the Government of India, but subject to their general control. The general conditions which should govern such recruitment have been already fully considered in connection with the inquiries made by the Public Service Commission and the Governor-General in Council, upon a further consideration of the subject, sees no reason to modify the conclusions then arrived at. It will, however, be convenient to re-state them in the present connection, as follows :—

I.—The rules must be adapted on the one hand to obtain thoroughly efficient candidates, and, on the other, to secure the due representation in the public service of the different classes of the community.

II.—Every candidate for appointment by recruitment must furnish satisfactory evidence—

(*a*) that he is not over 25 years of age, except in the case of Barristers, Advocates, or Pleaders appointed to the judicial branch : these excepted cases will be governed by article 51 of the Civil Service Regulations ;

(*b*) that he has attained a prescribed preliminary standard of general education to be fixed by local Governments with reference to local conditions, the object being to secure men qualified by as high a standard of general education as the conditions and requirements of the local administration permit. In particular, qualification in one or more of the vernacular languages of the province in which he is to be employed is to be insisted on. The vernacular standard should be a high one, involving a thorough knowledge of the language and ability to write and read the written character with facility ;

(*c*) that he is of sound health, good physique, and active habits ; and

(*d*) that he is of good character.

III.—Every person appointed to the Provincial Civil Service by direct recruitment shall be subject to a period of probation or training during which time his appointment will be probationary only, unless in special cases the local Government declares such probation or training to be unnecessary.

IV.—The subjects of Native Princes in alliance with His Majesty shall be eligible for appointment, provided they are qualified in other respects.

V.—Admission to the Provincial Civil Service should usually be confined to persons who are natives of the province or have definitely settled in it; in the case of candidates who are not natives of the province, recent residence of at least three years in the province, should, as a general rule, be an essential condition of admission. No Barrister, Advocate, or Pleader should be appointed as such, unless he has been at least three years actually practising his profession in India and can speak the provincial vernacular.

VI.—Europeans who are not statutory natives of India shall be eligible for appointment, if qualified according to the above conditions, with the sanction of the Government of India.

VII.—The local Government should reserve to itself the right to make promotion to the superior grades of the Provincial Civil Service without regard to seniority, and seniority alone should not give a claim to appointment to the grade of Rs. 500 a month and higher grades.

VIII.—The Government of India retain power in very special cases to make direct appointments to offices in the higher grades of the Provincial Civil Services, and whenever the Government of India exercise this power in the case of judicial officers, it will be confined to Barristers, Advocates, or Pleaders of the High Courts who have shown distinguished ability in the exercise of their profession for not less than ten years and have a thorough knowledge of the vernacular.

IX.—No member of the Provincial Civil Service shall be dismissed otherwise than on the result of a judicial or formal departmental inquiry.

4. The Governor-General in Council directs that any change made in the rules from time to time should be forthwith communicated to the Government of India in the Home Department, in order that they may be in a position to exercise effective general control. His Excellency in Council considers it desirable, moreover, that this Resolution should be published by the local Governments and Administrations as part of the respective provincial rules.

2. In exercise of the authority vested in him by the above Resolution, the Governor in Council directs that the following revised rules for the recruitment of the Executive Branch of the Provincial Civil Service and of the Subordinate Civil Service in the Presidency of Bengal, which have been framed in accordance with the general principles enunciated above, be published for general information, in supersession of the previous notifications on the subject :—

REVISED RULES FOR THE RECRUITMENT OF THE EXECUTIVE BRANCH OF THE PROVINCIAL CIVIL SERVICE.

Definition.—The Executive Branch of the Provincial Civil Service includes Deputy Collectors and Deputy Magistrates.

Rule 1.—Appointments to the Executive Branch of the Provincial Civil Service will be made (1) by the promotion of selected officers who are already in the Government service and (2) by selection.

Rule 2.—The Governor in Council will determine each year the number of appointments to be made to the Executive Branch of the Provincial Civil Service.

Rule 3.—As soon as possible after the 1st July of each year, the number of appointments to be made during the year, the authorities by whom nominations for these appointments will be made and the number of nominations to be made by each authority will be announced by a notification in the *Calcutta Gazette*.

Rule 4.—Of the number of appointments to be made in any one year, ordinarily 35 per cent. will be filled by the promotion of officers who are already in Government service. Of the remaining appointments, 30 per cent. will be made on the nomination of Commissioners of Divisions, 15 per cent. on the nomination of the Syndicate of the Calcutta University and the remaining 20 per cent. will remain in the hands of the Governor in Council.

Applicants for appointments on the nomination of the Governor in Council should always state in their applications whether they will accept an appointment in the Subordinate Civil Service in case it is not possible to provide them with an appointment in the Provincial Civil Service.

Rule 5.—Ordinarily, persons appointed to the Executive Branch of the Provincial Civil Service will be subject to a period of probation, but the Government of India or the local Government may, in very special cases, make direct appointments to offices in the higher grades of the service.

Rule 6.—The nominations for the promotion of officers who are already in Government service will be made by the Financial and the Revenue Departments of Government and the Board of Revenue. By the 1st October each year, the Financial Department, the Revenue Department and the Board of Revenue will forward their nominations to the Appointment Department. The nominations of the two former should be made after consulting the Heads of subordinate departments and those of the Board of Revenue after consultation with Commissioners of Divisions.

The age of an officer nominated under this rule should not exceed 40 years.

Rule 7.—The appointments to be made on the nomination of Commissioners will be filled in accordance with the conditions laid down in rules 8, 9, 10 and 11.

Rule 8 (*a*).—The indispensable qualifications for a candidate for appointment by recruitment are (1) that he is a natural-born subject of His Majesty or of a Native State; (2) that he is not under 20 or over 25 years of age; (3) that he is of good character; (4) that he is a graduate; and (5) that he is of sound health, good physique and active habits and free from organic defect or bodily infirmity.

(*b*)—In the case of candidates who are not natives of the Presidency, recent residence of at least three years in it should, as a general rule, be an essential condition of selection. No Barrister, Advocate or Pleader should be appointed as such unless he has been at least three years actually practising his profession in India and can speak the vernacular of the Presidency.

Rule 9.—Europeans who do not satisfy the definition of Native of India, contained in section 6, Statute 33, Victoria, Chapter 3, are not eligible for appointment to the Provincial Service without the previous sanction in each case of the Government of India. With such sanction they may be appointed, if they satisfy the conditions laid down in rule 8 (*a*) and (*b*).

Rule 10.—All candidates for appointment by recruitment must furnish satisfactory evidence that they possess a thorough knowledge of Bengali. Candidates who have not already passed some recognized examination in the subject will be required to pass a special examination before admission. The object of the examination will be to test the candidate's general knowledge of the language and his ability to write and read the written character with facility.

Rule 11 (*a*).—Every district officer* will submit to the Commissioner, who is to nominate under rule 3, on or before a date to be fixed by the latter,

* In the Presidency Division this term includes the Chairman of the Calcutta Corporation.

the names of two candidates belonging to families resident or domiciled in his district, for the Provincial Civil Service. In submitting these names he will give, in Form I appended to these rules, a brief statement of the grounds of his recommendation in each case. The nominees under this rule must be non-official, but this does not exclude the nomination of Honorary Magistrates.

(*b*) Form I must be accompanied by a certificate of the Registrar of the University that the candidate has obtained a degree, a certificate of character and conduct from the Principal of the Institution at which the candidate last studied for not less than one year, or from some responsible officer of Government, a medical certificate in Form II appended to these rules, and evidence of the candidate's age.

(*c*) The Commissioner and the district officers of the Division will meet on a date to be fixed by the Commissioner, and will consider the claims of all the candidates nominated. They will also call the candidates before them, and see and converse with them so as to form an opinion regarding their suitability for the public service. The Commissioner will then select two names for each of the appointments to be made on his nomination and submit them in order of preference to Government by a date not later than the 1st October, stating his reasons for the preference given. With his report submitting these names the Commissioner will submit Form I for all candidates, entering in each case, in the last column of that form, his own opinion as to the suitability of the candidates.

(*d*) Every candidate nominated by a Commissioner must be domiciled in his Division, or, if the nominee himself be resident outside the Division for the purpose of education, his family must be resident or permanently domiciled in the Division. In making nominations special attention should be paid to the desirability of securing a fair share of appointments to each important section of the community, to social qualifications and family status and influence, to services rendered by the candidate's father, and to distinctions obtained in the University.

Rule 12.—The Syndicate of the University will be invited annually to nominate, by a date not later than the 1st October of each year, two graduates of high character and of great academical distinct on for each of the appointments to be filled on their nomination as may be declared under rule 3. The nominations will be made in accordance with the conditions laid down in rules 8, 9 and 10. From amongst these, or from amongst graduates previously nominated by the Syndicate and who have not passed the age of 25 years, the Governor in Council will, after enquiry, select as many persons as there are appointments to be made on the nomination of the Syndicate to be Probationary Deputy Collectors.

Rule 13.—Every Probationary Deputy Collector, appointed by recruitment, must furnish, either before appointment or within a specified time after appointment, a certificate of his ability to ride, signed by a District Officer or by the Joint-Magistrate in charge, or by the Commissioner or Deputy Commissioner of Police, Calcutta.

Rule 14.—In the case of probationers appointed direct to the Provincial Service the minimum term of probation will be one year, and on termination of that period appointments will be given to approved probationers as vacancies in the cadre occur. There will be no minimum period of probation in the case of officers promoted from the Subordinate Civil Service; they will be eligible for substantive *pro tempore* appointments as soon as vacancies are available. The local Government may, in special cases, declare the period of probation or training prescribed for persons appointed to the Provincial Civil Service by direct recruitment to be unnecessary. Probationers will receive a subsistence allowance of Rs. 100 per mensem. Probationers already drawing more than Rs. 100 per mensem in Government service will, however, receive an allowance equal to the salary of their former appointment or to the pay of a Deputy Collector of the lowest grade, whichever is less.

Rule 15 (a).—An officer will not be confirmed in or promoted substantively *pro tempore* from the lowest grade or that to which he was on first appointment admitted, to the next grade in the cadre of his service, until he has passed the departmental examinations by the Lower Standard and he will not be confirmed in the latter grade until he has passed completely by both standards of the departmental examinations. All officers, who

may be eligible for confirmation or promotion under this rule, will, unless considered unfit for promotion or confirmation for other reasons, be confirmed or promoted in order of seniority if vacancies are available. All officers who are confirmed or promoted will be placed above any of their seniors who may not be found qualified for confirmation or promotion; but the penalty for the delay in passing will ordinarily cease to operate when the officer passes, and, on passing, he will be placed in the same position as if he had passed in the ordinary course.

(*b*) Officers of the Subordinate Civil Service who have been promoted to the Executive Branch of the Provincial Civil Service after having passed the departmental examinations will ordinarily not be held eligible for confirmation till officers appointed direct to the latter service at the same time or before them have had a reasonable opportunity of passing the Lower Standard. They will ordinarily have to wait one year, but the case of each officer will be considered on its merits to prevent hardship in individual cases.

(*c*) Any officer, who does not pass by the first standard of examination within three years of his first appointment as probationer, will be liable to be removed, unless it shall be shown that any special circumstances entitle him to consideration; and if he does not pass within a year subsequently unless prevented by sickness or other circumstances really beyond his control, he will without fail be removed from the service.

(*d*) Officers will be expected to pass by the second standard of examination within five years of their first appointment as probationer; and if they fail to do so, they will render themselves liable to removal from the public service.

(*e*).—Officers, who have been promoted from temporary employment in the Settlement Department or in other work of a similarly arduous nature, and who continue in such work after their appointment to the Executive Branch of the Provincial Civil Service, will be exempted from passing the Lower Standard of Departmental Examination and will be eligible for confirmation and promotion, provided they are otherwise qualified. Officers of this class, who are retained in Settlement or other work indicated above, will also be exempted from passing the Higher Standard so long as they remain on such work. But no officer shall benefit by this exemption for a period of more than three years. At the end of three years every officer, who has not passed the Higher Standard of examination, will ordinarily be transferred to the general line and receive no further promotion till he passes the examination.

(*f*).—Officers, other than those mentioned in the preceding clause, should not ordinarily be deputed to Settlement work or duties of a similarly arduous nature till they have passed the Departmental Examination completely by both standards. When, however, an officer who has not passed his examination, is employed on such duties, Government will be prepared to consider the question of suspending his liability to pass the examinations until he is relieved of those duties and of allowing his promotion or confirmation to go on as if he had passed. The case of each such officer will be reported to Government and will be considered on its own merits. An officer, temporarily exempted under this rule, will, on being relieved of his duties, be required to pass completely at the first or second* Departmental Examination following his relief, and if he cannot do so, his promotion or confirmation will then be regulated in accordance with the ordinary rules.

Rule 16.—Promotion to grades below that on Rs. 500 a month will ordinarily be given according to seniority, subject to fitness and approved conduct. But the Governor in Council reserves to himself the right to make promotion to the senior grades of the Provincial Service by special selection for merit without regard to seniority, and hereby declares that seniority alone shall not give a claim to appointment to the grade on Rs. 500 or higher grades.

Rule 17.—No member of the Provincial Service shall be dismissed otherwise than on the result of a judicial or formal departmental enquiry.

*If the time intervening between the date of relief of any such officer and the date of the following Departmental Examination be less than two months, the ordinary rules will be enforced if he cannot pass at the third Departmental Examination held after the date of relief.

REVISED RULES FOR THE RECRUITMENT OF THE SUBORDINATE CIVIL SERVICE.

Definition.—The Subordinate Civil Service includes Sub-Deputy Collectorships and any other appointments which the Governor in Council may from time to time specifically declare to be included therein.

Rule 1.—The number of appointments to be made to the Subordinate Civil Service will be determined each year by the Governor in Council, and the number of appointments to be made, the authorities by whom nominations for these appointments will be made and the number of nominations to be made by each authority will be notified in the manner prescribed in rule 3 of the rules for the recruitment of the Executive Branch of the Provincial Civil Service.

Rule 2.—The number of appointments to be made annually will ordinarily be distributed as follows:—

(*i*) to Commissioners of Divisions ... ... 50 per cent.
(*ii*) to the Financial and the Revenue Departments of Government and the Board of Revenue ... 20 „ „

The Governor in Council will retain the remaining 30 per cent. of these appointments in his own hands.

Rule 3.—The appointments to be made on the nomination of Commissioners of Divisions will be made in the manner prescribed in rules 8, 10 and 11 of the rules for the recruitment of the Executive Branch of the Provincial Civil Service.

Rule 4.—For the appointments to be made on the nomination of the Financial and the Revenue Departments and the Board of Revenue from among officers serving under them, the Financial Department, the Revenue Department and the Board of Revenue will forward their nominations to the Appointment Department by the 1st October each year. A nominee under this rule must not ordinarily exceed 40 years of age.

Rule 5.—Rules 13, 14 and 15 (*a*), (*c*), (*d*), (*e*) and (*f*) of the rules for the recruitment of the Executive Branch of the Provincial Civil Service apply *mutatis mutandis* to the Subordinate Civil Service also. The usual subsistence allowance for Probationary Sub-Deputy Collectors will, however, be Rs. 50 per mensem.

No. 1651 A.D.—The 1st August 1913.—In conformity with the provisions of rule 3 of the rules for the recruitment of the Executive Branch of the Provincial Civil Service and of rule 1 of the rules for the Subordinate Civil Service, it is hereby notified for general information that the Governor in Council has decided to make 19 and 12 appointments to the Provincial and to the Subordinate Civil Services respectively during the year 1913.

REVENUE DEPARTMENT.

NOTIFICATIONS.

No. 1554L.R.—The 30th July 1913.—Whereas it appears to the Board of Revenue that the continuance of the proprietors of the temporarily-settled estate Rajbari Kalikapur, bearing tauzi No. 1745, on the revenue roll of the district of Pabna in the management of the said estate would endanger the public tranquillity and be seriously detrimental to the interests of the tenants, and whereas the aforesaid circumstance has been reported by the Board of Revenue to the Governor in Council:

Pabna.

Now, therefore, in exercise of the power conferred by the last proviso to section 3 of the Bengal Land Revenue Settlement Regulation, 1822 (Ben. Reg. VII of 1822), read with clause *first* of section 2 of the Bengal Land Revenue Settlement Regulation, 1825 (Ben. Reg. SURVEY DEPARTMENT.

NOTICE.

GOVERNMENT has sanctioned, as an experimental measure, the establishment of a School of Land Surveying from October next, some four miles from Comilla, which will take the place of the First-year's Land Surveying Course at the Dacca School of Engineering. Full particulars may be obtained from the undersigned.

The names of students already registered for the next First-year's Course at the Dacca School will be transfered to the Entry Rolls of the new School.

The object of the school is to turn out practical Land Surveyors suitable for zamindari and similar work in Bengal. Details of the training that will be given will be forwarded to any employers who care to ask for them, and, so far as is practicable, special training will be arranged for for Surveyors already in their employ.

GENERAL DEPARTMENT.

NOTIFICATIONS.

No. 3815.—The 1st August 1913.—The following Resolution of the Government of India, Department of Commerce and Industry, is republished for general information.

H. F. SAMMAN,
Offg. Secy. to the Govt. of Bengal.

No. 5829-5876—11, dated Simla, the 24th July 1913.
RESOLUTION—By the Govt. of India, Dept. of Commerce and Industry.

The Governor-General in Council is pleased to direct that the rules for the supply of articles for the public service appended to this Resolution shall be substituted for the rules promulgated with the Resolution in this Department No. 6847-6892—33, dated the 12th September 1912.

ORDER.—Ordered that this Resolution be communicated to all Departments of the Government of India, to all Local Governments and Administrations, to the Comptroller and Auditor-General, to all Accountants-General and Comptrollers, to all Heads of Departments subordinate to this Department, and to the Private and Military Secretaries to His Excellency the Viceroy.

Ordered, also, that the Resolution be published in the *Gazette of India* for general information.

RULES FOR THE SUPPLY OF ARTICLES FOR THE PUBLIC SERVICE.

Subject to the provisions of the General Rules specified below, and to any instructions regarding specific articles which have been, or may be, issued by the Government of India from time to time (*e.g.*, those relating to the supply of stationery), the following are the rules relating to the supply of articles required for the public service. These rules supersede all previous orders which are not explicitly continued :—

RULE 1.—*Articles manufactured in India from Indian materials.*

All articles which are produced in India in the form of raw material, or are manufactured in India from materials produced in India, should, by preference, be purchased locally, provided that the quality is sufficiently good for the purpose, and the price not unfavourable.

RULE 2.—*Articles manufactured in India from imported materials.*

All articles manufactured in India from imported materials should, by preference, be purchased in India, subject, however, to the following conditions :—

(*a*) That a substantial part of the process of manufacture of the articles purchased has been performed in India.

(*b*) That the price is as low as that at which articles of similar quality can be obtained through the India Office.

(*c*) That the materials employed are subjected to such inspection and tests as may be prescribed by the Government of India.

Note.—The term "a substantial part of the process of manufacture" in clause (*a*) means that a substantial part of the preparation of the finished article must be performed in India, whether from raw materials or from component parts obtained in a finished state from other sources.

RULE 3.—*Articles which are not manufactured in India.*

Articles which are not manufactured in India should be obtained by indent upon the Store Department of the India Office, except in the following cases :—

(*a*) When the articles are already in India at the time of order, and their price and quality are not unfavourable as compared with those at which similar articles could be obtained through the India Office, and the cost of the supply does not exceed the limits prescribed at the end of Rule 13.

(b) In the case of important construction works let out on contract, articles not manufactured in India required for the construction of such works may be supplied by the contracting firm, subject to the following conditions:—

(i) That the firm is approved by the Government of India and is included in the list of firms so approved—*vide* Schedule B, Appendix 30, P. W. D. Code, Volume III.

(ii) That the materials are subject to the current specifications and tests prescribed by the Government of India.

Note.—Articles of clothing and equipment of European manufacture required for the Burma Police Department may be procured for the present without the intervention of the India Office.

RULE 4.—*Articles which should be purchased in India.*

The following articles, whether manufactured or produced in India or not, should be purchased in India, provided that they comply with the current specifications, are of the requisite quality, and can be obtained at a not unfavourable price:—

(a) Those of a perishable nature.

(b) Explosives.

(c) Block tin.

(d) Wines and spirits and English bottled beer for the use of Government hospitals in India.

(e) Kerosine oil.

(f) Plant and materials for electric installations intended to take current from existing centres; and small electrical power and lighting plants of not more than 25 kilowatt capacity, which involve the provision of generators and cables for distribution, provided they comply with the current specifications and tests prescribed by the Store Department of the India Office.

(g) Australian timber.

(h) Australian copper.

(i) Italian marble,

(j) British Columbian timber.

(k) Plant and materials for small gas installations the cost of which does not exceed Rs. 15,000.

(l) Such other classes of articles as may from time to time be prescribed by the Government of India. All such cases should be reported to the Secretary of State for his information.

RULE 5.—*Special purchases in India.*

When serious inconvenience to the public service would be caused by waiting to obtain an article from England through the Director-General of Stores, or when, owing to the greater promptitude of supply, an economy can be effected by purchasing in India articles which, under the foregoing rules, should be obtained through the Store Department, the purchase may be made in India, subject to Rule 13, provided that the articles are already in India at the time of order; but in such cases, if the value of the articles exceeds Rs. 750, the sanctioning officer should place on record the reasons which make the local purchase desirable. This record shall be available for the inspection of the Examiner of Accounts or the Supervising Officer when required.

RULE 6.—*Inter-departmental purchases.*

Nothing in the rules is to be deemed to prohibit the purchase of stores of European manufacture by one Department or Railway from another.

RULE 7.—*Method of obtaining stores not purchased in India.*

All articles which under the foregoing rules are not to be bought in India should be obtained by indent on the Store Department of the India Office, except any which the Secretary of State may have specially authorised

the Government of India or its officers to purchase direct outside India. Such purchase is at present permissible in the case of the following articles:—

(*i*) Seeds.

(*ii*) Cinchona bark.

(*iii*) Articles for experimental or research purposes required by officers approved by the Government of India from time to time. A list of the officers thus approved is given in Appendix A.

(*iv*) Excise instruments and apparatus required by Provincial Excise Departments for experimental or research purposes.

(*v*) China, glass, cutlery, plate, crockery and perishable fabrics, including linen, for residences which are furnished by Government.

(*vi*) Australian timber.

(*vii*) Australian lead.

(*viii*) Such articles as Superintendents of Vaccine Depôts may require for the preparation of vaccine lymph (*e. g.*, lanoline and glycerine).

(*ix*) Chemicals and scientific apparatus of small value required by Government schools and colleges, which do not require careful inspection and testing.

(*x*) Articles required for Viceregal residences in special and urgent cases.

Note.—Payments for stores purchased under this rule should be made direct to the suppliers by the purchasing officers.

GENERAL RULES.

RULE 8.—*Forecast of requirements which should under the rules be complied with by indent on the India Office.*

All requirements should be fulfilled locally in accordance with the provisions of the Resolution No. 1941-1988-102, dated the 14th July 1909, provided that quality and price are not unfavourable and provided that such purchase does not violate any of the instructions contained in these rules. In cases, however, in which stores have to be obtained through the India Office, every effort should be made to foresee requirements so that the indents may be despatched in ample time. Persistent failure of any officer to make such efforts should be brought to notice by the Local Government or other authority, which may, at its discretion, cancel or reduce the powers of sanction entrusted to the officer at fault.

RULE 9.—*Time required to obtain Stores from England.*

It may be assumed that the time required from the transmission of an indent upon the Secretary of State to the receipt of the stores is—

Urgent telegraphic indents, not less than three months.

Ordinary indents, six to ten months according to the article demanded.

For special stores, *e.g.*, large girders, rolling stock, etc., up to one year in ordinary times.

Note.—When ordinary stock articles conforming to well-recognised standards are required within a shorter period than three months, and the purchase has, under the rules, to be made through the India Office, the indenting officer shall, if he desires that the procedure indicated in the Resolution in the Department of Commerce and Industry No. 6822-6869-37,

dated the 13th September 1911, be adopted, state the fact clearly in his telegraphic indent.

RULE 10.—*Method of comparing prices.*

In all cases in which the selection of source of supply depends upon comparison of prices, the procedure to be adopted for such a comparison is as follows:—

(*i*) A reference should be made to Home prices as shown in the Rate Lists, and frei. ht should be added at the lowest rates paid by the India Office together with 13*s.* 4*d.* per 100*l.* for interest, 2*s.* 2*d.* per 100*l.* for insurance, and 3*d.* per ton for freight brokerage.

(*ii*) In cases of important contracts, the prices ruling in the English market should be ascertained by telegraphic reference to the Director-General of Stores.

(*iii*) In cases where the necessary information as to Home prices is not available from the Rate Lists, the purchase in India shall be subject to the condition that the price is not unfavourable.

(*iv*) In order to arrive at the market value at an Indian port of the article imported from England the following charges shall be included:—

(*a*) Landing, wharfage, and port charges as shown in the Rate Lists.

(*b*) Customs duty, as shown in the Tariff to be applicable to the article in question, to be calculated on its cost *plus* the additional charges mentioned in the earlier part of this rule.

(*v*) The cost of carriage to site from port or place of manufacture, as the case may be, shall be taken into account.

RULE 11.—*Tests.*

Any articles purchased in India which should be tested are liable to the specifications laid down from time to time by competent authority, with the approval of the Secretary of State in Council, and should be required to pass the tests prescribed for such articles.

RULE 12.—*Firms from which iron and steel may be bought in India.*

Important iron and steel work, if purchased in India, should only be obtained from firms approved by the Local Government or Administration and entered in a schedule as corrected from time to time by the Government of India. A list of approved firms is given in Appendix B.

Note.—By "important iron or steel work" are meant articles of iron or steel, which form important components of the project in hand; *e.g.*, bridge girders and roof trusses, built up in the firm's workshops and supplied, ready for erection, in such sections as may be convenient, and rolled steel beams, rails or other sections cut to length or otherwise prepared at the firm's workshops to suit the indenting officer's requirements. The intention of the rule is to ensure that parts, the accurate preparation of which is essential to the security of a project, shall be obtained only from firms which possess workshops and appliances capable of turning out work of the desired standard. The raw materials used may be either imported or of Indian manufacture, subject to the usual specifications.

RULE 13.—*Financial limits on powers of Officers to make purchases in India.*

In the case of purchases made under Rules 1, 2 and 4, an officer's powers of purchase extend to the ordinary limits to which he is empowered to enter into contracts: but in the case of purchases made in India under Rules 3 (*a*)

and 5, the limits for expenditure on any one article or on any number of similar articles purchased at one time are as follows :—

(a) Civil Departments.

	Rs.

No. 312, dated Simla, the 10th July 1913.

NOTIFICATION—By the Government of India, Department of Education.

THE Governor-General in Council is pleased to direct that the following shall be substituted for Rule 23A in Part V of the Ecclesiastical Rules published with the Department of Education Notification No. 212, dated the 10th May 1913:—

Rule 23A.—Local Governments and Administrations, including the Director-General of Military Works Services, are authorized to incur, when necessary, expenditure which is in excess of that permissible under, or is not covered by, the preceding rules, up to a limit of Rs. 500 in each case, on the understanding that this sum represents the maximum aggregate expenditure which may be sanctioned by them for additions and alterations to any one church.

Note.—The above rule has effect from the 11th September 1910. Local Governments, however, may also sanction such expenditure, up to a limit of Rs. 500, even if the permissible grant had been exceeded prior to that date, irrespective of the amount of such excess.

No. 3811.—The 2nd August 1913.—The following notification, issued by the Government of India, Department of Commerce and Industry, is republished for general information.

H. F. SAMMAN,
Offg. Secy. to the Govt. of Bengal.

No. 5555—97, dated Simla, the 19th July 1913.

NOTIFICATION—By the Govt. of India, Dept. of Commerce and Industry.

In exercise of the powers conferred by sections 27 and 39 of the Indian Life Assurance Companies Act, 1912, the Governor-General in Council is pleased to make the following rules:—

Short title.

1. These rules may be called the Indian Life Assurance Companies Rules, 1913.

Definitions

2. In these rules, unless there is anything repugnant in the subject or context,—

(*a*) "the Act" means the Indian Life Assurance Companies Act, 1912;

(*b*) "Company" means a Life Assurance Company to which the Act applies;

(*c*) "dividing society business" means life assurance business under which the amount payable on the policy money becoming due is not fixed but depends either partly or wholly on the results of the division of any portion of the premium income or funds amongst the policies which have become due for payment in proportion to the premiums received under each class in any specified period.

Qualifications of Actuaries under the Act.

3 (*1*) Any person who, as an Actuary, investigates the financial conditions of a Company or signs valuation returns of a Company shall be either—

(1) a Fellow of the Institute of Actuaries, London, or a Fellow of the Faculty of Actuaries in Scotland: or

(2) where application is made by a Company and where, in the opinion of the Governor-General in Council, special circumstances exist,—

(*a*) an Associate of such Institute of Actuaries or of such Faculty of Actuaries; or

(*b*) such other person having actuarial knowledge as the Governor-General in Council may authorise to be employed to perform the duties of an Actuary.

(*2*) Every application by a Company for permission to employ as an Actuary any person other than a Fellow of the Institute or Faculty of Actuaries shall state the work for the performance of which such person is required, and the Governor-General in Council, if he grants the application, shall cause a certificate to be issued to the Company permitting, subject to such conditions and restrictions as he thinks fit, the employment of the person mentioned in the application.

Accuracy of particulars.

4. An Actuary when investigating the financial condition of a Company shall either satisfy himself as to the accuracy of the particulars extracted from the books or require a certificate of their accuracy from the Manager and one other responsible officer of the Company.

Particulars to be given in report of Actuary.

5. An Actuary, after investigating the financial condition of a Company, shall report—

(a) whether the calculations are correct and made on the principles which are contained in the statement furnished under the Fourth Schedule to the Act;

(b) whether these principles have his approval;

(c) whether he has obtained all the information and explanations that he has required;

(d) what adjustment was used in the valuation to allow for unequal incidence of the premium income, and for premiums payable more often than once a year;

(e) the method by which both the ages at entry and the ages at valuation were arrived at;

(f) the rate at each age of the mortality assumed and of the annuity values used in the valuation where the tables employed are not published;

(g) whether all negative values were eliminated from the valuation; and

(h) the reserve values held against policies effected at ages 20, 30, 40 and 50 and which have been in force for 1, 2, 3, 4, 5, 10, 15 and 20 years, respectively, in respect of—

(i) Whole Life Assurances with premiums payable throughout life;

(ii) Whole Life Assurances with premiums payable for 20 years;

(iii) Endowment Assurances payable at age 60 or previous death.

Further particulars in case of Company not in a position to distribute surplus.

6. In the event of the Actuary finding that the financial condition of the Company is such that, in his opinion, no payment should be made either of bonus to policy-holders or of dividend to members, he shall state whether or not he finds the Company to be solvent. If he finds it to be insolvent—

(a) he shall state whether he considers that the Company could be made solvent as regards existing contracts by the transfer of its subscribed capital (whether paid or unpaid) to make good the deficiency in the life assurance fund. If so, he shall state what in his opinion is the amount so required, and whether or not any alteration should be made in the rates of premium for future entrants;

(b) if he considers that the Company cannot be made solvent as regards existing contracts by the transfer of the whole of the subscribed capital to the credit of the life assurance fund, he shall state what proportion of the sum assured the Company would, in his opinion, be able to meet under such contracts, if all the premiums thereunder were reduced proportionately with the sum assured, and all subscribed capital were fully paid up and transferred to such fund.

Paid-up capital not to be treated as assets.

7. Companies transacting life assurance and annuity business only may include in the life assurance revenue account the paid up capital and all the other funds of the Company, such as Investment Reserve Fund, Dividend Reserve Fund, Sinking Fund, etc., stated separately both at the beginning and at the end of a year, so as to show any increase or diminution in such individual funds during the year; but although paid-up capital may be shown along with the funds in this way, it shall not be treated as part of the Company's assets for the purpose of showing a divisible surplus at the time of any actuarial investigation of the financial condition of the Company.

Dividing society business.

8. Every Company transacting dividing society business shall show in its accounts both the premium income and the claims of each class of such business separately from the premiums and claims of the other classes of business transacted by the Company.

Separate Revenue Account.

9. A Company may submit a separate Revenue Account similar to the Life Assurance Account, in addition to forms A, B and C of the First Schedule, for any class of business which it transacts, such, for instance, as dividing society business.

Policies not qualifying for full benefits.

10. If any class of policy is not qualified for full benefits until after the first year or other stated period, the premium income of that class shall be separated accordingly in the accounts. In the case of a Company having more than one qualifying period for any such business the premium income shall be shown separately for each qualifying period.

Audit of accounts of Companies not subject to law of British India regarding registration of Companies.

11. The accounts of every Company not subject to audit n accordance with the provisions of any law for the time being in force in British India regarding the registration of companies shall be audited in accordance with that law.

Additional particulars in case of Companies to which Act applies.

12. Every auditor auditing under the Act the accounts of a Company shall state the following additional particulars in his report—

(*a*) whether or not he has personally verified the whole of the investments with the securities and other vouchers and is satisfied as to their correctness;

(*b*) any other matters that he considers should be brought to the notice of the members or policy-holders of the Company.

Deposit of copies of documents.

13. Copies of the documents mentioned in section 14 of the Act shall be deposited at the head office and the principal branch office in each province in which the Company transacts business for the inspection of any member or policy-holder of the Company.

Fees.

14. Copies of all documents deposited with the Governor-General in Council under the Act shall be kept by the Registrar of the province in which the head office in British India of the Company is situate, and shall be open to inspection on payment of a fee of one rupee; and any person may procure a copy of any such document or any part thereof on payment of a fee of six annas for every hundred words or fractional part thereof required to be copied.

Translation of documents.

15. If any portion of any document required to be deposited under the Act is not in the English language, a translation thereof, certified by a responsible officer of the Company to be correct, shall be furnished along with each copy deposited with the Governor-General in Council.

Form of notice under section 19.

16. Notice under section 19 of any alteration in—

(*a*) the charter, statute, or memorandum and articles or other instrument constituting or defining the constitution of a Life Assurance Company constitued outside British India, or

(*b*) the list of directors of such Company, or

(*c*) the names and addresses of persons resident in British India authorized to accept on behalf of such Company service of process and any other notices required to be served by the Act,

shall, within three months from the date upon which such alteration was effected. be filed with the Registrar, in the Form annexed.

Form referred to in Rule 16.

(For Companies constitued outside British India.)

Pursuant to section 19 of the Indian Life Assurance Companies Act, 1912,

notice is hereby given by the ______________________________ Company

constituted in ______________ and which has established a place of business / has appointed an agent to obtain life assurance business

at ______________________ in British India of the following alterations in

Pabna.

No. 194T.-L.S.-G.—The 2nd August 1913.—The following draft of by-laws which have been framed by the District Board of Pabna, under section 139 of the Bengal Local Self-Government Act, 1885 (Bengal Act III of 1885), and which the Governor in Council proposes to confirm under clause (2) of the said section, is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on the 15th September 1913, and any objection or suggestion received by the undersigned, through the Magistrate, before that date will be duly considered:—

DRAFT BY-LAWS.

Definitions.

(1) "Reserved tank or well" means a tank or well which the District Board has set apart under section 90 of the Bengal Local Self-Government Act of 1885, by public notice, for the supply of water for drinking and for culinary purposes, and includes any reservoir or part of any river, khal or other channel, so set apart; and a notice-board on the edge of a reserved

tank or well, containing the words "Reserved tank" or "Reserved well" or words to that effect, shall be deemed to be sufficient notice for the purpose of this definition; and

(2) the "slopes" of a reserved tank or well include all places from which water can flow directly into such tank or well.

By-laws.

(1) No person shall—

(*a*) bathe or wash any portion of his own body or the body of any other person or

(*b*) wash clothes or

(*c*) wash any cattle or other animal, or

(*d*) allow any of his ducks, geese, or other birds to enter into the water,

in any reserved tank or well, or upon any of the banks, slopes, or sides of any reserved tank or well.

(2) No person shall—

(*a*) commit any nuisance in or on the banks, or slopes, or sides of any reserved tank or well, or

(*b*) throw any filthy substance thereinto, or

(*c*) in any way pollute the water thereof, or

(*d*) allow the water of any sink, sewer, cess-pool or privy, or any offensive matter belonging to him or being on his land, to flow thereinto.

Explanation.—Steeping jute or bamboos in a reserved tank amounts to an offence against this by-law.

Penalties.

A breach of any of the by-laws mentioned above shall be punished with fine, which may extend to Rs. 50 (rupees fifty only).

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

SOUTH AUSTRALIA—Gulf of St. Vincent.

Port Adelaide river—Mooring buoys and beacon at the North Arm removed.

No. 343 (third publication).—The President of the Marine Board, Port Adelaide, has given Notice (No. 11 of 1913) that the mooring buoys and beacon at the North Arm, formerly used by vessels carrying explosives, are to be removed at once, and that in future vessels with explosives on board will not be allowed to come up the river beyond Schnapper Point, where a new berth for such ships has been provided.

This affects Admiralty Charts Nos. 1750 and 1752.

SOUTH AUSTRALIA—Gulf of St. Vincent.

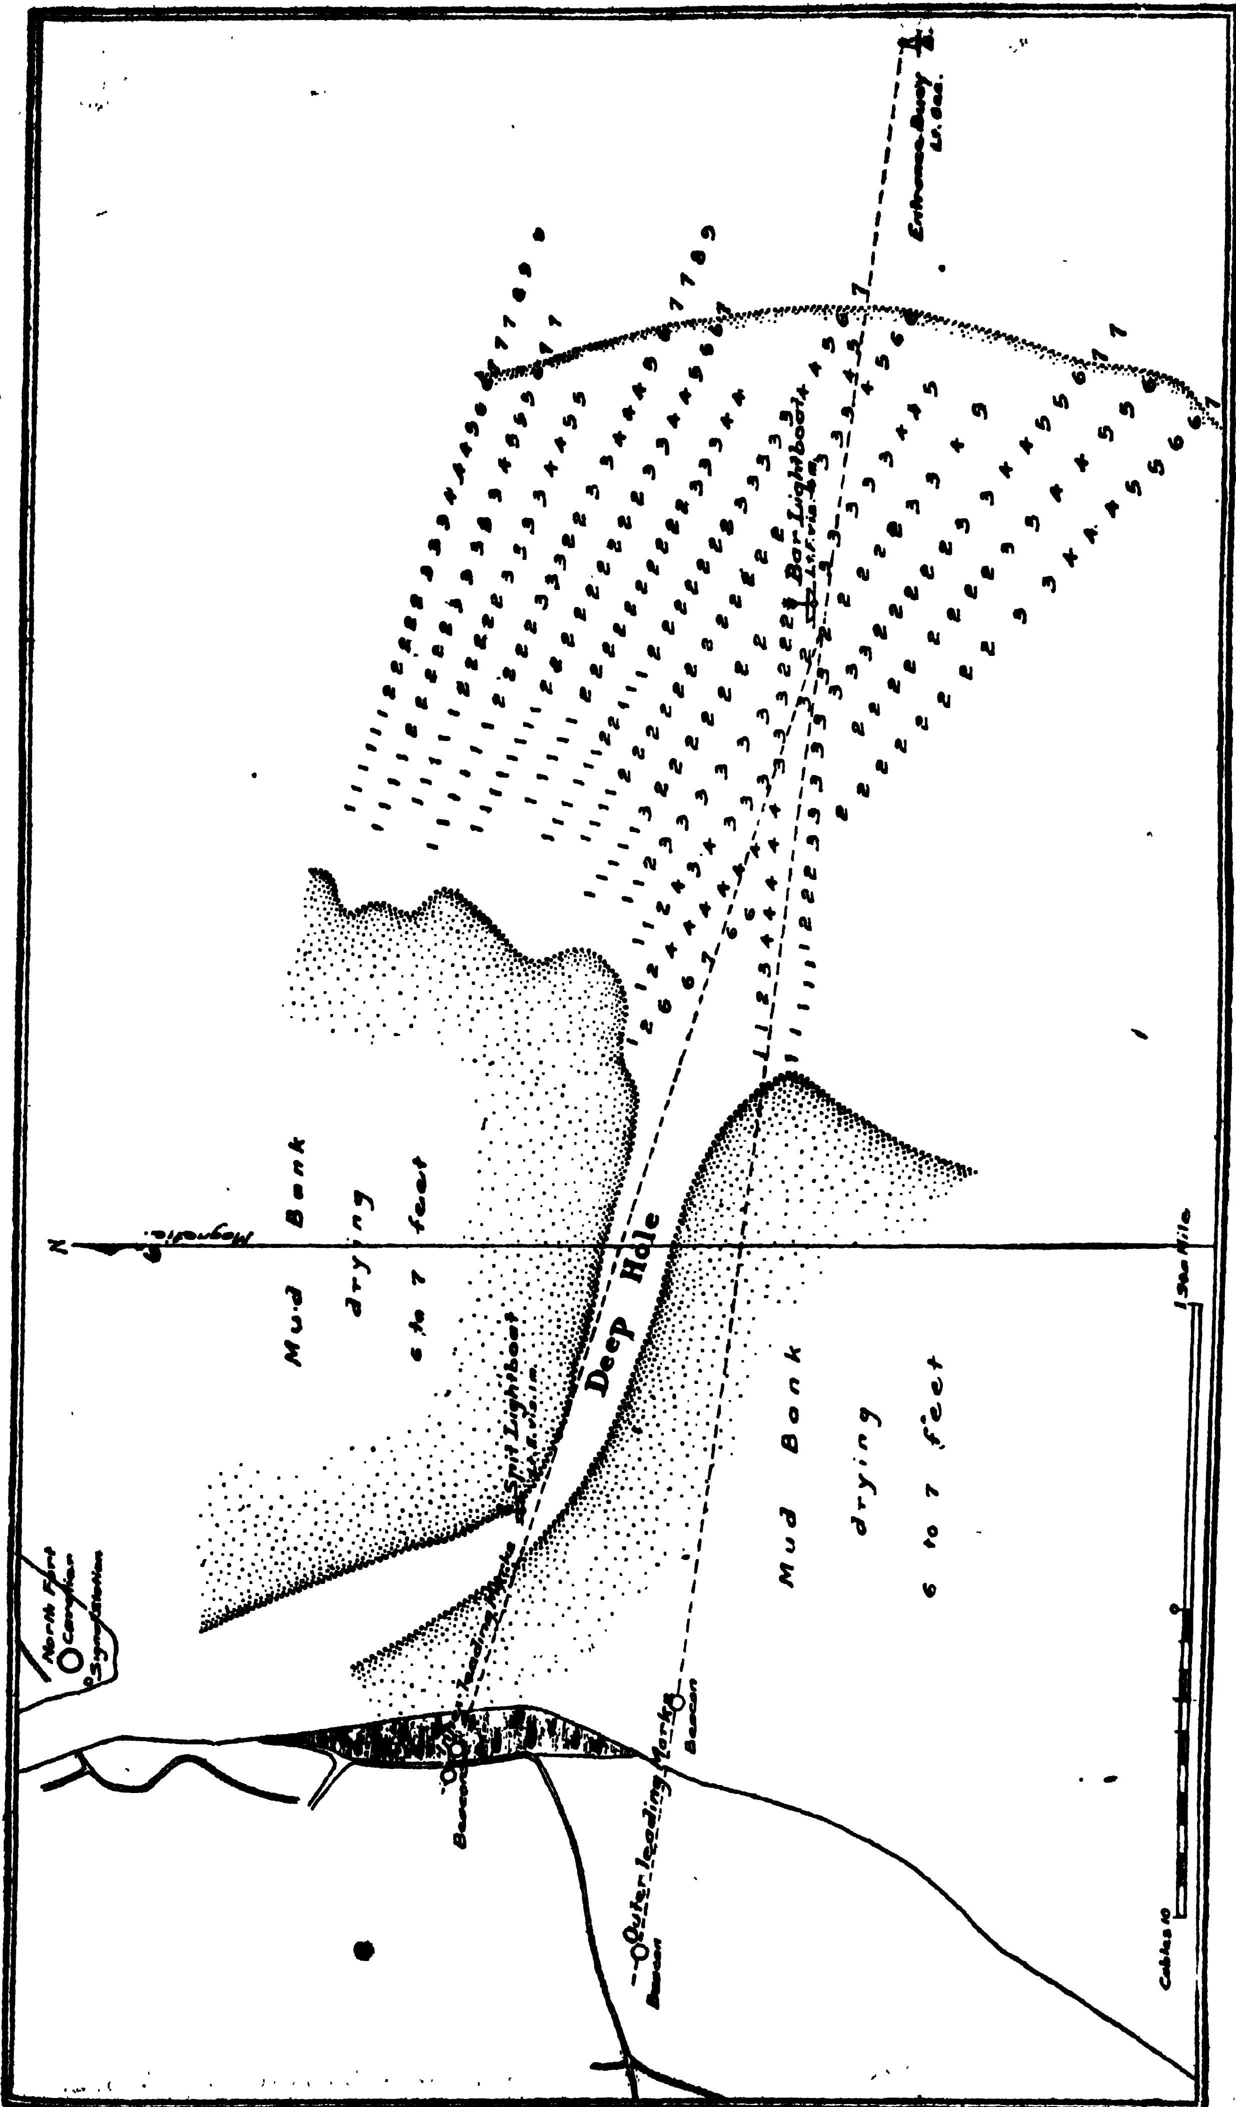
Port Adelaide, outer harbour—Prohibited anchorage.

No. 344 (third publication).—The President of the Marine Board, Port Adelaide, has given Notice (No. 12 of 1913) that no vessel is allowed to anchor in the Port Adelaide River opposite the Wharf at the Outer Harbour or in such a way as to obstruct the Channel.

This affects Admiralty Charts Nos. 1750 and 1752.

CHINA SEA—Tientsin district.

Gulf of Pechili. Taku bar—Temporary leading marks replaced by permanent marks.



No. 345 (third publication).—The Coast Inspector, Shanghai, has given Notice (No. 552 of 1913) that the temporary leading marks for the Bar Channel have been replaced by two iron open-work beacons, erected one on the mainland and one on the foreshore, about 1·8 miles to the southward of North Fort Light.

The beacons are surmounted by spherical cages and are painted *black*.

The height of the eastern beacon is 47 feet, and that of the western beacon 68 feet, above high water, and they are 5,000 feet apart.

At night a fixed *white* light, Dioptric, of the Sixth Order, is exhibited from the summit of each beacon.

The accompanying plan shows the positions of the beacons relatively to the channel.

CHINA SEA—Shanghai District.

Shaweishan light—Alteration in character.

No. 346 (third publication).—With reference to Notice to Mariners No. 78 of 1913, issued by this Office, the Coast Inspector, Shanghai, has given further Notice (No. 553 of 1913) that on or about the 15th July 1913 the character of the Shaweishan Light will be changed.

The new illuminating apparatus will be Group Flashing of the Second Order, showing two *white* lightning flashes in quick succession every 15 seconds.

The approximate power of the flash will be 400,000 candles.

In all other respects the particulars of this light-station will remain as before.

The temporary lights, notified in Notice to Mariners No. 544 (this office No. 78 of 1913), will be discontinued when the new light is exhibited.

AUSTRALIA—East coast.

Beacons erected to mark the position of the submarine cables across Johnstone river.

No. 347 (third publication).—The Portmaster, Brisbane, has given Notice (No. 8 of 1913) that four (4) beacons are being erected on the banks of the Johnstone River, two on each bank, to mark the position of the submarine cables, which are laid across the Northern Branch of the River immediately above its junction with the Southern Branch. The beacons will be triangular in shape, and painted white with red vertical stripes. The distance between the two beacons on each bank will be 122 feet, and the cables will lie midway between them.

Masters of vessels navigating the locality are cautioned not to drop their anchors within the area indicated by the beacons.

Chart affected.—No. 2350; Australia Directory, Vol 2.

AUSTRALIA—East coast.

Brisbane River entrance—New Pile light.

No. 348 (third publication).—The Portmaster, Brisbane, has given Notice (No. 9 of 1913) that on and after 23rd June 1913 the main light will be exhibited from the New Pile Lighthouse at the entrance to the Brisbane River.

The light, which is 48 feet above high water, will occult during the flood tide showing light for ten (10) seconds and eclipsed for two (2) seconds.

The light is visible between the following bearings:—

White from S. 83° W. to S. 34° E., intensified over an arc of 15°, the centre of which bears S. 28° W. from the direction of Cowan Lighthouse.

Red from S. 34° E. to N. 21° W.

Red from N. 79° W. to S. 83° W.

A beam of white light between the bearings of N. 38° W. and N. 44° W is also shown between St. Helena and Mud Islands.

The same tidal and other signals will be made from the new lighthouse as were formerly exhibited from the old structure.

Telephone connection has been established.

The temporary floating light hitherto marking the outer end of the Cutting will be discontinued.

NOTIFICATION.

No. 68T.—Medl.—The 29th July 1913.—Extracts (paragraphs 1-22) from the Annual Report on the Government Cinchona Plantations and Factory in Bengal for the year 1912-13 are published for general information.

J. DONALD,
Offg. Secy. to the Govt. of Bengal.

FIFTY-FIRST ANNUAL REPORT OF THE GOVERNMENT CINCHONA PLANTATIONS AND FACTORY IN BENGAL FOR THE YEAR 1912-13.

1. **General.**—The year has been an important one so far as the production of bark and quinine is concerned. Towards the middle of 1912 negotiations were commenced between the Java planters, who produce about 80 per cent. of the world's bark, and the European bark importers and quinine manufactures, with a view to an agreement as to the minimum unit price to be given for bark. The price of quinine in the bark had been going down

steadily for a number of years, and had reached a point that threatened the conversion of much cinchona land in Java into coffee, tea or sugar-producing areas. At present the negotiations between these bodies still drag on, but it seems probable that an agreement will be arrived at whereby, among other conditions, the minimum rate for bark will be raised to 5 Dutch cents. per unit. Already the unit price has reached a figure 30 per cent. above that which obtained 18 months ago. With the possible result of these negotiations in view, the policy followed has been to conserve as far as possible the bark on the Bengal plantations, to acquire a stock of bark and quinine in Amsterdam while prices still remain low, and to lay in a store of the alkaloid both extracted and in the bark sufficient to tide over a period of high prices. At the same time it was thought desirable to undertake with diligence extensions on the existing plantations, so that even though an agreement be ratified at the end of five years, Government may by that time have sufficient of the alkaloid to cope with any advanced demand and also enough bark to keep the factory working at an enconomic rate. During the year important results on the therapeutic value of pure amorphous alkaloid of quinine have been published by Major E. E. Waters, I.M.S. These go to prove that this drug, hitherto of little importance as a factory product, should receive more attention from medical practitioners than it has in the past.

2. **Weather.**—The rainfall on Mungpoo during the year was 128·04 inches, 6 inches above the average. The only remarkable feature was the unprecedented fall in November, 13·38 inches, of which 9·96 inches fell in one day. The highest previous record in 22 years was 0·66 inches for the month in 1892. Although the average rainfall on Mungpoo is slightly higher than cinchona requires, the plants more recently put out are looking extremely well.

On Munsong the rainfall as usual was less than on the sister plantation. It totalled 106·80 inches, being also above the average 92·82 for the previous 12 years. No very heavy rainfall occurred during the year, but just under 4 inches fell on 5 days, 18th June, 17th and 22nd August, 31st October, and 1st November.

3. **Plantations and crops.**—(*a*) *Mungpoo.*—Although the rainfall was heavy, it was fortunately distributed throughout the year and arrived at times when most desired. The result has been a high percentage of successes in the extension areas. This applies to both cinchona and reafforestation work. The two experimental plots of cinchona of 25 acres each mentioned in last year's report have done extremely well. The plants when put out measured about 1 foot in height, and are now on an average 4 feet high. This growth compares favourably with the best on Munsong, and can be taken as a very promising indication of the effect of reafforestation on subsequent cinchona growth. If the progress shown by those experimental plots continues, we have proof that by systematic reafforestation land can in a comparatively short period be cured of cinchona sickness. Another 25 acres have been planted up during the year, 10 acres of *C. Ledgeriana* at Mungpoo, 8 acres of *C. Ledgeriana* and 7 acres Hybrid No. 2 at Sittong. The older blocks of cinchona on Mungpoo cannot be looked on as successful. Many of the trees show indifferent health, blanks are numerous, and the land cannot again go under cinchona until it gets a 20 years' rest in secondary forest. Reafforestation work still continues to call for the geater part of the staff's energies. Fuel and timber extensions for the year amount to 300 acres, and such species of trees as have been mentioned in former reports have been utilized. Instead of planting 8 feet × 8 feet as has hitherto been done, the trees have this year been put out 6 feet × 6 feet. Much of the land on Mungpoo, especially on the Labdah subdivision, proves only too good a medium for thatch grass pest, and when reafforestation is carried on under such adverse conditions, many of the trees have difficulty in holding their own. It is hoped that this closer planting may help young trees in their struggle against the grass during the first few years of their growth. The practice adopted by the Forest Department of giving out such land to native cultivators for a year or two is now being followed, and will doubtless prove

a saving when the land comes to be put under forest. As giving an idea of the amount of reafforestation work which goes on, the number of trees at present in the nurseries awaiting favourable opportunities for planting out may be stated—*Duabanga sonneratioides* 30,000 trees, *Morus lævigata* 6,000 trees, and *Bucklandia populnea* 20,000 trees, besides 300,000 seedlings of *Betula*, *Terminalia*, *Alnus*, *Schima*, and smaller lots of other valuable trees.

By the erection of a heated propagating house, which is being undertaken, the successful growth of *Cephælis Ipecacuanha* should become assured. There were at the end of March 1913, 485 acres of all species of cinchona on Mungpoo and Sittong carrying about 1,140,065 plants. Since last year's report was written the acreage has been reduced by 25 acres and the number of plants by about 65,466. During the year 109,016 trees were uprooted and 139,870 lbs. of bark obtained, or about 1·28 lbs. per tree. Though rather better than last year's return, this yield is still much smaller than can justly be expected from the younger blocks when these come to harvesting age.

(*b*) *Munsong.*—The total cinchona area on all divisions of Munsong at the end of March 1913 was 1,294½ acres, being an increare of 246½ acres over last year's return. During the year 221 acres of all species on all divisions were planted up. Kashyem has had 119 acres extension, Munsong 22 acres, and Burmiak 80 acres. The total number of plants on Munsong on 31st March 1913 was about 1,713,787, being an increase of about 200,471 during the year. The number of trees uprooted was 107.962, and from this harvest 471,468 lbs. of bark were obtained. The yield per tree therefore works out at an average of 4·36 lbs. Of the total harvest from all species *Cinchona Ledgeriana* comes easily first with 464,416 lbs. and of this amount Kashyem division yielded 151,067 lbs. and Munsong division 313,349 lbs. Harvesting on Burmiak the young division has not yet commenced, but the plants look well and as yet remain unmolested by *Helopeltis*, an insect-pest which is causing some anxiety on Kashyem.

4. **Plantations as a whole.**—The tolal area under cinchona on both plantations at the end of March was 1,779½ acres, an increase of 221½ acres in the grand total having taken place during the year. Over this acreage 2,853,852 plants are distributed, and this number is an increase of 135,005 over last year's figure. From the total harvest on both plantations of 216.978 uprooted trees 611,338 lbs. of dry bark were obtained. These figures give an average yield per tree on both plantations of 2·81 lbs. Such an average yield is small when compared with that of the 27 special trees mentioned in last year's report as selected from Munsong for determination of the probable future yield, but the average yield per tree will doubtless go quickly on the increase as the older and less profitable blocks on Mungpoo get used up.

5. **Factory and Outturn.**—The total quantity of bark worked up in the factory during the year was 758,231 lbs. This consisted of 4,000 lbs. *C. Succirubra* bark, 294,060 lbs. *Ledger bark*, 3,040 lbs. *Hybrid bark*, 387,174 lbs. *Java Ledger bark*, and 69,957 lbs. *Java Hybrid bark.* The products yielded were 43,853 lbs. Sulphate of quinine, 1 lb. 4 oz. Cinchonine Sulphate 6,949 lbs. 12 oz. Cinchona Febrifuge, and 299 lbs. 11 oz Residual alkaloid. The total outturn of the factory was 51,103 lbs. 11 oz. against 48,388 lbs. 12 oz. of the previous year. This excess of 2,715 lbs. over last year's outturn coincides with the largest yield of Sulphate of Quinine the factory has ever produced in one year.

The 301,100 lbs. of plantation bark yielded, when the quinine in the cinchona febrifuge is included, 13,336 lbs. of quinine sulphate, or 4·43 per cent., a decided advance on last year's percentage of 3·4. The 457,131 lbs. of purchased Java bark yielded 31,347 lbs. quinine sulphate, or 6·86 per cent.

The Government of India made a special grant of 3 lakhs of rupees with which to buy quinine to form a reserve while the market price was low. In all 29,103 lbs. 9½ oz. were bought in Amsterdam at an average rate of Rs. 8-7-5 per lb., and, as the price has already risen to above Rs. 10 per lb. with every possibility of a further rise, the investment was evidently justified. The stock of quinine on 31st March 1913 amounted to 132,374 lbs. 3 oz., and,

in order to warehouse it, a large building has been erected with the grant of Rs. 6,000 which Government allowed for the purpose. The store is fireproof, with a ferro-concrete floor 2 feet above ground level and has been designed with a view to putting in a second floor when required. The building of this warehouse used up most of the available labour and the transfer of the crystallizing work to a new building has had perforce to suffer delay. The usual repairs and overhauling have been undertaken in the factory, which is at present in a good state of efficiency. Besides the usual weekly analysis conducted to check the working of the vats, over 400 sets of analysis have been made of plantation bark samples.

6. **General charges.**—The general charges against the department as a whole amounted to Rs. 9,437-7-8 against Rs. 11,165-9-5 charged last year. Details are given under Appendix D.

7. **Mungpoo Plantation charges.**—These amount to Rs. 39,686-3-6 against Rs. 38,031-3-9, last year's figure. Details are to be found under Appendix C (2).

8. **Munsong Plantation charges.**—These amount to Rs. 68,235-15-4 against Rs. 59,127-13-8 last year, and are detailed under Appendix C (2).

9. **Total Plantation charges.**—These amount to Rs. 1,07,922-2-10, an increase of Rs. 10,763-1-5 over last year's figure.

10. **Net manufacturing charges.**—The total working expenses of the factory amount to Rs. 74,884-6-7 as against Rs. 76,698-6-11 incurred last year.

11. **Expenditure on factory additions and alterations.**—These amount to Rs. 5,088-3-3 and include a charge of Rs. 2,000 for alterations to the crude quinine apparatus.

12. **Storage and distribution charges.**—Appendix D VI shows the details of an expenditure of Rs. 2,081-0-1 under this head. The work in connection with the storage godown mentioned above, for which a sum of Rs. 6,000 was set apart out of the Government of India grant for the purchase of reserve stock, has been undertaken by the Public Works Department. The sum of Rs. 2,196-4-3 not accounted for in this report was expended by the Prison Department in connection with the distribution of factory products.

13. **Expenditure on bark purchase.**—Rupees 2,20,695-1-2 were expended on the purchase freight and carriage of 758,231 lbs. of Java-grown Ledger and Hybrid barks. The sum of Rs. 2,46,314-6-6 went to the purchase of quinine bought at Amsterdam and landed at the factory. Out of the grant of Rs. 3,00,000 mentioned elsewhere as set aside in connection with the acquisition of a reserve, Rs. 44,000 were allotted for the purchase of bark, Rs. 2,50,000 for the purchase of quinine, and Rs. 6,000 for the erection of the storage godown. Details are furnished in Appendices D VII and VIII.

14. **Cost of Plantation bark.**—At a meeting held in which methods of calculating cost of plantation bark were discussed, Mr. Waterfield of the Accountant-General's office, Mr. Standen of the Madras Cinchona Department, and Major Gage, I.M.S., Superintendent of Cinchona Cultivation in Bengal, arrived at the conclusion that the best method of calculating this would be to divide the annual increment of dry bark from 1 acre by the average annual expenditure per acre. At Mungpoo an acre was selected in a block 9 years old. The area of the block when planted was 55 acres: the amount of dry bark harvested from it up to 31st March 1913 was 66,138 lbs., which gives an average yield of 1,202·50 lbs., per acre. The acre selected contained 264 trees and these on uprootal gave a harvest of 1,460 lbs. The total harvest from an acre of this block may therefore be taken as 2,665·50 lbs. and this amount divided by 9, the age of the block, gives 296·16 lbs. average yield per acre per annum. The total amount spent on the cinchona plantation during the life of this block was—deducting sums spent on reafiorestation—Rs. 3,03,311-15-9. and this amount divided by the acreage of cinchona on Mungpoo, 485 acres, gives an expenditure of Rs. 625-6-2 per acre for 9 years, or Rs. 69-13-1 per acre per annum. The cost of plantation bark based on these figures is therefore Rs. 69-13-1 per 269·16 lbs., or 4·2 annas per lb.

At Munsong the same method of calculation gave a figure of about 1 anna per lb. of bark delivered at the factory. The method is rather partial to a young plantation like Munsong, and the figures, as will be seen on reference to last year's report, differ considerably from those obtained by Major Gage's original method of estimation. New data will have to be obtained from various localities in both plantations until a figure sufficiently accurate to base calculations on is obtained.

15. **Value of Plantation bark.**—The average unit rate during the year was 4·28 cents per ½ kilo, five Dutch cents = 1 anna and ·5 kilo = 1,102 lbs. From numerous analysis conducted an average of 4·67 per cent. was obtained for plantation bark.

The value of the bark therefore works out at $\frac{4\cdot67 \times 4\cdot28}{5} \times \frac{1}{1\cdot102} = 3\cdot62$ annas per lb. The total harvest of 611,338 lbs. is therefore valued at Rs. 1,38,315-3. This rise in the price of bark during the year, coupled with the increased percentage of quinine as shown by laboratory analysis in plantation bark, puts the total plantation expenditure of Rs. 1,07,922-2-10 on the right side. The fact that Munsong has now come to a harvesting age and that the total yield from both plantations this year exceeds that of of last year by 311,958 lbs. also account for the huge increase in the bark harvest value.

16. **Cost of Quinine production.**—The total quantity of bark used in the factory was 758,231 lbs., of which 301,100 lbs. were various plantation barks. Taking 2·6 annas as the average cost of Mungpoo and Munsong barks combined, the value of the quinine before extraction is Rs. 48,928-12. The 30,100 lbs. of plantation bark yielded 13,336 lbs. quinine, which therefore cost in the bark Rs. 3-10-1 per lb. The Java bark worked up amounted to 457,131 lbs. and cost Rs. 1,34,905. It yielded 31,347 lbs. quinine, which therefore cost Rs. 4-0-6 per lb. in the bark. The net manufacturing charges amount to Rs. 74,884-6-7, taking Rs. 4,718-11-10 half general charges and Rs. 5,000 for depreciation, the total manufacturing charges may be taken as Rs. 84,603-2-5, and this expenditure was incurred in producing 51,103 lbs. 11 oz. of quinine. The cost of extraction per lb. of bark was therefore 1·655 annas and agrees very closely with last year's figure.

To extract the 13,336 lbs. of quinine from 301,100 lbs. plantation bark, therefore cost $\frac{301,100 \text{ lbs.} \times 1\cdot655 \text{ annas}}{13,336 \text{ lbs. quinine}}$ = Rs. 2-5-4. This, added to the cost of 1 lb. quinine in plantation bark, brings the cost of 1 lb. of quinine from plantation bark to Rs. 5-15-5.

The cost of extraction per lb. of quinine from Java bark was $\frac{457,131 \times 1\cdot655}{31,347}$ = Rs. 1-8-1, and this, added to the cost of quinine in Java bark, brings the total cost per lb. of quinine from this source to Rs. 5-8-7. The cost of quinine production from Java bark is therefore slightly under that from local; but as has been pointed out on a former occasion, the method of calculating on pounds of bark used is somewhat unduly favourable to the richer Java barks. The cost of the imported bark also refers to the 1911-12 figures, and since that time the rise in price is certainly sufficient to raise the cost of production of quinine from this source above that from home-grown bark.

17. **Issue of Products.**—In order that this report may be as complete as possible, the authorities at the Juvenile Jail, Alipore, from which all distribution now proceeds, were asked for a statement of issues, and this they have again kindly furnished. The total issue of Sulphate of Quinine during the year amounts to 13,787 lbs. 1½ oz. against 15,838 lbs. 13¾ oz. issued last year. The Punjab accounts for an increase of 1,356 lbs., but this is more than counterbalanced by a decrease to Bengal of 3,260 lbs. The output of Cinchona Febrifuge has decreased by 1,092 lbs. 8 oz. chiefly accounted for by reduced indents from the Lahore Cantonment. There has been practically no demand for Sulphate of Cinchonidine and Cinchonine Sulphate. A statement of sales of factory products to dispensaries in the various provinces under the management of municipalities and local boards will be found in Appendix G.

18. **Expenditure and receipts.**—The receipts for the year amount to Rs. 1,39,019-6-10, being Rs. 13,884-0-5 less than last year's figure. and Rs. 5,27,403-5-3 less than the year's expenditure. The total expenditure within the Cinchona Department was Rs. 6,66,422-12-1, being Rs. 16,354-3-11 less than the sum allotted. Deducting Rs. 6,000 spent by the Public Works Department for the erection of the quinine godown, the net saving of the department amounts to Rs. 10,354-3-11. Of the receipts Rs. 39,323-3-6 were in cash and Rs. 99,696-3-4 by book credit. Of the cash sales Rs. 28,872-8-6 were for Sulphate of Quinine, Rs. 24-12 for Sulphate of Cinchonidine, Rs. 8,186 for Cinchona Febrifuge, Rs. 1,738-14 for Amorphous alkaloid, Rs. 10 for seeds, Rs. 383-8 for bark, and Rs. 107-9 for miscellaneous items.

19. **Stock Account.**—The Quinine reserve at the end of the financial year stood at 132,374 lbs. 3 oz., being an increase of 59,169 lbs. 8 oz. during the year. All items have been valued at the average rates at which they were sold by or purchased by the department during 1912-13. The value of stock on 31st March 1913 stood at Rs. 16,98,164-9—details will be found in Appendices C (1) and C (2).

20. **Profit and Loss Account.**—The gain on revaluation of stock at the end of 1911-12 was Rs. 1,66,180-12-4, and on deduction of the non-recurrent charges a profit balance of Rs. 1,34,106-14-8 remains. This account will be found under Appendix E.

21. **Sale of Pice packets.**—A statement of sales during the year of Sulphate of Quinine in 10-grain pice packets and 3 ⅓-grain tablets will be found under Appendix H, the materials for which the Jail authorities have kindly furnished.

22. **Miscellaneous.**—Rupees 5,293-12 collected for land rent and grazing privileges have been paid into the Darjeeling treasury, but this amount has not been credited to the Cinchona Department.

RESOLUTION ON THE ANNUAL REPORT ON THE POLICE ADMINISTRATION OF THE TOWN OF CALCUTTA AND THE SUBURBS FOR THE YEAR 1912.

POLITICAL DEPARTMENT.

POLICE.

DACCA, THE 5TH AUGUST 1913.

RESOLUTION—No. 6628 P.

READ—

The Annual Report on the Police Administration of the Town of Calcutta and the Suburbs for the year 1912.

SIR F. L. HALLIDAY, KT., C.I.E., M.V.O., held charge of the office of Commissioner of Police throughout the year. The scheme for the reorganization of the Calcutta Police was introduced completely from the 2nd November 1912; the three Town and the two Suburban Police Divisions were amalgamated and formed into four divisional charges, three of which were each placed under a Deputy Commissioner of Police and one Division under a Superintendent. The charge of the combined Criminal Investigation and Intelligence Branch was held by another Deputy Commissioner.

2. The number of judicial convictions of members of the force increased from 39 to 41 and the offences were also of a graver nature; but an increase in the number of dismissals was more than counterbalanced by a decrease in other departmental punishments. The incremental pay for constables sanctioned during the year had the effect of reducing the number of resignations for the time being; fewer constables, too, deserted or were discharged. At the same time only 554 recruits were enlisted as compared with 639 in the previous year, and the arrangements for recruitment and training are not yet satisfactory. The Constables' Training School at Nathnagore has ceased recruiting for the Calcutta Police, and at present recruits are enlisted and trained in Calcutta under most inadequate and inconvenient conditions. A scheme for a separate Training School for Calcutta is now before Government. It is proposed to locate the school in the Dullunda buildings which are at present occupied by the Bengal Forms Department and will, it is hoped, be available next year. Meanwhile a temporary school will be opened for the training of 250 constables; and by the introduction of a better system of training, a higher standard of efficiency may be gradually attained.

3. In last year's resolution the hope was expressed that the transfer of the headquarters of the Government of India from Calcutta would remove the difficulty of providing adequate accommodation for the Calcutta Police Courts and the Police headquarters. This hope, however, has not been realised, and a solution of the problem has to be sought in other directions. Meanwhile, to remove the physical congestion of the existing courts, His Excellency in Council has decided as an experimental measure to create two new courts in the northern and southern portions of the town. Progress has also been made towards providing accommodation for the European Sergeants of Police at headquarters which has for many years been notoriously inadequate. Plans and estimates have been prepared for a four-storied building to be erected in the Lall Bazar compound to take the place of the existing two-storied building: the scheme has received the administrative approval of Government.

4. During the year a report was submitted to Government by the Commissioner of Police and Mr. H. P. Duval, I.C.S., containing their recommendations as to the procedure to be adopted by the Police and courts in cases in which juvenile offenders are concerned, together with a draft Bill to

give effect to their recommendations. A Committee was appointed to consider the draft Bill and to report on the possibility of starting industrial schools, appointing probationary officers and giving effect generally to the provisions of such a Bill. As the proposals were far-reaching and would need a large measure of public support, His Excellency in Council has directed that they should be subjected to further scrutiny by a larger and more representative Committee. The Committee has now begun its labours and its report is awaited.

5. On the 19th November 1912 a disaster occurred owing to the capsizing of a *dinghi* boat at the Sibpur Ferry Steamer Ghât, which led to the loss of 11 lives. A Committee was appointed by Government to enquire into the circumstances and to suggest practical measures for remedying the defects in the existing arrangements. As a result the Commissioner of Police has prepared a number of suggestions for ensuring the safety of passengers who use the ferry steamer service pontoons and for augmenting the police at the pontoons when they are likely to be crowded. These recommendations are under the consideration of the Port Commissioners.

6. There was a remarkable increase of 31,327 in the number of cognizable cases, chiefly due to prosecutions under the traffic regulations. The figures for road obstruction cases in Calcutta and Suburbs have risen from 6,608 in 1908 to 24,564 in 1912. In the opinion of the Commissioner of Police commensurate results in the diminution of road and footpath obstructions have not been obtained by this very large increase in prosecutions, chiefly owing to the want of convenient sites where petty vendors licensed by the Corporation can congregate without trespassing on to the footpath and owing to the absence of mechanical means of handling expeditiously the enormous volume of merchandise in the crowded bazars of the city. The Commissioner of Police is of opinion that, until improvements are made in these directions, the public will not enjoy to the full the amenities of civic life which depend so largely on the vigilant suppression of minor annoyances. The Calcutta and Suburban Police Amendment Act, Act III of 1910, extended considerably the powers of the police to deal with the regulation of nuisances and obstructions; and the police have made good use of the powers conferred on them. Yet it appears that criminal prosecutions have failed so far adequately to deal with the situation; and it may be that the present trade conditions make road obstruction inevitable in spite of the existing laws. The question of obtaining some measure of amelioration by other methods will have to be considered; meanwhile the policy of prosecuting for these offences should not be relaxed. Greater activity was shown in prosecuting for offences under the Motor-Car Act and statutory rules; and though the number of deaths caused by motor-cars and cycles increased, it must be remembered that the number of motor vehicles used in Calcutta is increasing largely year after year. There was a gratifying decrease in the total number of persons killed and injured in conveyance accidents; and the Governor in Council agrees with the Commissioner of Police that the police may claim with some justice that an improvement has taken place in the regulation of traffic.

7. During the year the craze for gambling on cotton figures increased to such an extent as to become a public menace. An ordinance was issued in December 1912 which effectively stopped the evil for a time. Legislation has since been undertaken which should have the effect of preventing any recurrence of this mischievous form of gambling.

8. Mr. B. A. Westbrook, the Chief Officer of the Fire Brigade, arrived from England and took charge of the Brigade on the 10th February 1912. His report on the reorganization of the Brigade has been considered by a Committee appointed for that purpose; and the proposals of the Committee for the reorganization and establishment of a central fire station and out stations are now under the consideration of Government.

9. The Governor in Council notes with pleasure the Commissioner's appreciation of the services of the officers who have done good work and desires to express his acknowledgment to Sir Frederick Halliday for his successful administration of the Calcutta Police during the year.

ORDER.—Ordered that a copy of the Resolution be forwarded to the Commissioner of Police, Calcutta, for information and guidance.

Ordered also, that a copy of the Resolution be forwarded to the Chief Presidency Magistrate, Calcutta, the Commissioner of the Presidency Division, the Chairman of the Corporation of Calcutta, and the Municipal Department of this Government, for information.

Ordered also, that a copy of the Resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council,

Offg. Chief Secy. to the Govt. of Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Forecast of the summer *til* crop, 1913-14.

(NOTE.—On the average of the five years ending 1911-12, the area under til *in Bengal represents some 8·7 per cent. of the total area under* til *in British India.)*

Character of the season.—There was a scarcity of rain at the time of sowing in Khulna, Midnapore, Howrah, Rajshahi, Dinajpur, Bogra, Bakarganj. Noakhali and in parts of Mymensingh. In other districts the weather was favourable at the beginning, but an excessive rainfall in June throughout the province retarded the growth of the crop. Some damage to the crop has indeed been reported from almost all the important *til* growing districts. The outturn of the crop has been below the normal everywhere excepting in Malda and Pabna.

Area sown.—The total area sown with the crop is estimated at 183,800 acres against 200,100 acres of last year.

Outturn.—According to the estimates of the District Officers the outturn of the crop for the province comes to 76 per cent. against 79 per cent. of last year. Taking the normal yield per acre to be 4½ maunds, the gross outturn of the province amounts to 21,800 tons as against 24,700 tons of last year.

24 Parganas ...	100	100	100	86	67	April. Normal ...	Not yet begun. Will commence from the latter part of August.	The weather was unfavourable and on account of heavy rains the crops have been damaged to a great extent. Hence the outturn will be below the normal.	
Nadia ...	200	...	...	...	...	......	...	The crop has not been grown this year.	
Murshidabad ...	1,000	1,700	2,400	83	58	From end of February to beginning of March. Normal.	June and July. Normal.	The increase in area sown this year is due to favourable rainfall at sowing time and to the fact that mulberry is being replaced by this crop. Drought prevailed in May and excessive rainfall in June, on account of which about five annas crop was damaged. Hence the outturn has fallen below the normal.	
Jessore ...	3,300	800	800	50	50	February. Normal	June	The weather was favourable at the beginning but much damage has been done to the crop on account of heavy rains during the harvest time. Consequently the outturn has fallen below the normal.	
Khulna ...	4,400	4,300	4,100	100	67	First week of February. Normal.	2nd week of May. Normal.	The decrease in area this year is partly due to the fact that jute was grown in lands ordinarily reserved for *til*, and partly to the want of timely rainfall. Hot weather at sowing time and excessive rain-fall afterwards caused damage to the crop to the extent of about 5 annas.	
Burdwan ...	3,800	2,600	3,000	83	83	End of January to March. Normal.	End of May to June. Normal.	The weather was hot in April, but excessive rain fell afterwards. Owing to heavy rainfall the outturn has fallen below the normal. The increase in area under *til* this year is due to increasing profitableness of the cultivation.	
Birbhum ...	400	400	400	75	58	February. Normal	June. Normal ...	The weather was favourable at sowing time. Subsequent excessive rainfall affected the growth of the crop. Hence the outturn is below the normal.	
Bankura ...	3,700	2,000	2,000	83	83	January to February. Normal.	Ditto ...	The weather was favourable at sowing time and during the growth of the crop. There has been some damage by rain at the harvesting time and hence the outturn has fallen below the normal.	
Midnapore ...	20,600	10,000	9,700	83	58	April and May. Late.	June and July. Normal.	The decrease in area this year is due to want of rain at sowing time in Ghatal subdivision. The weather condition of the crop is fair in all the subdivisions except Ghatal, where considerable damage has been caused on account of heavy rains. Hence the outturn has fallen below the normal.	
Hooghly ...	1,000	900	900	100	83	Middle of December. Normal.	1st week of March.	The weather was favourable at sowing time but subsequent heavy rain at the harvest time caused the outturn to be less than the normal.

Howrah ...	300	200	100	75	50	1st week of February. Normal.	Middle of June. Normal.	The decrease in area sown this year is due to want of sufficient rain at the sowing time. The weather, though favourable at the outset, turned unfavourable afterwards on account of excessive rain causing damages to the crop to the extent of 2 annas. Hence the outturn is below the normal.	
Rajshahi ...	27,400	24,400	4,500	44	45	Middle of March. Normal.	1st week of June. Normal.	The decrease in area as compared with that of last year is due to less area reported by the Subdivisional Officer, Nator, for which an explanation will be furnished when received. The weather and condition of the crop were unfavourable for want of rainfall at the sowing time and subsequent heavy rains at harvest time. Hence the outturn has fallen below the normal.	
Dinajpur ...	400	400	100	60	75	Beginning of May. Late.	August. Late ...	The decrease in area sown this year is due to want of rainfall at sowing time. Excessive rain fell afterwards, and hence the outturn is likely to be below the normal.	
Jalpaiguri ...	200	...	...	...	...	......	......	The area sown is too insignificant to require any statistics.	
Rangpur ...	100	200	200	75	80	March. Normal ...	June. Normal ...	The weather was favourable at the time of sowing, but subsequent heavy showers of rain damaged the crop to a certain extent. Hence the outturn has fallen below the normal.	
Bogra	14,000	6,000	5,000	30	25	Middle of April, Normal.	Middle of June. Normal.	The decrease in area sown this year is due to increased cultivation of jute. There was want of rain at the sowing time and heavy rainfall began afterwards which retarded the growth of the crop and also damaged the crop considerably. Hence the outturn has fallen far below the normal.	
Pabna	33,500	31,500	31,500	100	100	Middle of March. Normal.	Middle of June. Normal.	The weather was favourable and the growth of the crop good. The outturn is reported to be normal.	
Malda	500	500	500	100	100	April. Normal ...	Not yet commenced.	The weather and general condition of the crop was good. There was no damage to the crop from any cause. The outturn is reported to be normal.	
Dacca	8,100	7,800	15,000	54	60	In March except in Munshiganj subdivision, where it began in latter part of January. Normal.	In June except in Munshiganj subdivision. where it began in May. Normal.	The weather was favourable at sowing time, but subsequent heavy rains at harvest time did damage to the crop.	
Mymensingh ...	68,000	68,000	68,000	90	79	Middle of March. Normal.	Middle of June. Normal.	The weather and rainfall have been favourable at sowing time except in Tangail subdivision where insufficient rain at the beginning and incessant rains afterwards did much damage to the crop. Some damage was also caused by insects. Hence the outturn has fallen below the normal.	
Faridpur ...	10,700	3,600	5,800	52	75	February. Normal	End of May. Normal.	The increase in area sown this year is due to favourable weather at sowing time, especially in Madaripur subdivision. But subsequent heavy rains did damage to some extent. Hence the outturn has fallen below the normal.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 4th August 1913.

Summary.—During the week under report general rain fell all over the province. Stormy weather prevailed during the first part of the week in 24-Parganas and Khulna. Damage to jute and paddy from the effects of heavy rain is reported from some places of Western Bengal. Prospects of standing crops are reported to be generally fair in Eastern Bengal, but less promising in Western Bengal. Harvesting of jute and *aus* rice and the transplantation of winter rice are in progress. The average price of common rice has risen by about 0·6 per cent. as compared with that of the previous week. Cattle-disease is reported from ten and scarcity of fodder is reported from three districts. Reports of injury by insect-pests have been received from Faridpur and Bakarganj.

SURVEY DEPARTMENT.

NOTICE.

GOVERNMENT has sanctioned, as an experimental measure, the establishment of a School of Land Surveying from October next, some four miles from Comilla, which will take the place of the First-year's Land Surveying Course at the Dacca School of Engineering. Full particulars may be obtained from the undersigned.

The names of students already registered for the next First-year's Course at the Dacca School will be transfered to the Entry Rolls of the new School.

The object of the school is to turn out practical Land Surveyors suitable for zamindari and similar work in Bengal. Details of the training that will be given will be forwarded to any employers who care to ask for them, and, so far as is practicable, special training will be arranged for for Surveyors already in their employ.

J. DONALD,
Offg. Secy. to the Govt. of Bengal.

No. 1766Medl.—The 11th August 1913.—The following report is published for general information:—

J. DONALD,
Offg. Secy. to the Govt of Bengal.

Dated Darjeeling, the 15th March 1913.

From—MAJOR A. GWYTHER, M.B., C.M., F.R.C.S., I.M.S., Supdt. and Secy., Eden Sanitarium and Hospital, Darjeeling,

To—The Secy. to the Govt. of Bengal, Financial and Municipal Departments.

(Through the Inspector-General of Civil Hospitals, Bengal.)

I HAVE the honour to submit the following report on the working of the Eden Sanitarium and Hospital for the year 1912. Lieutenant-Colonel B. H. Deare, I.M.S., was in charge of this institution from 1st January to 5th April 1912, Captain F. A. F. Barnardo, I.M.S., from 6th April to 28th May 1912, and Major A. Gwyther, I.M.S., from 29th May 1912 to the end of the year.

2. The Sanitarium was opened on the 18th March 1912 and closed on the 20th November 1912.

3. The Hospital attached to the Sanitarium remained open throughout the year, but was not occupied during the months of December 1912, January and February 1913.

4. The following table shows the number of each class of patients and friends admitted into the Sanitarium and Hospital during the past six years:—

ADMISSIONS.	1907.	1908.	1909.	1910.	1911.	1912.
First class	65	96	104	146	56	85
Intermediate class ...	73	65	73	78	126	124
Second class ...	230	233	178	206	230	288
Third class ...	122	151	117	136	119	178
Total ...	490	545	472	566	531	675

The following tables show the number of patients and their relatives and friends admitted during the last six years together with the daily average sick:—

PATIENTS.

YEARS.	1907.	1908.	1909.	1910.	1911.	1912.
Admissions	351	431	389	427	393	506
Daily average sick ...	33·68	26·7	24·85	30·05	26·87	24·72

RELATIVES AND FRIENDS.

Total number ...	139	114	83	139	138	169

The following table shows the total number of patients treated during the year 1912:—

Males.	Females.	Children.		Total.	Cured.	Relieved.	Died.
		Males.	Females.				
218	187	56	45	506	464	38	4

The total number of admissions during the year 1912 was 675. Of these 85 were admitted to the first class as compared with 56 in 1911, 124 to the intermediate as compared with 126, 288 to the second class as compared with 230, and 178 to the third class as against 119 in 1911.

Of these there were 11 children in the first class, 27 in the intermediate, 68 in the second and 40 in the third class.

From these figures it will be seen that there has been an increase in all the classes except a very small fall in the numbers of the intermediate.

The number of patients treated in 1912 was 506, which is higher than in any of the six previous years. This, I think, can fairly be ascribed to the increasing popularity of the institution.

The daily average number of residents for the whole year works out to 39, though for the period the Sanitarium was open it was 61, as compared with 32 and 48 in 1911, respectively. The average stay of each resident was 19 days as compared with 22 days in 1911. The localities from which people were admitted are given in table D, Calcutta and Darjeeling heading the list as usual. The residents expressed satisfaction with the arrangements.

5. The free beds of the Medical College Hospital and Presidency General Hospital were occupied nearly the whole of the season. The total cost incurred in 1912 for this was Rs. 1,358 reckoned at third-class rates.

The Superintendent's free bed was used in four cases at a cost of Rs. 130. Thus the total cost on all free beds amounted to Rs. 1,488 in 1912.

One patient received the benefit of the John White Fund.

The names of persons, who were treated in the free beds of the Superintendent, Medical College and Presidency General Hospitals, are given in Table C.

During the year under report 17 patients were treated in the "free beds" as against 19 in 1911. The Ministering Children's League of Darjeeling provided accommodation for five children, and two children received the benefits of the Theo. Beryl Cot; that is, seven children were treated in these "free beds" as against nine children in the year 1911.

The following donations and subscriptions were received in 1912:—

		Rs.
(1)	The Manager, Tukvar Co., Ltd.	100
(2)	Messrs. Hamilton & Co.	25
(3)	" Mackintosh, Burn & Co.	25
(4)	The General Manager, D.-H. Railway ...	100
(5)	Messrs. R. Knight & Sons	25
(6)	" Ranken & Co.	25
(7)	" Cooke & Kelvey	25
(8)	" T. E. Thomson & Co.	25
(9)	Darjeeling Municipality	150
(10)	Mr. D. P. Mackenzie	250
(11)	Mrs. Collins	100
(12)	Mr. J. F. Madan	201
(13)	St. Andrew's Church Committee	100
(14)	Hospital Sunday Fund Collection by Rev. Father F. Peal, S.J.	50
	Total ...	1,201

7. The rule whereby European Government servants in receipt of Rs. 400 or less can obtain first-class accommodation, etc., by paying intermediate-class rates was taken advantage of in six cases.

No advantage was taken of the rule granting a reduction in the rates to European assistants in commercial firms, banks, etc., who are annual subscribers.

8. The diseases for which patients were admitted are shown in Table A.

(1) There were four cases of enteric fever against 10 in 1911. Though several cases were of a serious type, all recovered.

(2) There were 15 case of malarial fever in 1912, as compared with 8 in the year 1911. One case of Kala Azar was also admitted in the Hospital during the year under report.

(3) Out of four pneumonia cases admitted into the Hospital, three recovered and one died.

(4) There were 36 operations performed during the year 1912 against 69 in 1911. Of these 21 were selected operations.

The only explanation that can be given for the decline in number is that more subjects for operation did not present themselves.

(5) There were 10 normal and 3 abnormal labour cases in 1912, against 17 normal and 2 abnormal labour cases in 1911.

(6) There were four deaths during the year against five in 1911. The causes were:—One Epithelioma of Palate and Fauces, one Broncho-Pneumonia, one Septicomia, one Angina Pectoris.

There was no death from operations. The death-rate was the lowest there has been for several years past.

9. INCOME AND EXPENDITURE:—

For details see Table F and other statements prepared by Messrs. Viney & Thurston, the auditors of Eden Sanitarium accounts.

The daily cost of diet for residents not including the staff was Re. 1-10-6, as compared with Re. 1-8-9 in the year 1911.

This is due to the admission of a larger number of patients in the Hospital in 1912 than the previous year and also on account of increase of first-class residents in the Eden Sanitarium.

The accounts were audited by Messrs. Viney & Thurston, Chartered Accountants of Calcutta, whose statements showing the result of audit and financial position of this institution are attached herewith.

10. GENERAL REMARKS:—

(a) Military Assistant Surgeon H. L. O. Fleming was Resident Medical Officer from 1st January 1912 to 27th June 1912.

He worked carefully, was kind, tactful and attentive, and was well spoken of by all classes in the Sanitarium.

Military Assistant Surgeon J. C. Chalke was Resident Medical Officer from 28th June 1912 till the end of the year. He has been of the utmost assistance to me. His work has always been carefully and thoroughly done. He is always attentive and kind, and has earned the gratitude of more than one patient who owes his life to his unceasing care and attention.

Mr. H. Richardson was in charge of the catering from 1st January to 31st December 1912. His work during the year has been most satisfactory. He has also done a great deal to increase the popularity of the institution by organising games, concerts, etc.

Babu Siddheswar Dey was accountant of this institution from 1st January to 31st December 1912. He has done his work thoroughly and given satisfaction.

(b) The nursing arrangements and linen were under the supervision of two of the Clewer Sisters from Calcutta I am much indebted to them for their valuable assistance.

Sister Thekla also took charge of the Library, which has been much improved under her careful supervision.

The new plan of making a small charge of annas eight for the first class and annas four only for the other classes for the use of the Library, which was introduced in 1911, is working satisfactorily. The books of the Library have since been rearranged and new books have been purchased out of the subscriptions realised, without additional expense to the General Fund.

The Library Fund is kept apart from the Eden Sanitarium under the charge of one of the Sisters.

(c) The annual repairs to the buildings were carried out during the closed season by the Public Works Department.

A reference was made to Government for the replacement of the shingled roof of the Eden Sanitarium, which will cost Rs. 10,000, at Government expense. I agree with my predecessor, who had remarked in the annual report for 1911 that the financial position of this institution will not allow us to meet this expense. The matter is still under the consideration of Government and we hope that Government will generously help in this matter.

(*d*) Their Excellencies Lord and Lady Carmichael visited the Eden Sanitarium on the 2nd May 1912. His Excellency had suggested the removal of the Meat Larder to a different site and also a better cabinet for instruments and an operating table in the Maternity Ward. For want of funds these were not taken in hand during the year 1912.

(*e*) The following works, which were originally carried out at the cost of the John White Fund, were afterwards paid out of the General Fund of the Eden Sanitarium. The year, therefore, was started with a debt of Rs. 2,629:—

	Rs.
(1) Construction of a new Dandy Shed	745
(2) Improvements of ventilation to second-class wards	368
(3) Converting the old Dandy Shed into an X-Ray Room	850
(4) Purchase of bedsheets for the hospital ...	129
(5) Matting, furniture, bedsheets and linen for second-class and third-class wards	537
Total ...	2,629

Besides this sum of Rs. 2,629, a further sum of Rs. 1,200, being the unpaid portion of the deficit of Rs. 6,341 of last year, was paid during the year.

(*f*) The Baker Memorial Ward was ready for occupation when this institution reopened in March 1912 and it was occupied by several patients during the year 1912. This room was equipped with invalid beds and furniture for the comfort of the sick.

(*g*) The Committee decided during the year that the whole donation of Rs. 20,000 received from the late Mr. John White, of Darjeeling, should be invested and two free beds maintained out of the interest received annually on the investment The amount of Rs. 18,734 was refunded to the Bank of Bengal during the year under report. The balance of Rs. 1,266 will be refunded in the year 1913 if the year be successful. The amount has been invested in 4 per cent. Calcutta Port Trust debentures, as decided by the Committee.

(*h*) The following improvements were suggested by the Visiting Members but were not taken in hand for want of funds:—

	Rs.
(1) Replacing portion of the ornamental openings in the west verandah of the Eden Sanitarium by venetian blinds at a cost of	395
(2) Electric Installation to the Isolation Ward ...	350
(3) Providing a sliding door for the new Mortuary ...	187
(4) Improving the drains of Isolation Ward and constructing a revetment wall on the zigzag path to the Eden Sanitarium	224
Total ...	1,156

A donation of Rs. 5,000 will enable all these works, together with those suggested by His Excellency the Governor, to be carried out.

The patients in the Hospital are increasing steadily and, unless the income of the institution is increased by the addition of more subscribers to the list, t will be difficult to keep up this increase, as there is no reserve fund of this institution and there is no invested capital.

MARINE DEPARTMENT.

NOTIFICATION.

No. 109 Marine, dated the 11th August 1913.—The following draft of a Notification, which with the previous sanction of the Governor-General in Council, the Governor in Council of the Presidency of Fort William in Bengal intends to issue under section 9 of the Indian Petroleum Act, 1899 (VIII of 1899), is published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the *16th October* 1913, and any suggestions or objections with regard thereto, which are received by the undersigned before that date, will be duly considered.

B. K. FINNIMORE,
Secy. to the Govt. of Bengal.

Draft Notification.

No. Marine, dated the 1913.—In exercise of the powers conferred by section 9 of the Indian Petroleum Act, 1899 (VIII of 1899), read with section 3 of the Bengal, Bihar, Orissa and Assam Laws Act, 1912 (VII of 1912), and with the previous sanction of the Governor-General in Council, the Governor in Council of the Presidency of Fort William in Bengal is pleased to make the following rules to regulate the importation, possession and transport of petroleum within that Presidency, in supersession of all previous notifications under that section, and all rules and orders under such notifications, issued or made by the Government of Bengal or by the late Government of Eastern Bengal and Assam.

RULES UNDER SECTION 9 OF THE INDIAN PETROLEUM ACT, 1899, FOR THE IMPORTATION, POSSESSION AND TRANSPORT OF PETROLEUM IN THE *PRESIDENCY* OF BENGAL.

[*Note.—The verbal alterations necessitated by the assimilation of the Western and Eastern Bengal Rules are shown in Italics.*]

PART I.

PRELIMINARY.

Definitions.

1. In these rules—

(*a*) "Part" means a Part of these rules;

(*b*) "certificated petroleum" means petroleum certified to be non-dangerous petroleum by a certificate of such description as the Government of Bengal may, from time to time, by written order, prescribe, granted at the port of shipment;

(*c*) "petroleum in bulk" means petroleum in quantities exceeding five hundred gallons, contained in any one receptacle;

(*d*) "installation" means a place specially prepared for the storage of petroleum in bulk, or for bulk combined with non-bulk storage, and may be either a major or a minor installation;

(*e*) "major installation" means an installation—

(*1*) capable of containing an amount of oil, whether in bulk only or in combined bulk and non-bulk storage, exceeding fifty thousand gallons, or

(*2*) in which tin-making operations are carried on;

(*f*) "minor installation" means an installation—

(*1*) capable of containing an amount of oil, whether in bulk only or in combined bulk and non-bulk storage, not exceeding fifty thousand gallons, and

(*2*) in which no tin-making operations are carried on;

(*g*) "storage shed" means a building used for the storage of petroleum otherwise than in bulk, and may or may not form part of an installation;

(*h*) "protected work" includes buildings in which persons dwell or assemble, docks, wharves, timber yards, other petroleum stores, and any other place not forming part of an installation, which the Government of Bengal may by notification declare as such;

(i) "testing officer" means the testing officer appointed by the Government of Bengal under section 10 of the Act for any port at which petroleum may be imported under these rules;

(j) "motor-vehicle" means any vehicle or vessel propelled by a motor in which petroleum is used as fuel;

(k) "owner," as applied to a motor-vehicle, includes a person who hires, or is otherwise entitled for the time being to use or work a motor vehicle;

(l) "the town of Calcutta" means all places within the local limits of the Original Civil Jurisdiction of the High Court of Judicature at Fort William in Bengal;

(m) "the Municipality of Calcutta" means the municipal limits of Calcutta as defined in the Calcutta Municipal Act, 1899;

(n) "Suburbs of Calcutta" means the local area for the time being excluded from the general police district of Bengal by notification under section 1 of the Calcutta Suburban Police Act, 1866.

PART II.

POSSESSION AND TRANSPORT OF PETROLEUM.

CHAPTER I.—POSSESSION OF PETROLEUM.

Smoking prohibited.

1. No smoking shall be permitted inside any installation or storage shed.

Supervision of operations within installation or storage shed.

2. All operations within any installation or storage shed shall be conducted under the supervision of a responsible agent or supervisor.

Cleanliness of installation.

3. The ground in the interior of an installation shall be kept clean and free from goods of a combustible nature, vegetation and rubbish.

Supply of sand or dry earth in installation.

4. A supply of sand or dry earth shall always be kept in an installation for the purpose of extinguishing fire.

Marking of capacity of tanks.

5. The capacity in gallons of every tank in an installation shall be conspicuously marked on it, and shall be calculated at the rate of 6·25 gallons per cubic foot.

Protection from lightning.

6. Every tank or other receptacle for the storage of petroleum in bulk, except a tank or receptacle which is not of sufficient capacity to contain ten thousand gallons of petroleum and which is so situated as not to be liable to cause danger in the event of the petroleum being ignited, shall be protected by an efficient lightning-conductor.

Explanation.—A tank or receptacle shall be deemed to be so situated as not to be liable to cause danger in the event of the petroleum being ignited, if it is not in close proximity to any other tank or receptacle, or to any building not forming part of the installation, and if it is surrounded by a wall, or embankment, or sunk in an excavation, the enclosure thus formed being sufficient to contain the whole contents of the tank or receptacle.

Testing of lightning-conductor by licensee.

7. Not less than once in every year the licensee of an installation shall test or cause to be tested the efficiency of the conductor in such manner as the Chief Inspector of Explosives may, by general or special order, declare to be sufficient, and a certificate showing the date of the last test shall be posted in a conspicuous place within the installation.

Official testing of lightning-conductor.

8. Any officer appointed by the Government of Bengal in this behalf may enter any installation for the purpose of testing the efficiency of the conductor at any time after sunrise and before sunset.

Time for work in installations or storage sheds.

9. No installation or storage shed shall be open, and no work in any installation or storage shed shall be permitted, between sunset and sunrise; provided that in cases where electric lighting is exclusively used, night working may be permitted by the Government of Bengal on the recommendation of the Chief Inspector of Explosives.

Closure of pipes and openings.

10. Where there are any pipes or openings for draining out water in any enclosure wall, arrangements shall be made whereby they can be closed, and they shall only be kept open when actually necessary for drainage purposes. The nature of such arrangements shall be shown in the specifications which are required under rule 10 of Chapter IV of this Part, to be submitted with the application for a license.

Material for storage sheds.

11. All storage sheds in an installation shall be built of uninflammable material.

Postings up of rules and conditions.

12. There shall be hung up in a conspicuous place in every installation and storage shed for which a license has been granted, copies in English and the vernacular, of the rules contained in this Chapter, and of the conditions endorsed on the license.

CHAPTER II.—TRANSPORT OF PETROLEUM.

Conditions of carriage of petroleum in bulk by water.

1. Petroleum in bulk shall not be carried by water except on a ship certified as suitable for the carriage of petroleum in bulk by an officer appointed by the Government of Bengal in this behalf, and the petroleum shall be stowed in such part of the ship and in such manner as may be approved by general or special order, by the authority so appointed.

Petroleum in bulk on barges or flats.

2. Petroleum in bulk shall not, except with the sanction of the Government of Bengal, be transported on any barge or flat which is not towed by a steamer or motor-tug.

Inflammable cargo, or passengers.

3. No ship shall carry petroleum in bulk which carries at the same time passengers, or any inflammable cargo other than petroleum and its products.

Towage of barge or flat carrying petroleum.

4. No steamer carrying inflammable cargo other than petroleum and its products shall tow a barge or flat carrying petroleum in bulk.

Towage of additional barge or flat carrying inflammable cargo.

5. No steamer towing a barge or flat carrying petroleum in bulk shall at the same time tow any other barge or flat carrying inflammable cargo other than petroleum and its products.

Exemption of petroleum having a flashing point above 150e.

6. Rules 4 and 5 of this Chapter shall not apply when the petroleum carried in bulk has a flashing point above 150° Fahrenheit.

Cleaning of compartments.

7. When any ship has discharged petroleum in bulk, the oil compartments shall be thoroughly cleaned and freed from petroleum and petroleum vapour, before any other cargo or passengers are taken on board.

Hatches to be kept closed.

8. The hatches of oil tanks in all ships certified under rule 1 of this Chapter as suitable for the carriage of petroleum in bulk, and the man-holes in the hatches, shall be kept closed (except in so far as it may be necessary to open them to take on board or discharge petroleum or to clean tanks), so long as there is petroleum in the tanks, and until the tanks have been thoroughly cleaned and freed from petroleum and petroleum vapour.

Loading and discharge.

9. No petroleum in bulk shall be taken on board or discharged from any ship certified as suitable for the carriage of petroleum in bulk, except through a suitable pipe prepared for the purpose.

Naked lights, fire or smoking prohibited.

10. No fire, naked lights or smoking shall be allowed on board any flat or barge carrying petroleum in bulk.

Flag to be carried.

11. The person in charge of any flat or barge carrying petroleum in bulk shall, from sunrise to sunset, show at its stern a conspicuous red flag having the words "Petroleum Boat" marked on it in black letters.

Loading and unloading by night.

12. No petroleum in bulk shall be loaded on or unloaded from any ship between sunset and sunrise, except when electric light is exclusively used.

Validity of license granted in another province.

13. Petroleum may be transported into and within the *Presidency* of Bengal under cover of a license granted by the prescribed authority in any other province of British India or in any area outside British India to which the Indian

Petroleum Act, 1899, may be applied, provided that the conditions of such license are observed throughout the period during which the petroleum is in transit.

Transport by sea of petroleum which has not been tested.

14. Petroleum which has been imported into *either of the ports specified in rule 1 in Part III* and which has not been tested at the port of import in accordance with the rules contained in Part III, shall not be transported to any other port in British India save one specified in rule 1 of that Part, and the provisions of all the rules of that Part, except rule 22, shall be deemed to apply to such petroleum when it arrives at such other port.

Transport by sea of petroleum which has been tested.

15. Petroleum which has been tested at any port in British India may be transported to any other port in British India, and the provisions of rules 2, 3, 4, 14 (except the proviso), 16, 19 and 20 of Part III shall apply to such petroleum when it arrives at such other port.

CHAPTER III.—GENERAL PROVISIONS RELATING TO LICENSES.

Applications for licenses.

1. All applications for licenses except those referred to in rules 13 and 14 of Chapter IV of this Part, for the possession or transport of petroleum shall be made to the District Magistrate.

The functions of the District Magistrate under this rule and the rule next following and under rule 5 (2) of Chapter IV of this Part shall be exercised in the Town of Calcutta and its Suburbs by the Commissioner or Deputy Commissioner of Police.

Licensing authority.

2. Licenses—

(*a*) for the possession of non-dangerous petroleum, not being petroleum in bulk,

(*b*) for the possession of non-dangerous petroleum in a minor installation,

(*c*) for the possession or transport of dangerous petroleum in quantities not exceeding forty gallons, and

(*d*) for the transport of petroleum, not being dangerous petroleum, otherwise than by a pipe line,

may be granted by a District Magistrate, or by such other authority as the Government of Bengal may, from time to time by order in writing, appoint in this behalf. In all other cases, except as provided in rule 14 of Chapter IV of this Part, the licensing authority shall be the Government of Bengal:

Provided that in the case of renewals of existing licenses the Government of Bengal may delegate its powers under this rule to the District Magistrate or to such other authority as the Government of Bengal may, from time to time by an order in writing, appoint in this behalf.

Refusal of license.

3. The licensing authority may, for reasons to be communicated to the applicant, refuse a license in any case:

Provided that the licensing authority shall not refuse a license for the possession of petroleum in a minor installation, unless such authority has first made a reference to the Chief Inspector of Explosives and obtained his concurrence.

Forfeiture of license.

4. Every license granted under these rules shall be liable to be forfeited for any contravention of the Act, or of any rule thereunder, or of any condition contained in such license, or for any other reason deemed by the licensing authority to be good and sufficient and recorded by him in writing.

Particulars of license.

5. Every license and pass granted under these rules shall be held subject to the conditions endorsed on it, and shall contain all the particulars which are contained in the form prescribed for it by these rules:

Provided that in the case of installations and storage sheds in existence before these rules were made, the license may contain in lieu of the particulars contained in the form prescribed for it by these rules, either such particulars as may have been entered in the license granted for such installation or storage shed under the rules heretofore in force, or such particulars as may in each case be approved by the Chief Inspector of Explosives.

"Provided also that in the case of installations or storage sheds intended for the storage of petroleum which has a flashing point above 150°F., the license may contain, in lieu of the conditions endorsed on the form prescribed for it by these rules, such conditions as may in each case be approved by the licensing authority on the recommendation of the Chief Inspector of Explosives."

Condition for the storage of petroleum having a flashing point above 150°F.

6. (1) Every application for the renewal of a license shall be made in the same manner as an application for an original license.

Renewal of licenses.

(2) Every such application shall be made at a date not less than thirty days before the date on which the original license expires, and, if the application is so made, the premises shall be held to be duly licensed until such date as the licensing authority issues the renewed license or until an intimation that the renewal of the license is refused has been communicated to the applicant.

(3) The same fee shall be charged for the renewal of a license as for a new license.

7. When any license is granted for the possession or transport of petroleum, a copy of the rules contained in Chapter I of this Part in the case of a license for possession, and in Chapter II of this Part in the case of a license for transport, printed in English and the vernacular, shall be given, together with the license, to the licensee.

Supply of rules to licensee.

8. Where a licensee dies or becomes insolvent or becomes mentally incapable or otherwise disabled, the person carrying on the business of such licensee shall not be liable to any penalty or forfeiture under the Act or these rules for acting under the license during such time as may reasonably be necessary to allow him to make an application for a new license in his own name for the unexpired portion of the original license.

Procedure on death or disability of licensee.

9. Where a license granted under these rules is lost or accidentally destroyed, a duplicate may be granted.

Loss of license.

CHAPTER IV.—LICENSES FOR THE POSSESSION OF PETROLEUM.

1. Save as provided in rules 13 and 14 of this Chapter, every license for the possession of petroleum shall remain in force until the 31st of December next following the date of issue of the license.

Continuance of license.

2. Licenses for the possession of petroleum, not being dangerous petroleum, otherwise than in bulk, may be granted in Form A.

Petroleum not in bulk, other than dangerous petroleum.

3. Licenses for the possession of dangerous petroleum, not in bulk, in quantity exceeding forty gallons may be granted in Form B.

Dangerous petroleum not in bulk.

4. Licenses for the possession of dangerous petroleum in quantity not exceeding forty gallons may be granted in Form C.

Dangerous petroleum not exceeding forty gallons.

5. (1) The holder of a license in Forms A, B or C may, at any time before the expiry of the license, apply for permission to transfer his license to another person.

Transfer of certain licenses.

(2) Such application shall be made to the District Magistrate who shall, if he approves of the transfer, enter upon the license, under his signature, an endorsement to the effect that the license has been transferred to the person named.

(3) A fee of Re. 1 shall be charged on each such application.

(4) The person to whom the license is so transferred shall enjoy the same powers and be subject to the same obligations under the license as the original holder.

6. Special licenses for the possession of dangerous petroleum in receptacles containing more than forty gallons, but not more than 500 gallons each, may be granted on such terms as the Government of Bengal may prescribe on the recommendation of the Chief Inspector of Explosives.

Possession of dangerous petroleum in receptacles containing more than forty gallons each.

7. Licenses for the possession of any stated quantity of petroleum, not being dangerous petroleum, in major installations, in accordance with such specifications and plans as the Government of Bengal, on the recommendation of the Chief Inspector of Explosives, may, from time to time by general or special order, approve, may be granted in Form D.

Storage in major installations.

8. Licenses for the possession of any stated quantity of petroleum, not being dangerous petroleum, in minor installations, in accordance with such specifications and plans as the Chief Inspector of Explosives may, from time to time by general or special order, approve, may be granted in Form E.

Storage in minor installations.

"8A. Licenses for the possession of any stated quantity of dangerous petroleum in installations in accordance with such specifications and plans as the Local Government, on the recommendation of the Chief Inspector of Explosives, may, from time to time, by general or special order, approve, may be granted in Form P."

Storage of dangerous petroleum in an installation.

9. (1) Licenses in Form F may be granted free of charge for the possession of dangerous petroleum for use on motor-vehicles and for its transport thereon, for the purpose of use therein.

Dangerous petroleum for use on motor-vehicles.

(2) The provisions of the ordinary rules relating to the possession of dangerous petroleum shall regulate the possession of dangerous petroleum for use on motor-vehicles, save in so far as these provisions are varied by the conditions of the license.

Particulars to be given in applications for licenses for the possession of petroleum other than licenses under rules 4 and 9.

10. Every application for a license for the possession of petroleum, other than licenses under rules 4 and 9 of this Chapter, shall specify :—

(a) the description and quantity of petroleum which the applicant desires to keep,

(b) the name and position of the premises intended to be used for the storage of such petroleum, and whether the said premises fulfil the conditions prescribed by Form A, Form B, Form D, Form E or Form P, as the case may be,

(c) the amount of petroleum, if any, already licensed to be kept on the same premises.

If the application be made for the first time in respect of any major or minor installation or if the quantity of petroleum to be stored in such an installation is to be increased, the application shall be accompanied by specifications and plans drawn to scale.

11. Before petroleum is stored in any major or minor installation for which a license has been granted for the first time, a certificate shall be furnished to the licensing authority to the effect that all enclosure walls and embankments required to be constructed under the conditions of the license are sufficient to ensure safety. The certificate shall be signed by an engineer accepted as qualified for the purpose by the licensing authority. When the license is not granted for the first time but is granted for an increased quantity of petroleum, a certificate shall similarly be furnished to the licensing authority before any quantity of petroleum exceeding the amount which was admissible under the former license is stored in the installation.

Certificate of safety to be furnished.

Particulars to be given in applications for licenses under rules 4 and 9.

12. Every application for a license under rules 4 and 9 of this Chapter shall specify :—

(a) whether the applicant is the owner of a motor-vehicle,

(b) the amount of dangerous petroleum the applicant desires to store,

(c) the exact position and nature of the premises intended to be used for the storage of such dangerous petroleum, and whether the said premises fulfil the conditions prescribed by Form C or Form F, as the case may be.

13. Licenses for the possession of petroleum in an installation of storage-shed may be granted by the Government of Bengal free of charge to the Commissioners of the Port of Calcutta *or of Chittagong* subject to such conditions, and for such period, as the Government of Bengal may direct.

Storage by Port authorities.

Storage in an installation or storage shed erected on land belonging to Port authorities.

14. Licenses for the possession of petroleum in an installation or storage shed erected on land belonging to the Commissioners of the Port of Calcutta or of Chittagong may, with the previous sanction of the Government of Bengal, be granted free of charge by the said Commissioners, subject to such conditions and for such period as the Government of Bengal may direct.

Storage of dangerous, or partly dangerous and partly non-dangerous, petroleum, in bulk, at or near wells, pumping stations or refineries.

15. Subject to such conditions as may be prescribed by the Government of Bengal in each case, licenses in Form N may be granted for the possession of any quantity of petroleum in bulk, at or near wells, pumping stations or refineries, whether the petroleum be dangerous petroleum, or partly dangerous and partly non-dangerous petroleum.

CHAPTER V.—LICENSES FOR THE TRANSPORT OF PETROLEUM.

General licenses for the transport of non-dangerous petroleum.

1. General licenses for the transport of petroleum, other than dangerous petroleum, may be granted for a period of twelve months in Form G.

General licenses for the transport of dangerous petroleum.

2. General licenses for the transport of dangerous petroleum, otherwise than in bulk, may be granted for a period of twelve months in Form H.

Effect of general license.

3. Licenses granted under rules 1, 2 and 9 of this Chapter may authorise the holders to transport petroleum without restriction as to destination or total quantity.

Pass for transport of petroleum.

4. The holder of the general license granted under rules 1, 2 or 9 of this Chapter shall, with each consignment of petroleum conveyed under cover of his license, issue to the person who takes charge of the petroleum for the purpose of transporting it, a numbered pass in Form I.

Special licenses for the transport of petroleum other than dangerous petroleum.

5. Special licenses may be granted for the transport of petroleum, other than dangerous petroleum, in quantities exceeding five hundred gallons in Form J.

Special licenses for the transport of dangerous petroleum.

6. Special licenses may be granted for the transport of dangerous petroleum other than in bulk in Form K.

Effect of special license.

7. A special license granted under rules 5 and 6 shall only cover the transport of the particular consignment entered in the license and shall be valid for such period as may be entered in it.

Particulars to be given in applications for special licenses.

8. Applications for special licenses for the transport of petroleum by rail, by road, by steamer or by barge, or by two or more of these modes of conveyance, shall specify the description and quantity of petroleum to be transported, and the places from and to which, respectively, the petroleum is to be conveyed, and shall describe the receptacles in which it is to be contained, or, in the case of petroleum to be transported in bulk by water, shall state that the ship in which it is to be carried has been certified as required by rule 1 of Chapter II of this Part.

Transport of dangerous petroleum by motorists otherwise than on a motor-vehicle.

9. General licenses in Form L to transport dangerous petroleum up to a maximum of sixty gallons at a time otherwise than on a motor-vehicle, may be granted for a period of twelve months to owners of motor-vehicles holding licenses under rule 9, sub-rule (*1*), of Chapter IV of this Part, to possess petroleum and use or transport it on a motor-vehicle.

Transport of dangerous petroleum in bulk from places of production to refineries.

10. The Government of Bengal may, in its discretion, grant licenses for the transport of dangerous petroleum in bulk, otherwise than by a pipe line, on such conditions as it may think fit, from the place of production to the refineries of the Assam Oil Companies.

CHAPTER VI.—FEES.

Method of levying fees.

1. (*1*) When the proceeds of fees leviable for licenses under these rules have been assigned by the Government of Bengal to any local authority, the fees shall be levied in such manner as the local authority may from time to time direct.

(2) In all other cases the fees shall be paid in cash on receipt of a notice from the licensing authority that a license will be granted.

(3) The Court-fee stamp of the value of eight annas representing the fee chargeable under Schedule II, Article 1 (b) of the Court-Fees Act (1870) on an application for a license presented to a Magistrate should be attached to the application.

Fees for licenses for possession of petroleum.

2. The following fees shall be charged for licenses for the possession of petroleum, namely:—

Non-dangerous petroleum.

	Rs.	
(a) When the quantity to be stored exceeds five hundred but does not exceed one thousand gallons.	12	
(b) When the quantity to be stored exceeds one thousand but does not exceed five thousand gallons.	12	for the first one thousand gallons, *plus* Rs. 2 for every additional one thousand gallons or part thereof.
(c) When the quantity to be stored exceeds five thousand gallons but does not exceed fifty thousand gallons.	20	for the first five thousand gallons, *plus* Rs. 4 for every additional one thousand gallons or part thereof.
(d) When the quantity to be stored exceeds fifty thousand gallons.	250	

Dangerous petroleum.

	Rs.	
(e) When the quantity to be stored does not exceed forty gallons.	3	
(f) When the quantity to be stored exceeds forty gallons but does not exceed five hundred gallons.	8	
(g) When the quantity to be stored exceeds five hundred gallons.		the same fees as those laid down for non-dangerous petroleum.

Fees for licenses for transport of petroleum.

3. The following fees shall be charged for licenses for the transport of petroleum:—

Non-dangerous petroleum.

Special license—

	Rs.
(a) When the quantity to be transported exceeds five hundred but does not exceed five thousand gallons.	1
(b) For every additional five thousand gallons or part of five thousand gallons.	1
General license for the transport of non-dangerous petroleum by rail, by road, or by water for twelve months.	100

Dangerous petroleum.

Special license—

	Rs.	
(i) When the quantity to be transported does not exceed forty gallons.	2	
(ii) When the quantity to be transported exceeds forty gallons but does not exceed four hundred and eighty gallons.	2	for the first forty gallons, *plus* 8 annas for every additional forty gallons or part thereof.
(iii) When the quantity to be transported exceeds four hundred and eighty gallons.	8	for the first four hundred and eighty gallons, *plus* Rs. 2 for every additional four hundred and eighty gallons or part thereof.
General license for the transport of dangerous petroleum by the owner of a motor-vehicle by road, rail or water, up to a maximum of sixty gallons at a time.	5	
General license for the transport of dangerous petroleum by dealers by rail, road or water.	50	

Fee for license granted for unexpired portion of an original license.

4. A fee of one rupee shall be charged for a new license for the unexpired portion of an original license granted to any person applying for the same in accordance with the provisions of rule 8 of Chapter III of this Part.

Fee for duplicate license.

5. A fee of eight annas shall be charged for a duplicate of a license granted in accordance with the provisions of rule 9 of Chapter III of this Part.

PART III.

OF IMPORTATION OF PETROLEUM.

Ports of importation.

1. The *ports of Calcutta and Chittagong are* hereby declared to be the only ports at which petroleum may be imported.

Declaration by master of ship carrying petroleum or by the ship's agent.

2. The master of every ship carrying petroleum shall deliver to the pilot before entering *either* of the ports mentioned in rule 1, a written declaration under his signature stating—

(a) what quantity of petroleum the ship is carrying;

(b) whether any and, if so, what part of it is dangerous petroleum;

(c) whether any and, if so, what part of it is certificated petroleum;

(d) whether any and, if so, what part of it is petroleum having a flashing-point above 150° of Fahrenheit's thermometer; and

(e) what quantity of petroleum [specifying whether any and, if so, what part of it belongs to each of the classes (b), (c) and (d)] it is intended to land at *either of the ports specified in rule 1* or at any other port in British India:

Provided that if, in anticipation of a ship's arrival, the agent for such ship delivers to the Port Officer a written declaration as aforesaid under his signature, no such declaration shall be necessary by the master of the ship.

Delivery of certificate.

3. If the master or agent declares that any petroleum is certificated petroleum which it is intended to land at *either of the ports specified in rule 1* or at any other port in British India, he shall deliver to the pilot, along with his declaration, the certificate relating to such petroleum.

Certificate and declaration to be forwarded to Assistant Harbour Master or Port Officer.

4. Every certificate and declaration delivered to a pilot under rules 2 and 3 shall be made over by him without delay *in the port of* Calcutta/*Chittagong* *to the* Assistant Harbour Master/*Port Officer, Chittagong* who shall transfer them without delay to the Superintendent of the Port Commissioners' Petroleum Wharf at Budge-Budge *or the Collector of Customs, Chittagong, as the case may be.*

Delivery of samples.

5. (*1*) When the master of, or the agent for, a ship has made the declaration required by rule 2, the Superintendent of the Petroleum Wharf, *Budge-Budge, or the Collector of Customs, Chittagong, as the case may be,* shall direct an officer to go on board the vessel and obtain samples of all the petroleum on board which it is intended to land at *the port of Calcutta or Chittagong as the case may be.* If the importer so desires he shall also take samples of all the petroleum on board which it is intended to land at any other port in British India :

Provided that no samples need be taken in the case of petroleum which is declared to be dangerous.

(*2*) The master shall deliver to the officer aforesaid, without charge samples of every variety of petroleum comprised in the petroleum of which samples are to be taken under sub-rule (*1*). Such samples shall, if such officer so require, be taken from the particular receptacles indicated by him and under his personal superintendence, and shall not exceed forty fluid ounces :

Provided that when the petroleum is in cases, samples may be taken as delivery proceeds.

Selection of samples.

6. The minimum number of samples to be selected of each brand or quality contained in the cargo shall be as follows :—

(*a*) of certificated petroleum in cases—

one sample for every fifteen thousand cases or fraction of fifteen thousand cases ;

(*b*) of certificated petroleum in casks or drums declared to be of uniform quality—

one sample for every one hundred and twenty thousand gallons or part of one hundred and twenty thousand gallons ;

(*c*) of certificated petroleum in bulk or in tanks—

one sample from each group of tanks or tank compartments certified to be of the same brand or quality ;

(*d*) of petroleum other than certificated, in cases—

one sample for every ten thousand cases or fraction of ten thousand cases ;

(*e*) of petroleum other than certificated, in casks or drums declared to be of uniform quality—

one sample for every eighty thousand gallons or part of eighty thousand gallons ;

(*f*) of petroleum other than certificated in bulk or in tanks—

one sample from each tank or tank compartment.

Sealing of samples and forwarding the same to testing officer.

7. When the samples required have been delivered to the officer aforesaid, such officer shall forthwith seal the bottles containing the samples, and shall label them with the name of the ship, the name of the consignee, and such other distinguishing marks as may be necessary. He shall then forward them to the testing officer.

Methods of test.

8. The testing officer shall test the samples thus received in the manner laid down in the first Schedule to the Act.

Averaging results of tests.

9. If more than one sample of any one brand or quality forming the cargo or a portion of the cargo of a ship is sent to the testing officer for report, that officer shall test each sample separately and strike an average of the results. If the average flashing point is not lower than 73° of Fahrenheit's thermometer,

and no one test gives a flashing point below 70° of that thermometer, he shall report the whole of the petroleum represented by the samples to the *Port Commissioners, Calcutta, or the Collector of Customs, Chittagong, as the case may be* as non-dangerous.

Procedure when tests show want of uniformity.

10. If the testing officer, after testing samples, considers further tests necessary to satisfy him that none of the petroleum is dangerous. he shall report to the Port Commissioners, *Calcutta, or the Collector of Customs, Chittagong, as the case may be* accordingly.

Procedure on report.

11. On receipt of a report under rule 10—

(*a*) when the consignment is imported in cases, the Port Commissioners, *Calcutta, or the Collector of Customs, Chittagong, as the case may be* shall cause the petroleum in question to be landed, or to be discharged into boats, and the officer referred to in rule 5 shall select and deliver to the testing officer one sample from every thousand cases;

(*b*) when the consignment is imported in bulk, the Port Commissioners, *Calcutta, or the Collector of Customs, Chittagong, as the case may be* shall forward a second sample and, until receipt of the testing officer's further report, may prevent the landing of any portion of the contents of the tank in question, or may permit it to be landed as provided in rule 18;

(*c*) if the petroleum has been already landed and stored under rule 18 samples shall be selected as aforesaid.

Report of testing officer.

12. The testing officer shall, as soon as practicable, and ordinarily within twenty-four hours after receipt of any samples, sign a report certifying that they are, or are not, dangerous petroleum, as the case may be, and shall forward such report to the office of the Port Commissioners, *Calcutta, or the Collector of Customs, Chittagong, as the case may be* where it shall be deposited.

Fee for testing.

13. The fee for testing each sample shall be five rupees:

Provided that the total amount of the fees chargeable under this rule shall not, in the case of any one ship, exceed Rs. 50.

When a ship carrying petroleum may anchor at ordinary anchorage.

14. A ship may proceed to the usual anchorage in *either of the ports* specified in rule 1 and there discharge any certificated petroleum not exceeding five thousand gallons in quantity:

Provided that the officer whose duty it is, under rule 5, to select samples of petroleum on board, may at any time take a sample of any such petroleum for the purpose of having it tested.

Exception in respect of petroleum declared dangerous which is not in excess of forty gallons.

15. If the quantity of petroleum declared dangerous on board a ship does not exceed forty gallons and there is no other petroleum on board, or the aggregate quantity of petroleum on board, including petroleum declared dangerous, does not exceed forty gallons, the said petroleum may be forthwith landed.

When a ship carrying petroleum must anchor at a special anchorage.

16. Save as provided in rules 14 and 24, every ship having petroleum on board shall be anchored at such anchorage as the Conservator of the port shall appoint in this behalf. If the petroleum is intended to be discharged at *either of the ports specified in rule 1*, the vessel shall not leave such anchorage, except for the purpose of discharge of bulk oil petroleum as laid down in rule 19, until all the petroleum has been so discharged. If the petroleum or a portion of it is intended for some other port, the petroleum or such portion of it shall be temporarily discharged at such anchorage before the vessel proceeds into the harbour. If it is not so discharged, the vessel shall remain at such anchorage until her final departure.

Such anchorage shall in no case be the same as that for vessels laden with explosives, and shall be sufficiently far removed from the anchorage for vessels laden with explosives to prevent the possibility of a fire originating at the former place affecting vessels anchored at the latter.

Petroleum referred to in rule 16 not to be landed until it has been tested.

17. Save as provided in rule 18, no petroleum, of which samples have been taken under rule 5, shall be landed from any ship referred to in rule 16 until the testing officer's report in respect thereof has been received in the office of the Port

Commissioners, *Calcutta, or the Collector of Customs, Chittagong, as the case may be.*

Landing of petroleum in anticipation of the testing officer's report.

18. (*1*) The Port Commissioners may, in anticipation of the testing officer's report, allow the consignee of any petroleum to discharge the same into boats or to land it.

(*2*) Such permission shall be subject to the condition that the boats into which the petroleum is discharged shall remain at such place as may be directed by the Port Commissioners, *Calcutta, or the Collector of Customs, Chittagong, as the case may be,* or that the petroleum shall be landed at a landing-place duly appointed for this purpose, and be stored in an installation licensed under rule 13 or 14 of Chapter IV, Part II.

Landing of petroleum in bulk.

19. When petroleum is imported in bulk, its removal from the ship shall be effected by means of a hose and a metal pipe. and it shall be pumped into storage-tanks. The discharge shall be continuous, day and night, until completed, weather and appliances permitting. When working at night electric light only shall be used; and, when the ship has finished discharging, the pipe to the storage-tanks shall immediately be emptied by means of a supplementary pump on shore. If for any cause the discharge of petroleum is at any time suspended, arrangements must be made by means of a valve for effectually preventing any of the oil left in the pipe from escaping.

Landing of petroleum otherwise than in bulk.

20. When petroleum imported otherwise than in bulk is landed within the port—

(1) it shall be landed either at jetties provided for the purpose, or in cargo-boats, and, except where electric light is exclusively used, only after sunrise and before sunset, and only at such place or places as the Conservator of the port shall direct;

(2) dangerous and non-dangerous petroleum shall not be conveyed to the shore at the same time on the same cargo-boat;

(3) no smoking, fire or light of any description (other than lights required by the port rules), shall be allowed in any cargo-boat during the time that the petroleum is on board the boat.

Transhipment of petroleum.

21. Petroleum may be transhipped from one ship to another for conveyance to any other port, whether within or beyond the limits of British India :

Provided that—

(*a*) the petroleum shall not be transhipped between sunset and sunrise except when electric light is exclusively used,

(*b*) dangerous and non-dangerous petroleum shall not be conveyed at the same time on any boat which s used for transhipping the petroleum, and

(*c*) no smoking, fire or light of any description (other than lights required by the port rules), shall be allowed on any boat which is being used for transhipping the petroleum from the one ship to the other.

Import-licenses how obtainable.

22. (*1*) Applications for import-licenses under section 5 of the Act shall be submitted to the officer appointed by the Government of Bengal in this behalf, who will, after enquiry, forward the same with his opinion to the Government of Bengal.

(*2*) If the application is granted, a license in Form M, signed by a Secretary to the Government, shall be forwarded to the applicant through the officer to whom his application was submitted. The license may be granted for a period of twelve months.

Petroleum comprised in ship's stores.

23. Nothing in the foregoing rules in this Part applies to petroleum, other than dangerous petroleum, comprised in a ship's stores and manifested as such provided it is not of unreasonably large amount. If any question arises as to whether any petroleum manifested as ship's stores of an unreasonably large amount, the decision thereon of the Collector of Customs shall be final.

Petroleum having a flashing point above 150°.

24. Nothing in the foregoing rules in this Part applies to petroleum which has a flashing point above 150° of Fahrenheit's thermometer. If the master of, or agent for, a ship certifies in writing that any petroleum on board is of this description, the Port Commissioners *Calcutta or the Collector of Customs,*

Chittagong, as the case may be shall allow it to be discharged in the same manner as ordinary cargo; but the Superintendent of the Petroleum Wharf *at Budge-Budge or in Chittagong the Superintendent of Police or the District Magistrate, as the case may be,* may at any time require a sample of any portion of it to be delivered to him, with a view to having it tested.

FORM A.

(RULE 2 OF CHAPTER IV OF PART II.)

License to possess petroleum (other than dangerous petroleum), otherwise than in bulk.

No. Fee Rs.

LICENSE is hereby granted to for the storage in the storage shed described below, of gallons of petroleum, subject to the rules for the storage of petroleum published in Notification No. , and to the further conditions on the back of this license.

District Magistrate.

ENDORSEMENT ON FORM A.

Conditions of the License.

If the licensing officer call on the holder of a license, by a notice in writing, to execute any repairs of the storage shed, which may, in the opinion of such officer, be necessary for the safety of the shed, the holder of the license shall execute the repairs within such period, not being less than one month from the date of receipt of the notice, as may be fixed by the notice.

2. The storage shed shall be constructed of masonry or other uninflammable material with terraced, tiled or iron roofs and with tiled or paved or earthen floors, but the beams, rafters, columns, windows and doors may be of wood.

3. Either the doorways and other openings of the storage shed shall be built up to a height of two feet above the level of the road or street, or the floor sunk to a depth of two feet below the level of the road or street, so that the petroleum cannot flow out from the building in case of its escape from the receptacle in which it is contained, or the building itself shall be surrounded with a masonry wall or embankment or both not less than two feet high. When the quantity of petroleum stored exceeds 16,000 gallons the height or depth shall be three feet.

A combination of these methods is permissible.

4. The following distances round the building shall be kept clear of protected works:—

Distances to be kept clear round buildings or enclosure walls.	Number of gallons to be stored
None	5,000 and under.
20 feet	Over 5,000 and up to 50,000.
30 „	Unlimited.

5. No light, except a light of such strength, position and character as is not liable to ignite any inflammable vapour, nor fire of any description, shall be permitted within the storage shed.

FORM B.

(RULE 3 OF CHAPTER IV OF PART II.)

License to possess dangerous petroleum, otherwise than in bulk in quantity exceeding forty gallons.

No. . Fee Rs.

LICENSE is hereby granted to for the storage, in the storage shed described below, of gallons of dangerous petroleum subject to the rules for the storage of petroleum published in Notification No. , and to the further conditions on the back of this license.

ENDORSEMENT ON FORM B.

Conditions of License.

1. If the licensing officer call upon the holder of a license, by notice in writing, to execute any repairs of the storage shed, which may, in the opinion of such officer, be necessary for the safety of the shed, the holder of the license shall execute the repairs within such period, not being less than one month from the date of receipt of the notice, as may be fixed by the notice.

2. The license-holder is prohibited from delivering any quantity of dangerous petroleum exceeding three gallons to any one who has not a license under section 5 or section 6 of the Act, or any less quantity of such petroleum, except in accordance with the conditions of the proviso to section 6 of the Act, as to the vessels in which the petroleum must be contained.

3. The petroleum shall be stored in gas-tight tinned or galvanized sheet iron, steel or lead plate receptacles containing each not more than forty gallons and fitted with well-made filling holes and well-fitting screw plugs, or fitted with screw cap or other cap with metal air-tight under cap. Such receptacles shall be packed in strong wooden cases, the thickness of the wood to be not less than three-eighths of an inch : provided that wood cases shall not be necessary when the receptacles are made of tinned or galvanized sheet iron or steel, and have the following thickness of metal :—

	Not less than—
(I) When the capacity does not exceed two gallons ...	27 B. W. G.
(2) When the capacity exceeds two gallons but does not exceed four gallons	22 B. W. G.
(3) When the capacity exceeds four gallons but does not exceed eight gallons	20 B. W. G.
(4) When the capacity exceeds eight gallons but does not exceed twenty gallons	16 B. W. G.
(5) When the capacity exceeds twenty but does not exceed thirty gallons	14 B. W. G.
(6) When the capacity exceeds thirty but does not exceed forty gallons	12 B. W. G.

4. An air-space of at least one-tenth of its capacity shall be left in each receptacle at the time of filling.

5. The receptacles shall be so substantially constructed and secured as not to be liable except, under circumstances of grave negligence or extraordinary accident, to be broken or become defective, leaky or insecure.

6. The receptacles shall be labelled in accordance with the provisions of section 7 of the Act.

7. Any receptacle, before being repaired, shall be cleared of all dangerous petroleum and of all dangerous vapours arising from the same.

8. The storage shed shall be constructed of masonry or other uninflammable material with terraced, tiled or iron roofs and with tiled or paved or earthen floors.

9. Either the doorways and other openings of the storage shed shall be built up to a height of two feet above the level of the road or street, or the floor sunk to a depth of two feet below the level of the road or street, so that the petroleum cannot flow out from the building in case of its escape from the receptable in which it is contained, or the building itself shall be surrounded with a masonry wall or embankment or both not less than two feet high. When the quantity of petroleum stored exceeds 16,000 gallons the height or depth shall be three feet.

A combination of these methods is permissible.

10. All ventilating openings in the storage shed shall be protected by strong wire gauze.

11. No light, except a light of such strength, position and character as it not liable to ignite any inflammable vapour, nor fire of any description, shall be permitted at any time within the storage shed.

12. All due precautions shall be taken for the prevention of unauthorised persons having access to any dangerous petroleum kept and to the vessels containing or having actually contained the same.

13. Every person managing or employed on or in connection with the storage shed shall abstain from any act whatever which tends to cause fire or explosion and which is not reasonably necessary, and shall prevent any other person from doing such act.

14. The drum or other receptable containing dangerous petroleum shall only be opened on the licensed premises at or immediately adjoining the storage shed and for the time necessary for drawing off the petroleum, and during such drawing-off every reasonable precaution shall be adopted for preventing the escape of dangerous petroleum or the vapour therefrom.

15. The following distances shall be kept clear from protected works round the storage shed :—

Quantity to be stored.	Distances to be kept clear.
Not exceeding 500 gallons	20 feet.
From 500 to 1,000 ,,	25 ,,
,, 1,000 to 5,000 ,,	30 ,,
,, 5,000 to 15,000 ,,	40 ,,
,, 15,000 to 25,000 ,,	50 ,,
,, 25,000 to 35,000 ,,	60 ,,
,, 35,000 to 50,000 ,,	70 ,,
,, 50,000 gallons and over	100 ,,

Provided that these distances may be reduced by the Government of Bengal on the recommendation of the Chief Inspector of Explosives in cases where screen walls are provided, or other special precautions taken, or where there are special circumstances that in the opinion of the Chief Inspector of Explosives warrant the reduction.

16. Provided that when the quantity to be possessed does not exceed 60 gallons, the provisions of conditions 8, 9 and 15 shall not apply, but the licensee shall observe the following conditions :—

(i) The storage shed in which the dangerous petroleum is stored shall be well ventilated and constructed of uninflammable material, provided, however, that the doors and windows may be of wood.

(ii) Where a storage shed forms part of or is attached to another building and when the intervening floor or partition is of an unsubstantial or inflammable character or has openings therein, the whole of such building shall be deemed to be the storage shed and no portion of such storage shed shall be used as a dwelling-house or as a place where persons assemble. The storage shed shall have a separate entrance from the open air distinct from any building or dwelling in which persons assemble.

17. The storage shed shall be liable to inspection by an officer not being of lower rank than a Sub-Inspector of Police authorized by the Government of Bengal in this behalf.

ENDORSEMENT ON FORM C.

Conditions of License.

1. If the licensing officer call upon the holder of a license, by notice in writing, to execute any repairs of the storage shed which may, in the opinion of such officer, be necessary for the safety of the shed, the holder of the license shall execute the repairs within such period, not being less than one month from the date of receipt of the notice, as may be fixed by the notice.

2. The license-holder is prohibited from delivering any quantity of dangerous petroleum exceeding three gallons to any one who has not a license under section 5 or section 6 of the Act, or any less quantity of such petroleum, except in accordance with the conditions of the proviso to section 6 of the Act, as to the vessels in which the petroleum must be contained.

3. The petroleum shall be stored in gas-tight tinned or galvanized sheet iron, steel or lead plate receptacles containing each not more than ten gallons and fitted with well-made filling holes and well-fitting screw plugs, or fitted with screw cap or other cap with metal air-tight under cap. Such receptacles shall be packed in strong wooden cases, the thickness of the wood to be not less than three-eighths of an inch: provided that wood cases shall not be necessary when the receptacles are made of tinned or galvanized sheet iron or steel, and have the following thickness of metal:—

	Not less than—
(1) When the capacity does not exceed two gallons	27 B. W. G.
(2) When the capacity exceeds two gallons but does not exceed four gallons	22 B. W. G.
(3) When the capacity exceeds four gallons but does not exceed eight gallons	20 B. W. G.
(4) When the capacity exceeds eight gallons ..	16 B. W. G.

4. An air-space of at least one-tenth of its capacity shall be left in each receptacle at the time of filling.

5. Receptacles shall be so substantially constructed and secured as not to be liable, except under circumstances of grave negligence or extraordinary accident, to be broken or become defective, leaky or insecure.

6. The receptacles shall be labelled in accordance with the provisions of section 7 of the Act.

7. Any receptacle, before being repaired, shall be cleared of all dangerous petroleum and of all dangerous vapours arising from the same.

8. The storage shed in which the dangerous petroleum is stored shall be well ventilated and constructed of uninflammable materials; provided, however, that the doors and windows may be of wood.

9. All ventilating openings in the storage shed shall be protected by strong wire-gauze.

10. No light, except a light of such strength, position and character as is not liable to ignite any inflammable vapour, nor fire of any description, shall be permitted at any time within the storage shed.

11. All due precautions shall be taken for the prevention of unauthorized persons having access to any dangerous petroleum kept and to the vessels containing or having actually contained the same.

12. Every person managing or employed on or in connection with the storage shed shall abstain from any act whatever which tends to cause fire or explosion and which is not reasonably necessary and shall prevent any other person from doing such act.

13. The drum or other receptacle containing dangerous petroleum, shall only be opened on the licensed premises at or immediately adjoining the storage shed and for the time necessary for drawing off the petroleum, and during such drawing off every reasonable precaution shall be adopted for preventing the escape of dangerous petroleum or the vapour therefrom.

14. Where a storage shed forms a part of or is attached to another building, and where the intervening floor or partition is of an unsubstantial or inflammable character or has openings therein, the whole of such building shall be deemed to be the storage shed, and no portion of such storage shed shall be used as a dwelling or as a place where persons assemble. The storage shed shall have a separate entrance from the open air distinct from any building or dwelling in which persons assemble.

15. The storage shed shall be liable to inspection by an officer not being of lower rank than a Sub-Inspector of Police, authorised by the Government of Bengal in this behalf.

Conditions of License.

1. Each tank shall either be separately surrounded by a wall or embankment of substantial construction, or shall be partially sunk in an excavation. The enclosure thus formed shall be of dimensions sufficient to contain 10 per cent. more oil than the tank is capable of containing, and shall be so constructed as to prevent the escape therefrom of any oil in the form of liquid, whether under the action of fire or otherwise. Settling or measuring tanks* may be situated within the wall or excavation, but otherwise the space enclosed by such wall or excavation, and not occupied by the tank, shall be kept entirely clear and unoccupied.

* These tanks shall not have a greater capacity than 30,000 gallons.

2. In the case of all storage sheds within the installation, either the doorways and other openings of the building shall be built up to a height of three feet above the level of the ground outside it, or the floor shall be sunk to a depth of three feet below the level of the ground, or the building itself shall be surrounded with a masonry wall or embankment or both not less than three feet high.

3. The height of any storage tank shall not be more than three-fifths of its diameter.

4. A distance of not less than one hundred feet shall be kept clear between one storage tank and another, or between a storage tank and a storage shed, the distance being measured between the nearest points of the perimeters of the storage tanks or storage sheds, as the case may be.

5. A distance of not less than one hundred and fifty feet shall be kept clear between any storage tank or shed and any protected work.

6. The distances specified in conditions 4 and 5 may be reduced by the Government of Bengal on the recommendation of the Chief Inspector of Explosives in cases where screen walls are provided or other special precautions taken or where there are special circumstances that, in the opinion of the Chief Inspector of Explosives, warrant the reduction.

7. No fire or lights other than those necessary for soldering purposes shall be permitted within the installation except in the office, living quarters, engine-room, boiler-house and smithy.

ENDORSEMENT ON FORM E.

Conditions of License.

1. Every tank of which the capacity exceeds fifteen thousand gallons shall either be separately surrounded by a wall or embankment of substantial construction, or shall be sunk in an excavation. The enclosure thus formed shall be of dimensions sufficient to contain the total quantity of oil capable of being contained in the tank, and shall be so constructed as to prevent the escape therefrom of any oil in the form of liquid, whether under the action of fire or otherwise. The space enclosed by such wall or excavation and not occupied by the tanks, shall be kept entirely clear and unoccupied.

2. The distance to be kept clear between a tank and the walls or embankments which surround it shall be, measuring from the ground level—

(*a*) for horizontal tanks, not less than one-third the height of the tank;

(*b*) for perpendicular tanks, not less than one-half the height of the tank.

3. The height of walls or embankments surrounding the installation shall be not less than two feet six inches from the ground level.

4. The following distances shall be kept clear between protected works not forming part of the installation and the enclosure walls or embankments :—

Where the number of gallons stored is—		Distance to be kept clear.
5,000 and under ...	..	Not less than 15 feet.
Over 5,000 and up to 20,000	...	Ditto 20 "
Over 20,000 and up to 50,000	...	Ditto 30 "

Provided that these distances may be reduced by the Government of Bengal on the recommendation of the Chief Inspector of Explosives in cases where screen walls are provided or other special precautions taken, or where there are special circumstances which in the opinion of the Chief Inspector of Explosives warrant the reduction.

5. Soldering shall only be permitted in a separate room or building placed as far from the tanks as can be conveniently arranged, in which no storage or filling shall be permitted. No more tins shall be allowed in the soldering room at any one time than are necessary for expeditious working.

6. No fire or lights, except those necessary in the soldering room and watchman's house, shall be permitted.

7. If the installation contains tanks of which the capacity does not exceed fifteen thousand gallons, either—

(a) each tank shall be separately enclosed in the manner prescribed in condition 1, or

(b) the entire installation shall be surrounded by a masonry wall or embankment or a combination of these forming an enclosure of dimensions sufficient to contain, and prevent the overflow of, all the oil that may be stored at any one time within such walls or embankments.

8. In the case of all storage sheds within the installation, which is not surrounded by a masonry wall or embankment as provided in clause (b) of condition 7, either the doorways and other openings of the building shall be built up to a height of two feet above the level of the ground outside it, or the floor sunk to a depth of two feet below the level of the ground, so that the petroleum cannot flow out from the building in case of its escape from the receptacle in which it is contained, or the building itself shall be surrounded with a masonry wall or embankment (or both) not less than two feet high. When the quantity of petroleum stored exceeds 16,000 gallons, the height or depth shall be three feet. A combination of these methods is permissible.

Such drums or receptacles shall be packed in strong wooden cases, the thickness of the wood to be not less than three-eighths of an inch. Provided that wood cases shall not be necessary when the drums or receptacles are made of tinned or galvanized sheet iron, or steel, and have the following thickness of metal :—

	Not less than—
(1) When the capacity does not exceed 2 gallons	27 B. W. G.
(2) When the capacity exceeds 2 gallons	22 B. W. G.

2. The drums or receptacles shall be so substantially constructed and secured as not to be liable, except under circumstances of gross negligence or extraordinary accident, to be broken or become defective, leaky or insecure.

3. Every such vessel, not forming part of a motor-vehicle, when used for transporting or keeping dangerous petroleum, shall bear the words "Dangerous Petroleum—Highly Inflammable" legibly and indelibly stamped or marked thereon, or on a metallic or enamelled label attached thereto.

4. An air-space of at least one-tenth of its capacity shall be left in each drum or receptacle at the time of filling to allow for expansion of the dangerous petroleum.

5. Before repairs are done to any such vessel, that vessel shall, as far as practicable, be cleaned by the removal of all dangerous petroleum and of all dangerous vapours derived from the same.

6. The storage shed in which the dangerous petroleum is stored shall be well ventilated and constructed of uninflammable materials ; provided, however, that the doors and windows may be of wood.

7. Where a storage shed forms part of, or is attached to, another building, and when the intervening floor or partition is of an unsubstantial or inflammable character, or has an opening therein, the whole of such building shall be deemed to be the storage shed, and no portion of such storage shed shall be used as a dwelling, or as a place where persons assemble. A storage shed shall have a separate entrance from the open air distinct from that of any dwelling or building in which persons assemble.

8. The amount of dangerous petroleum to be kept in any one storage shed, whether or not upon motor-vehicles, shall not exceed sixty gallons at any one time.

9. The filling or replenishing of any vessels with dangerous petroleum shall not be carried on, nor shall the contents of any such vessel be exposed, in the presence of fire or artificial light, except a light of such construction, position and character as not to be liable to ignite any inflammable vapour, and no artificial light shall be brought within dangerous proximity of the place where any vessel containing dangerous petroleum is being kept.

10. In the case of all dangerous petroleum kept or transported for the purpose of, or in connection with, any motor-vehicle, (*a*) all due precautions shall be taken for the prevention of accidents by fire or explosion and for the prevention of unauthorised persons having access to any dangerous petroleum kept or transported and to the vessels containing, or having actually contained, the same, and (*b*) every person managing or employed on or in connection with any motor-vehicle shall abstain from every act whatever which tends to cause fire or explosion, and which is not reasonably necessary, and shall prevent any other person from committing such act.

ENDORSEMENT ON FORM P.

Conditions of License.

1. Each tank containing dangerous petroleum shall either be separately surrounded by a wall or embankment of substantial construction, or shall be partially sunk in an excavation. The enclosure thus formed shall be of dimensions sufficient to contain 10 per cent. more oil than the tank is capable of containing, and shall be so constructed as to prevent the escape therefrom of any oil in the form of liquid, whether under the action of fire or otherwise. Settling or measuring tanks* may be situated within the wall or excavation, but otherwise the space enclosed by such wall or excavation, and not occupied by the tank, shall be kept entirely clear and unoccupied.

2. In the case of all filling or storage sheds within the installation either the doorways and other openings of the building shall be built up to a height of three feet above the level of the ground outside it, or the floor shall be sunk to a depth of three feet below the level of the ground, or the building itself shall be surrounded with a masonry wall or embankment or both not less than three feet high.

3. The height of any storage tank shall not be more than three-fifths of its diameter

4. A distance of not less than 200 feet shall be kept clear between a storage tank containing dangerous petroleum and any other storage tank or between such a storage tank and a storage or filling shed, the distance being

---

* These tanks shal' not have a greater capacity than 30,000 gallons

measured between the nearest points of the perimeters of the storage tanks or storage or filling sheds, as the case may be.

5. A distance of not less than 150 feet shall be kept clear between any filling or storage shed and any protected works.

6. A distance of not less than 200 feet shall be kept clear between any storage tank containing dangerous petroleum and any protected work.

7. Every person managing or employed on or in connection with the place of storage shall abstain from any act whatever which tends to cause fire or explosion and which is not reasonably necessary, and shall prevent any other person from doing such act.

8. No light other than electric lights and no fire shall be permitted at any time within 100 feet of any tank or storage shed.

9 No repairs shall be carried out in any tank which contains or has contained dangerous petroleum until the tank has been thoroughly cleared of all petroleum and of all gases and vapours derived from the same.

10 The distance specified in conditions 4, 5 and 6 may be reduced by the Local Government on the recommendation of the Chief Inspector of Explosives in cases where screen walls are provided, or other special precautions taken, or where there are special circumstances which, in the opinion of the Chief Inspector of Explosives, warrant the reduction.

The 1-th August 1913.

No. 110Marine—The following draft of amendments which the Governor in Council intends, in exercise of the powers conferred by section 10 of the Indian Merchant Shipping Act, 1859 (I of 1859), to make in the rules for the conduct of examinations for Masters and Mates of Foreign-going and Home-trade Ships and as to the qualifications to be required, published under the Notification of this Department No 113Marine, dated the 14th November 1910, as amended by notification No. 109Marine, dated the 7th October 1912, is published for the information of persons likely to be affected thereby.

The draft amendments will be taken into consideration on or after the 15th September 1913, and any objections or suggestions, with regard thereto received by the undersigned before that date, will be duly considered.

B. K. FINNIMORE,
Secy. to the Govt. of Bengal.

Draft amendments.

In the first line of rule 5, after the words "sea-service" *insert* the words "in the foreign or home trade."

For rule 25 (1) *substitute* the following:—

"25. (1) Every candidate for a certificate of competency of any grade will be required to produce a certificate from the St John Ambulance Association, the St. Andrew's Ambulance Association, the St. Patrick's Ambulance

Association, the London County Council, or other approved body to the effect that he has passed an examination in First Aid to the Injured."

After rule 25 (2) *add* the following :—

"Certificates issued by the St. John Ambulance Association more than three years before the examination for a certificate of competency will, however, be accepted, provided that, at the expiration of three years since its issue, the certificate has attached to it the 'Voucher' or 'Label' of the Association certifying that the holder has passed re-examination in First Aid."

For rule 25 (3) *substitute* the following :—

25. (3) If a candidate does not possess such a certificate of proficiency in First Aid, he should apply some time before he wishes to sit for examination for a certificate as Master or Mate to the local Secretary of the St. John Ambulance Association in Calcutta, who will inform him of the available facilities for the instruction and examination of candidates in First Aid.

A list of the names and addresses of the local Secretaries of the approved Associations is given in Appendix C, page 53.

For rules 26 and 27 *substitute* the following :—

SIGHT TESTS.

26. Every candidate for a certificate of competency must pass the prescribed sight tests before a certificate can be issued to him. If circumstances render it necessary for him to proceed with the examination in navigation and seamanship before undergoing the sight tests, he should be informed that the examination in navigation and seamanship will be cancelled in the event of his failure to pass either of the sight tests.

(1) *Form vision test.*—Every candidate for a certificate must pass the form vision test. If he presents himself for examination before January 1st, 1914, he will only be required to possess half normal vision using both eyes together. A candidate who has obtained a certificate before that date will be allowed to obtain his higher certificates on the same standard of vision.

Any candidate may, and every candidate presenting himself for examination for his first certificate on or after January 1st, 1914, must pass a higher standard, viz., normal vision in one eye and not less than half normal vision in the other.

Any candidate who has obtained his first certificate under these conditions may obtain his higher certificates, provided that he has normal vision in one eye and not less than one-third normal vision in the other.

Detailed information with regard to the conduct of the examination and the standards required is contained in Appendix O.

(2) *Colour vision tests.*—These tests comprise a wool test and a lantern test, and full particulars with regard to the methods adopted are given in Appendix O.

Every candidate must undergo the colour vision tests on the first occasion on which he presents himself for examination for a certificate of competency; but, if he then passes, he will not be required to undergo the colour vision tests on any subsequent occasion *provided that, on those occasions, he reaches the standard of form vision prescribed for candidates on and after January 1st, 1914.*

(3) A candidate who fails to pass the prescribed form vision test may present himself for re-examination at intervals of three months. A candidate who fails to pass the colour vision test, is not allowed to be re-examined. In the case of a candidate who is referred for further examination the Port Officer will make arrangements for a special examination and it is also open to any candidate, who is adjudged to have failed in the colour vision test, to appeal to Government, who may, if they think fit, remit the case to a special body of examiners for decision.

(4) The Government will repay, at a rate which will be notified to the candidate, the travelling expenses of any candidate, who is referred for further examination, as well as the travelling expenses of any candidate

who, having appealed against failure, is reported by the special examiners to have passed. No payment whatever will be made towards the expenses of candidates who, upon their own application, are examined by the special examiners, and are reported by them to have failed, unless Government consider that the particular circumstances of the case justify such payment.

(5) When a candidate fails to pass the colour vision test, the examiner will point out to him the conditions under which he can appeal. Appeals are to be made through the Port Officer and forwarded to Government with the examiner's remarks.

(6) Only examiners who have themselves passed the colour vision tests are to undertake the examinations.

(7) The fee paid for examination for a certificate of competency includes the fee of one rupee for examination in form and colour vision, and if the candidate fails to pass those tests, this fee will, with the exception of one rupee, be returned to him.

(8) No additional fee will be charged to any candidate referred by the examiner for special examination or for the special examination allowed to a candidate who appeals against failure. If, however, a candidate, who has been reported by the special examiners as having failed, is still dissatisfied, it will be open to him, if he so desires, to present himself for a second special examination on payment of a fee of Rs. 75, provided that he brings with him a friend to witness the examination. This second examination will, however, be entirely voluntary, and will form no part of the examination for a certificate of competency. Consideration will, however, be given to the result of such examination in determining whether a certificate shall be granted.

(9) If the holder of a certificate of competency fails to pass the colour vision test, or if his form vision falls below half normal in the better eye, there is reason to believe that he is from incompetency unfit to discharge his duties, and in the public interest Government may cause an inquiry to be held by a Court, having jurisdiction to cancel or suspend such certificate; but in the alternative, the Government may accept the voluntary surrender of the certificate until such time as the candidate succeeds in passing the test in which he failed.

Insert the following as rule 27 :—

27. The sight tests are open to all persons serving or intending to serve in the Mercantile Marine, and all such persons are recommended to take the earliest opportunity of ascertaining whether their vision is such as to qualify them for service in that profession. Any such person, if desirous of undergoing the form vision and colour vision tests *only*, must make application to the Port Officer on the Form Exn. 2a, and must pay a fee of one rupee.

This fee will be payable on each occasion on which a candidate is examined.

In clause (*b*), rule 31, *delete* the word "rough" in the second line.

For clause (*l*), rule 31, *substitute* the following :—

(*l*) To find on a chart or plan the course or courses to steer and the distance or distances from one given position to another; to find the ship's position together with the set and drift (if any) on the chart or plan from cross-bearings of two objects; to find the ship's position from two bearings of the same object, the course and distance run between taking the bearings being given, making due allowance for a given tide or current; also, the distance of the ship from the object or any given position at the time of taking the second bearing; and to state what the small numbers and Roman numerals found on a chart indicate, and give a method of finding approximately the time of high water at any given place without the aid of the Admiralty or other Tide Tables. *See* Appendix H.

After clause (*p*), rule 31, *insert* the following :—

(*q*) The markings, signs and abbreviations on Admiralty charts or plans.

(*r*) The General Notices published in the Board of Trade Summary of Notices to Mariners.

In clause (4), rule 40, before the word "paragraphs" in the first line *insert* the word "sub."

For the figure "16" in the sixth line *substitute* "15"

For the word "six" in the last line *substitute* the word "five."

Insert the following as rule 103A:—

103A. For all certificates of competency as Master or Mate in the Mercantile Marine, the qualifying service usually required is service performed in ordinary trading vessels. While the Regulations provide for the acceptance in part of certain kinds of non-trading service (*e.g.*, that performed in fishing-boats, yachts, pilot vessels. &c.), non-trading service not specially provided for in the Regulations cannot be accepted as qualifying service unless it has been submitted to Government and their sanction obtained.

For rule 112, *substitute* the following:—

In charge of watch.

112. When service in charge of a watch in either the foreign or home trade is specified in the Regulations, candidates for certificates of competency as First Mate must be able to prove that during eight months at least of their service they have kept full regular watch *during the whole voyage*, i.e., *from port to port*, which, if in the foreign trade, must amount to not less than eight hours of each 24 hours' service. Where a candidate can prove eight months of such full service, service performed in cases where watches were doubled at any time during the voyage will be accepted as equivalent to half the same period of full watch-keeping service. No amount of occasional service will, by itself, be accepted as qualifying service. Candidates for certificates of competency as Master will be required to have served during the whole of the time specified by the Regulations, in full charge of a watch, and no service performed under the system of double watches except as the senior officer will be accepted as qualifying service for a certificate of this grade. Great care must be exercised by the Port Officer in regard to such service, and unless the candidate produces a clear and satisfactory testimonial specially setting forth the above facts from the Master or Owner of the vessel in which the service was performed, it must not be accepted.

Insert the following before the last paragraph of Appendix C:—

EXAMINATION IN CHART.

For all Grades where the Chart is used, including Home Trade Passenger Ship Certificates.

1. Using deviation [card] [curve]† No. find the courses* to steer by compass from to ; also the distance on each course.

Note.—Alter course when and again when .

Answer.—1st Course . 1st Distance .

2nd „ . 2nd „ .

3rd „ . 3rd „ .

1st Deviation .

2nd „ .

3rd „ .

2. With the ship's head on the abovenamed compass course bore by compass and bore by the same compass, find the ship's position, also the set and drift experienced since the course was set, ship steaming knots per hour and taking hours to reach this position.

Answer.—Latitude . Longitude .

Set . Drift .

3. With the ship's head on abovenamed compass course bore by compass , and after continuing on the same course (hours) (minutes), it bore , find the ship's position, and her distance from , making due allowance for a (current) (tide) which set at the rate of knots per hour, ship steaming knots per hour.

Answer.—Latitude . Longitude .

Distance .

4. What do you understand the small numbers to indicate that you see placed about the chart, and at what time of tide?

5. What do the Roman numerals indicate that are occasionally seen on the chart near the coasts and in harbours?

6. How would you find, approximately, the time of high water at any place, the Admiralty tables not being at hand, nor any other special tables available?

All the foregoing questions must be answered, but this does not preclude the examiner from putting any other questions of a practical character or which the local circumstances of the port may require.

Additional questions for Only and First Mates and Masters, including Masters of Home Trade Passenger Ships.

7. Find the course to steer by compass from to to counteract the effect of a current which set at the rate of miles per hour, the ship making by log miles per hour; also the distance the ship would then make good in hours towards .

Answer.—Compass course .

Distance .

8. On being off took a cast of the lead; required the correction to be applied to the depth obtained by the lead line before comparing it with the depth marked on the chart.

* These problems will be varied in the setting so as to include one, two, three or more courses and the remaining problems will also be varied so as to include all practical conditions.

† A candidate for an Ordinary Master's certificate is expected to use either a card of deviations, or a curve of deviations on a Napier's diagram, whichever the examiner may put before him.

9. The following horizontal sextant angles were taken to determine the ship's position :—

——— ° ′ ——— ° ′ ———

Find the latitude and longitude, using a station pointer.

Answer.—Latitude ° ′ .

Longitude ° ′ .

All the foregoing questions, and those on Form Exn. 9c, must be answered, but this does not preclude the examiner from putting any other questions of a practical character or which the local circumstances of the port may require.

For Appendices O and Oa *substitute* the following :—

APPENDIX O.

THE SIGHT TESTS.

These tests must be conducted under the strict personal supervision of the examiner. A careful record must be kept of all mistakes made by the candidate in the form vision test, and on *no account whatever* must a candidate be allowed to make his selections in the colour vision test during any temporary absence of the examiner.

Each examiner must keep a record of all candidates passed by him for reference when required.

1.—FORM VISION TEST.

1. *Form vision test to be passed first.*—The first test which the candidate is required to undergo is the test for form vision, and until he has passed this test he must not be allowed to proceed further with the examination.

2. *Apparatus used.*—The form vision test to be used for all candidates is that conducted on Snellen's principle by means of sheets of letters. Sets of eight of these sheets are supplied to examiners.

3. *Object of the test.*—The object of the form vision test is to determine whether the candidate can reach a sufficient standard of visual acuteness, or, in other words, to find out whether his eyesight is good or bad.

4. *Standard of vision required.*—With the exceptions indicated below (*see* paragraph 8), every candidate for a first certificate of competency will be required to possess normal vision in one eye and at least half normal vision in the other. Every candidate for a second or higher certificate will be required to possess normal vision in one eye and at least one-third normal vision in the other.

"Normal vision" is defined, for the purpose of these Regulations, as ability to read correctly nine of the twelve letters in the sixth line and eight of the fifteen letters in the seventh line of a test sheet placed in a good light at a distance of 16 feet from the eye.

"Half normal vision" is similarly defined as ability to read correctly, under the same conditions, all the letters in the fifth line of a test sheet. One-third normal vision is defined as ability to read correctly all the letters in the fourth line of a test sheet.

5. *Spectacles not allowed.*—During the examination for form vision candidates must not be allowed to use spectacles or glasses of any kind, or any other artificial aid to vision.

6. *Method of testing.*—The test sheets should be hung on the wall, *in a good light but not in a direct sunlignt*, at a height of five or six feet from the ground. The candidate should be placed at a distance of exactly 16 feet from the sheets, and exactly opposite them. This distance should be carefully measured, and should never in any circumstances be varied.

The candidate's left eye should then be covered, and one of the sheets exposed, and the candidate should be asked to read the letters on each sheet, beginning at the top and going downwards. Any mistakes which he makes should be carefully noted. If then it is found that he has read correctly at least nine letters in the sixth line and eight letters in the seventh line of a sheet, the candidate may be considered to have normal vision in the right eye, and the entry "5/5" should be made in the appropriate column of

the form of application (Exn. 2 or Exn. 2A, as the case may be). If the candidate does not reach this standard, but has yet read correctly all the letters in the fifth line of the test sheet, he may be regarded as having at least half normal vision in the right eye, and the entry "5/10" should be made in the proper column. If the candidate does not reach this standard, but has yet read correctly all the letters in the fourth line, he may be regarded as having at least one-third vision, and the entry "5/15" should be made.

The candidate's left eye should then be tested in the same way with a different test sheet.

7. *Passing or failure.*—If at the conclusion of the test the candidate is found to reach the required standard, he may be considered to have passed, and the examiner should proceed to test him for colour vision. If the candidate fails to reach the standard required for the certificate entered for, he should be tested with at least eight sheets, viz., four to each eye, and the examiner should fill in a Form Exn. 17b, and should forward it, with any remarks he may wish to make, to the Principal Examiner for his instructions as to whether the candidate is to be regarded as passing or as failing in form vision.

8. *Lower standard required in certain ca es.*—Candidates examined before January 1st, 1914, and also candidates examined on or after that date who are already in possession of certificates obtained before that date, may be regarded as passing in form vision if they can read correctly with both eyes at least five of the eight letters in the fifth line of a test sheet. Such candidates should, as a general rule, be tested for each eye separately, and the procedure indicated in paragraphs 6 and 7 should be followed. If, however, any such candidate insists on using both eyes together he must be allowed to do so.

9. *Tests to be varied.*—The examiner should take care, by varying the order of the test sheets and by every other means in his power, to guard against the possibility of any deception on the part of the candidate.

10. *Result of examination to be reported.*—The result of every examination in form vision should be reported, in the case of a candidate for a certificate of competency, to Government on Form Exn. 2, and to the Port Officer on Form Exn. 14; and, in the case of a candidate for the sight tests only, to Government on Form Exn. 2A.

2. COLOUR VISION TESTS.

I.—THE WOOL TEST.

1. The wools provided are divided into five groups, one to each tes skein. The test skeins are labelled respectively I. (Light Green), II. (Pink), III. (Brown), IV. (Purple), and V. (Yellow), and must always be used in the order named. Care should be taken that the labels do not become detached nor the skeins belonging to the different groups get mixed. To avoid this only one group of skeins should be exposed on the table at one time.

A special bag with five pockets is provided in which the wools, when not in use, must be kept in order that they may not become faded or dirty

2. The examination in the wool test should be conducted as follows:—

The first group of wools is placed in a heap upon a table covered with a white cloth and the first test skein a little to one side of it, care being taken that no strong sunlight falls directly upon the skeins. The person examined should be requested to note carefully the colour of the test skein and then to divide the group into two parts, one part consisting of those skeins which have the same colour as the test skein in them and the other part the skeins which have none of the test skein colour in them. The Examiner should explain that there is no exact match for the test skein, as the skeins which contain this colour are all either lighter or darker, and that the only question is the division of those skins which contain the test colour more or less from those which do not. No difficulty should be experienced in explaining to the candidate what he is required to do, but if the Examiner thinks he has not grasped what is required he may himself divide the heap into two parts as a demonstration, mixing the skeins up again thoroughly before allowing the candidate to do the test.

3. When the candidate has dealt with the first test skein each of the four remaining tests should be gone through in a similar manner and in the order named.

4. As the examination proceeds the Examiner should place on one side the skeins which the candidate has wrongly selected as either resembling or not resembling the test skeins, and when the examination is finished, a small piece (say one inch) should be cut off *every one of the actual skeins incorrectly selected* by the candidate and *stitched* to Form Exn. 17c under the proper heading in the spaces provided for each test.

5. The greatest care must be taken that the pieces forwarded are cut off the actual skeins selected by the candidate, in order that there may be a reliable record of the actual selections made by the candidate if any question should subsequently arise.

6. During this test the Examiner should avoid naming the colours of any of the wools and should explain to the candidate that he does not require them to be named by him.

7. The wool test should only be held in daylight. *If a good natural light is not obtainable the test must be postponed.* If dark or foggy weather renders it necessary to postpone the examination until after the examination in navigation or seamanship has been begun, the Examiner should not fail to inform the candidate that the latter examination will be cancelled in the event of failure to pass the Sight Tests.

II.—The Lantern Test.

8. A special lantern and a mirror have been provided for this test. The lantern should be placed directly in front of the mirror, so that the front part of the lantern is exactly ten feet from the mirror. Care should be taken that the lantern is properly placed, that is to say, the lights reflected in the mirror must show clearly when viewed through the rectangular aperture on the left of the lantern. The Examiner should always satisfy himself that these conditions are fulfilled before commencing the examination.

9. *It is essential that a Candidate should be kept in a room which is either completely or partially darkened for at least a quarter of an hour before he is required to undergo this test.*

10. Before the examination commences the Examiner must satisfy himself that the room in which it is conducted is so darkened as to exclude all daylight.

11. The lantern supplied for the examination is so constructed as to allow one large or two small lights to be visible, and is fitted with 12 glasses of three colours—red, white and green. At the commencement of the examination the Examiner should show to the candidate a series of lights through the large aperture, and should require him to name the colours as they appear to him. Care should be taken in showing the white light to emphasize the fact that the light is not a pure white. If a candidate makes a mistake of calling this light "red," a proper red light should be shown immediately after and the candidate's attention directed to the difference between the two.

After a series of lights through the large aperture has been shown, the Examiner should make a complete circuit with the two small apertures, requiring the candidate to name the colours of each set of two lights from left to right. To prevent any possibility of the order in which the lights are arranged from being learnt, the Examiner should at least twice in each circuit go back a varying number of colours.

A record of any mistakes made with either the large aperture or the two smaller apertures should be kept on Form Exn. 17c in accordance with the instructions thereon.

12. As the lantern itself forms a test for Colour Ignorance, the old Colour Ignorance test becomes unnecessary and should be discontinued.

III.—Success or Failure.

13. If a candidate with either the large aperture or the two smaller apertures of the lantern mistakes red for green or green for red, he should be considered to have "failed" in Colour Vision.

14. If a candidate makes no mistakes in the wool test, and if the only mistakes made by him with the lantern is to call the white light "red," and

if after his attention has been specially directed to the difference between the two he makes no further mistake of this nature, he should be considered to have passed in Colour Vision.

15. If a candidate makes any other mistakes with the lantern, *i.e.*, if he calls white "red" repeatedly or red "white" at all or confuses green and white or if he makes any mistake whatever in the wool test, his case should be reported to the Port Officer and he should be told that the decision as to whether he is passed or failed or a further examination is necessary will be communicated to him in due course. Pending the receipt of the Port Officer's instructions such a candidate should only be allowed to proceed with the remainder of the examination for a Certificate of Competency on the express understanding that the latter examination will be cancelled in the event of failure in the Sight Tests.

IV.—FURTHER EXAMINATION AND APPEALS.

16. If in the cases covered by the preceding paragraph the Port Officer decides that a further examination is necessary, arrangements will be made for a special examination to be held and the travelling expenses necessarily incurred by a candidate in attending such an examination will be paid by Government together with a subsistence allowance at a rate which will be notified to the candidate, but which will not in any circumstances exceed Rs. 5 for each day necessarily occupied in attending the examination. In these cases the above expenses will be paid whatever may be the result of the final examination.

17. If, however, on the report of the Examiner the Port Officer decides that the nature of the mistakes made shows conclusively that a candidate is so colour blind as to be unfit to hold a certificate, the candidate shall be considered to have failed.

In cases where, upon the report of the Examiner, a candidate is failed by the Port Officer as well as in the cases covered by paragraph 14, Government will be prepared to allow a candidate who is dissatisfied with this decision to appeal for a special examination but Government will not pay the travelling expenses of any such candidate unless he is reported by the special examiners conducting the appeal examination to have passed.

3.—REPORTS.

18. The result of every test in form or colour vision should be reported to Government on the Form Exn. 2, and to the Port Officer on the Form Exn. 14, when the candidate is up for examination for a certificate of competency: and to Government on the Form Exn. 2A, when the candidate is up for examination in vision only.

All cases of failure should also be reported to the Port Officer on Form Exn. 17B, to which should be attached Form Exn. 17C, containing the pieces of the wools incorrectly selected by the candidate, and the record of any mistakes made with the lantern.

Every report relating to such an examination must be signed by the examiner who conducted the examination.

Tsingtau Wireless Time Signals—Alteration in time of sending and method of transmission.

No. 378 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 901 of 1913), are republished:—

Former Notice.—No. 76 of 1913. (*This office No. 83 of 1913.*)
Position.—Wireless station, lat. 36° 04′ N., long. 120° 19¼′ E.
Details.—The Tsingtau Wireless Time Signals have been altered. The new signals will be sent with a uniform wave length of 1,250 metres, the *dashes* will be of about 1 second and the *dots* of about ¼ second duration, each sign being separated from the one which immediately follows in the same group by an interval of about 1 second duration. (*See* diagram attached to Notice No. 874 of 1913, which is reproduced below.)
The Time Signals will be made at Noon and 8 p.m. Standard Mean Time, corresponding to 16h. and Noon. Greenwich Astronomical Mean Time, as follows:—

Preparative signal.—A series of the letter "X" of the Morse alphabet from 15h. 57m. 0s. to 15h. 57m. 50s and from 23h. 57m. 0s. to 23h. 57m. 50s. followed by three *dashes* ending at 15h. 58m 0s. and 23h. 58m. 0s.

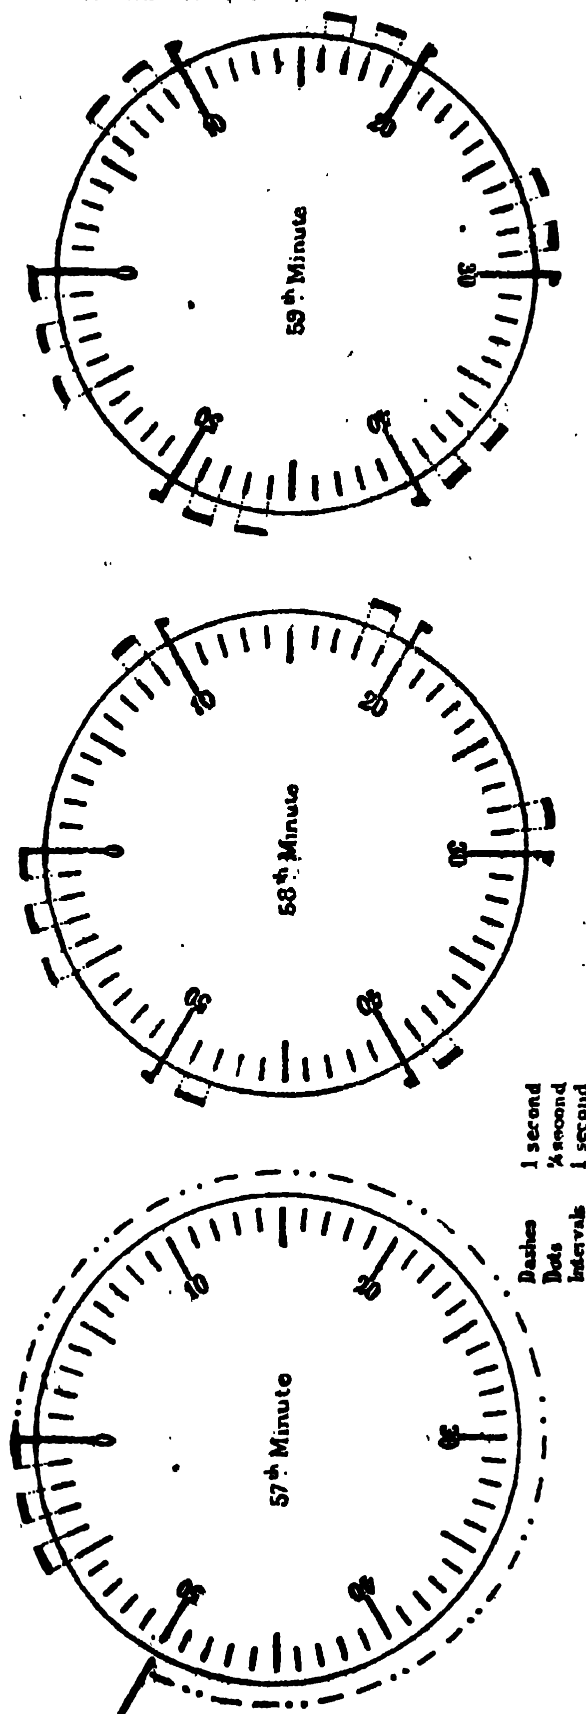
First series of time signals.—Commencing at 15h. 58m. 8s. and 23h. 58m. 8s., the letter "N" of the Morse alphabet, repeated every 10 seconds, the *dot* being made at each even 10 seconds; followed by three *dashes* ending at 15h. 59m. 00s. and 23h. 59m. 00s.

Second series of time signals.—Commencing at 15h. 59m. 6s. and 23h. 59m. 6s., the letter "G" of the Morse alphabet, repeated every 10 seconds, the *dot* being made at each even 10 seconds; followed by three *dashes* ending at 16h. 00m. 00s., and Noon 00m. 00s.

The diagram attached to Notice No. 874 of 1913 and reproduced below represents graphically the foregoing system.

Remarks.—In the case of irregularities in the signals, the procedure will be as hitherto.

The note on chart No. 857 has been amended and now reads:—



"The Time Ball is dropped at Noon, Standard Mean Time, corresponding to 16h. 0m. 0s. Greenwich Mean Time. A Wireless Time Signal is also made from Diedrich's Hill at Noon and 8 p.m., Standard Mean Time, corresponding to 16h. and Noon G.M.T."

REPORT ON THE ADMINISTRATION OF THE SALT DEPARTMENT IN BENGAL DURING THE YEAR 1912-13.

NOTIFICATION.

No. 1365S.R.—The 11th August 1913.—The following extracts from the Report of the Commissioner of Excise and Salt, Bengal, on the administration of the Salt Department in the Presidency of Bengal during the year 1912-13, are published for general information.

J. DONALD,
Offg. Secy. to the Govt. of Bengal.

No. 126S., dated Calcutta, the 30th June 1913.

From—THE HON'BLE MR. A. N. MOBERLY, I.C.S., Offg. Commissioner of Excise and Salt, Bengal,

To—The Secretary to the Government of Bengal, Financial Department.

I HAVE the honour to submit the following consolidated report on the administration of the Salt Department for the year 1912-13. The report deals with preventive operations in the saliferous districts of the Presidency, which were under the control of the Commissioner of Excise and Salt, and with the importation and issues of salt under the control of the Customs authorities.

2. **Charge of Department.**—The Hon'ble Mr. Donald held charge from the 1st April to the 29th November 1912, and I was in charge for the rest of the year.

CHAPTER I.

General.

* * * * * *

4. **Credit system of payment of duty.**—There was a considerable increase in the operations under the salt credit system. From the statement furnished by the Collector of Customs, Calcutta, it appears that securities to the extent of Rs. 43,62,800 were deposited during the year against Rs. 26,12,500 in 1911-12. The quantity of salt issued under the system amounted to 74,44,990 maunds against 49,15,766 maunds in the previous year. There were 43 depositors during the year, 6 of whom closed their accounts, leaving a balance of 37, while in the previous year there had been only 22 depositors.

5. **Extension of the salt-bonding accommodation at Sulkea and the construction of a stacking shed and an additional turn-table.**—The work in connection with the extension of the *golas* is now well in hand. Two rows have been almost completed, while the Inspector's quarters, the workshop and the menials' quarters are expected to be ready shortly. A new stacking platform and the extra turn-table were supplied at a cost of Rs. 27,858.

CHAPTER II.

Stocks, Imports and Clearances.

7. **Accounts of stocks and issues.**—The stocks, imports and clearances of th salt warehouses for the years 1911-12 and 1912-13 are shown below :—

Stocks, imports, etc.	1911-12. Mds.	1912-13. Mds.
Total of all stocks at the commencement of the year	18,71,881	23,87,375
Total quantity imported during the year	1,43,17,055	1,46,69,306
Excess found in the *golas*	8,398	15,602
Total ...	1,61,97,334	1,70,72,283
Quantity on which duty was paid during the year	1,34,84,205	1,34,96,977
Quantity which passed free of duty for the manufacture of glazed stoneware, etc.	3,504	9,148
Quantity of non-duty-paid salt removed under bond to warehouses in Assam and Orissa	1,95,475	1,72,580
Quantity written off during the year for wastage, or otherwise ...	1,26,775	1,26,895
Total ...	1,38,09,959	1,38,05,600
Balance at the close of the year ...	23,87,375	32,66,683

The stocks in all the *golas*, both public and private, at the commencement of the year, were larger by over 5 lakhs of maunds than on the 1st April 1911. The receipts exceeded those of the previous year by 3½ lakhs of maunds. The salt trade generally was very brisk, and a greater number of vessels than usual were employed in bringing salt. The clearances exceeded those of the previous year by 12,772 maunds. In addition to the closing balance of 32,66,683 maunds, 3,09,291 maunds of salt were lying afloat in the port of Calcutta at the close of the year as compared with 1,57,563 maunds on the 31st March 1912.

8. **Imports.** * * * The total imports into Calcutta were over 3 lakhs of maunds less than those of the previous year and showed a decrease of 2·3 per cent. About half came from the United Kingdom, and Aden, Spain, Port Said, Bombay, Salif, Germany, Massowah, Madras and Coconada were the other exporters in the order named. There was a decrease in salt from the United Kingdom, Germany, Spain and Salif; a very great increase in Port Said and Aden salt, and a slight increase in Bombay and Massowah salt. The importation of salt from the United Kingdom was affected by the coal strike in England and the prices by competition in the local market. The large increase in Aden salt was due to the fact that the salt pans, which were recently established there, had been completed and were in thorough working order. The importation of Salif salt was affected by the Turko-Italian war. No salt came from Tunis; and a small quantity only from Madras.

There was a further great increase in the importations into the port of Chittagong, the receipts being 71·9 per cent. in excess of those of the previous year. Aden supplied the largest quantity. The imports from Spain also increased, but imports from the United Kingdom and Germany fell off considerably. Salt was also imported during the year from Port Said and, for the first time, from Massowah. The great increase in the imports of salt was due to several new merchants entering the trade.

Out of the total importations of 1,30,78,589 maunds into the port of Calcutta, 96,75,034 maunds, or 74 per cent., were bonded in the Sulkea and Kidderpore *golas* during the year as against a percentage of 71 in the previous year. This was due to advantage being taken of the high export freight market which prevailed throughout the year.

9. **Sales of imported salt from shipboard and bond.** * * *

In Calcutta the sales direct from shipboard show a decrease of 12·6 per cent. and those from bond a decrease of ·9 per cent. In Chittagong the sales direct from shipboard exhibit an increase of 88·6 per cent. and those from bond an increase of 43·4 per cent. There was a decrease of 1·4 per cent. in the total sales of imported salt. All the vessels carrying salt to Calcutta were steamers.

10. **Transactions in the golas.**—The total transactions at the *golas* in Calcutta and Chittagong for the past five years are given below :—

Years.	Calcutta.	Chittagong.
	Mds.	Mds.
1908-09	1,95,75,642	17,19,182
1909-10	1,67.32,270	14,54,034
1910-11	1,69,74,317	9,94,315
1911-12	1,89,16,765	14,60,568
1912-13	1,89,70,290	23,01,492

It will be seen that the transactions in Calcutta exceeded those in any of the three preceding years, but were less than in 1908-09. The transactions in Chittagong showed a large increase over those in any other year of the quinquennium.

The quantity of salt handled at Sulkea was 1,58,91,776 maunds against 1,59,82,266 maunds in the preceding year, and that at Kidderpore 30,78,514 maunds against 29,34,499 maunds.

* * * * * *

12. **Inland bonded warehouses.**—There were 10 private bonded warehouses in the Province against 9 in the previous year, viz., 3 at Narainganj (Dacca), 1 at Bhairab Bazar (Mymensingh), 1 at Madaripur (Faridpur), 4 at Jhalakati (Bakarganj), and 1 at Chandpur (Tippera). A new *gola* was opened at Narainganj. Six private bonded warehouses were newly licensed in Chittagong during the year for want of space in the Government *golas*. The quantity of salt despatched to the 10 inland warehouses from shipboard and *golas* in the ports of Calcutta and Chittagong was 6,78,844 maunds against 7,50,448 maunds in the previous year, showing a decrease of 9·5 per cent. The quantity of salt despatched from shipboard to the bonded warehouse at Chandbali in the district of Balasore in the province of Bihar and Orissa and to the warehouses at Balaganj and Ajmirganj in Assam was 1,18,980 maunds, 20,000 maunds and 33,600 maunds, respectively, against 1.28,500 maunds, 66,975 maunds and *nil*, respectively, in the previous year, showing an aggregate decrease of 22,895 maunds, or 11·7 per cent.

* * * * * *

CHAPTER III.

Consumption and Prices.

15. **Consumption.**—The total quantity of salt which passed into consumption in this Presidency during the year 1912-13 was 76,42,905 maunds. This is exclusive of 58,54,574 maunds, the net export by rail, road or river, but inclusive of 502 maunds educed from saltpetre.

16. **Prices of salt in Bengal generally.** * * * There was a slight decrease of 2 pies in the average as compared with the previous year, which was attributed to the fall in the prices of imported salt in the Calcutta and Chittagong markets. The retail prices in the saliferous districts remained the same as in the previous year, the price per seer

ranging from 9 pies to 1 anna 3 pies. Exclusive of duty, the average wholesale price of Liverpool salt per 100 maunds as sold from the ship's side in the port of Calcutta was Rs. 62-3-3 against Rs. 64-7-1 in 1911-12. The Collector of Customs, Calcutta, reports that at the end of the previous year the market showed an upward tendency, and prices were on the whole fairly well maintained. There were brisk bonding operations at Sulkea during April and May 1912 consequent upon the agents' desire to take advantage of the good export freights that were being offered for their vessels. Towards the end of the year the freights fell and the position became somewhat changed. In the port of Chittagong the effect of several new merchants entering the trade was to reduce prices.

* * * * * *

CHAPTER V.

Financial Results.

21. **Receipts and charges.**— * * * As compared with 1911-12, receipts show a decrease of Rs. 10,94,167, or 8·4 per cent., and charges an increase of Rs. 5,197, or 1·6 per cent. The net revenue was Rs. 1,15,45,842, which was less than that of the previous year by Rs. 10,99,364, or 8·7 per cent. The decrease in the receipts occurred mainly under the head "Import duty on salt." The charges do not include any share of the cost of the Customs Preventive Service, which is largely employed in safeguarding the salt revenue.

* * * * * *

CHAPTER VI.

Miscellaneous.

22. **Saltpetre refineries and Soda factories.**—There were three licensed saltpetre refineries at Soorah, Kakurgachi and Manicktolla under the Commissioner of Salt, Bengal, a new one having been opened by the Bengal Chemical and Pharmaceutical Works, Ld., at Manicktolla, from August 1912. There was a factory for the manufacture of sulphate of soda by artificial heat at Tangra. A second factory for the same purposes was opened during the year at Pagladanga.

The quantity of refined saltpetre produced in the three refineries during the year was 7,958 maunds against 7,329 maunds in the previous year. The slight advance in output was due to the opening of the new refinery. The quantity of salt educed in the process of refinement of saltpetre was 608 maunds against 806 maunds in 1911-12, and the quantity of *sitta* (impure salt) left in the course of refinement was 907 maunds against 1,059 maunds in the previous year. The eduction of smaller quantities of salt and *sitta* in the face of an increased production of refined saltpetre was reported to be due to the fact that a purer kind of crude saltpetre was purchased by the refiners. 502 maunds of educed salt were sold during the year against 840 maunds of educed salt and 400 maunds of *sitta* in the previous year, the duty realized being Rs. 502 as against Rs. 1,040 in 1911-12. The license-fees realized from the three saltpetre refineries and the two factories for the manufacture of sulphate of soda were Rs. 150 and Rs. 4, respectively.

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the Cotton Crop of Bengal, 1913-14.

(NOTE.—On the average of the five years ending 1911-12 the area under cotton crop in Bengal represents some 0·2 per cent. of the total area of cotton in India.)

Character of the season.—Cotton is cultivated only in the districts of Bankura, Midnapore, Chittagong Hill Tracts and in the State of Hill Tippera. The weather conditions have not been favourable in the Chittagong Hill Tracts and in Hill Tippera, where the early variety of cotton is grown on a large scale. The crop in those places has been damaged to a considerable extent owing to unusually heavy rain. The areas under cotton (both early and late) in the other two districts are limited and the sowings of the late variety have not as yet commenced in Bankura and in parts of Midnapore. The condition of the early crop in these districts is reported to be fairly good.

Area sown.—The area sown with early cotton is reported to be 39,098 acres against 49,250 acres of last year. Of the late crop only 500 acres have been sown up to date. The area under this crop last year was 420 acres.

CALCUTTA,
The 5th August 1913.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 11th August 1913.

Summary.—With the exception of some parts of North Bengal, heavy rain fell over the rest of the province during this week, causing unusually heavy floods in most of the West Bengal districts and greatly damaging the standing crops. Owing to a breach in the embankment of the river Damodar large tracts of land in the districts of Burdwan, Hooghly and Howrah have been washed away with disastrous results. In the absence of report from Burdwan the extent of damage to standing crops and live-stock is not exactly known. In East Bengal the prospects of standing crops are fair. Harvesting of jute and *aus* rice and transplantation of winter rice are in progress. Want of fodder is felt in parts of Jessore, Midnapore, Bogra and Tippera. Cattle-disease has been reported from seven districts only. Reports of damage to standing crops by insect-pests have been received from parts of Nadia and Chittagong Hill Tracts. The price of common rice has risen by about 0·7 per cent., as compared with that of the previous week.

No. 4100.—The 19th August 1913.—In exercise of the powers conferred by section 11 of the Bengal Mining Settlements Act, 1912 (Bengal Act II of 1912), the Governor in Council is pleased to make the following rules for carrying out the purposes and objects of that Act in respect of all mining settlements and certain groups or classes of mining settlements in the Presidency of Fort William in Bengal.

Rules.

PART I.

RULES FOR THE NOMINATION BY OWNERS OF MINES OR THEIR REPRESENTATIVES OF PERSONS TO BE APPOINTED TO A MINES BOARD OF HEALTH UNDER SECTION 3 (2) OF BENGAL ACT II OF 1912.

Definitions.

1. In these rules:—

(*a*) the expression "Magistrate" means the Magistrate of the district and includes a Deputy Commissioner of a district;

(b) the expression "the Act" means the Bengal Mining Settlements Act, 1912;

(c) the expression "Board" means the "Mines Board of Health."

Register of voters.

2. (1) A register shall be maintained by the Magistrate in which shall be shown for the area for which the Board is to be appointed the name, place of residence, and number of votes to which he is entitled of the owner of every mine or of the representative of every such owner who is entitled to nominate persons to be appointed to the Board.

(2) If a person is the owner of more than one mine all such mines shall be grouped together in one entry, and if a colliery or mine is owned by more than one person the name of one owner or representative only shall be entered.

Applications for registration.

3. (1) Any mine-owner or his representative may, on or before a date to be fixed by the Magistrate, apply to have his name registered. Such application, which may be made by post, shall contain full particulars of the collieries or mines of which the applicant is owner or representative.

(2) The Magistrate shall on receipt of such application register the name of the applicant:

Provided that, for reasons to be recorded in writing, he may refuse to register the name of any such applicant.

Power of Magistrate to register or remove names.

4. The Magistrate may of his own motion register or remove from the register (for reasons to be recorded in writing) the name of any mine-owner or his representative:

Provided that such name shall not be removed until the expiry of 15 days from the service of a notice on the person whose name the Magistrate proposes to remove from the register.

Mutation of names.

5. Mutation of names shall be effected by the Magistrate either on application or of his own motion:

Provided that the reasons for refusing an application shall be recorded in writing.

Appeals to Commissioner.

6. In the case of an order passed by the Magistrate rejecting an application to be registered, removing the name of a person already on the register or rejecting an application for mutation of names, an appeal shall lie to the Commissioner of the Division if filed within 30 days from the date of the order. The decision of the Commissioner shall be final.

Classification of voters.

7. (1) Persons whose names have been entered in the register shall be classified as follows:—

Class A.—Owners of mines with an average output, for each of the preceding three years, of 400,000 tons or more, or representatives of such owners.

Class B.—Owners of mines with an average output, for each of the preceding three years, of 350,000 tons or more, or representatives of such owners.

Class C.—Owners of mines with an average output, for each of the preceding three years, of 300,000 tons or more, or representatives of such owners.

Class D.—Owners of mines with an average output, for each of the preceding three years, of 250,000 tons or more, or representatives of such owners.

Class F.—Owners of mines with an average output, for each of the preceding three years, of 100,000 tons or more, or representatives of such owners.

Class G.—Owners of mines with an average output, for each of the preceding three years, of 50,000 tons or more, or representatives of such owners.

Class H.—Owners of mines with an average output, for each of the preceding three years, of 25,000 tons or more, or representatives of such owners.

Class I.—Owners of mines with an average output, for each of the preceding three years, of 5,000 tons or more, or representatives of such owners.

Class J.—Owners of mines with an average output, for each of the preceding three years, of less than 5,000 tons, or representatives of such owners.

(2) The classification shall be determined by the Chief Inspector of Mines.

(3) Persons in Class A shall be entitled to sixteen votes, in Class B to fourteen votes, in Class C to twelve votes, in Class D to ten votes, in Class E to seven votes, in Class F to five vote, in Class G to four votes, in Class H to three votes, in Class I to two votes and in Class J to one vote.

Fixing of the date of election and issue of requisition to voters.

8. (1) When it becomes necessary that the Local Government should appoint one or more persons under section 3 (2) of the Act, the Magistrate shall fix a date on which the election shall be held and shall require each person entered in the register to forward to him on or before the date so fixed the names of the persons whom he desires to nominate for appointment.

(2) Such requisition, which shall ordinarily be forwarded by registered letter, shall contain the following particulars:—

(*a*) The number of persons to be appointed by the Local Government.

(*b*) The number of votes to which the voter is entitled.

(*c*) The hour and date on which votes will be counted.

Counting of votes and election.

9. (1) On the date fixed the Magistrate shall count the votes received and shall forward to the Local Government through the Commissioner of the Division the names of the persons who have received the largest number of votes.

(2) In the event of an equality of votes the Magistrate shall decide by lot which persons shall be recommended for appointment.

PART II.

RULES FOR THE NOMINATION BY PERSONS WHO RECEIVE ROYALTIES, RENTS OR FINES FROM MINES OF PERSONS TO BE APPOINTED TO A MINES BOARD OF HEALTH UNDER SECTION 3 (3) OF BENGAL ACT II OF 1912.

Register of voters.

10. (1) A register shall be maintained by the Magistrate of the district in which shall be shown for the area for which the Board is to be appointed, the name, place of residence and number of votes to which he is entitled of each person who receives royalties, rents or fines from mines.

(2) If such royalties, rents or fines be received by a number of sharers, the name of one only of such sharers shall be entered in the register.

Applications for registration

11. (1) Any person who receives royalties, rents or fines may, on or before a date to be fixed by the Magistrate, apply to have his name registered. Such application, which may be made by post, shall contain full particulars of the mines in respect of which royalties, rents or fines are received, the amounts so received and the amount paid as road cess.

(2) The Magistrate shall, on receipt of such application, register the name of the applicant:

Provided that for reasons to be recorded in writing he may refuse to register the name of any such applicant.

Power of Magistrate to register or remove names

12. The Magistrate may of his own motion register or, for reasons to be recorded in writing, remove from the register the name of any person who receives royalties, rents or fines from mines:

Provided that in the latter case previous notice shall be given to the person whose name the Magistrate proposes to remove.

Mutation of names

13. Mutation of names shall be effected by the Magistrate on application or of his own motion:

Provided that the reasons for refusing an application shall be recorded in writing.

Appeal to the Commissioner

14. (1) In the case of an order passed by the Magistrate rejecting an application to be registered, removing the name of a person already on the register or rejecting an application for mutation of names, an appeal shall lie to the Commissioner of the Division, if filed within 30 days from the date of the order.

(2) The decision of the Commissioner shall be final.

Classification of voters

15. (1) Persons whose names have been entered in the register shall be classified as follows:—

Class A.—Persons who have during the preceding year paid Rs. 100 or less as road cess.

Class B.—Persons who have during the preceding year paid more than Rs. 100 but not more than Rs. 500 as road cess.

Class C.—Persons who have during the preceding year paid more than Rs. 500 but not more than Rs. 1,000 as road cess.

Class D.—Persons who have during the preceding year paid more than Rs. 1,000 but not more than Rs. 2,500 as road cess.

Class E.—Persons who have during the preceding year paid more than Rs. 2,500 but not more than Rs. 10,000 as road cess.

Class F.—Persons who have during the preceding year paid more than Rs. 10,000 as road cess.

(2) Persons in Class A shall be entitled to one vote, in Class B to two votes, in Class C to four votes, in Class D to eight votes, in Class E to ten votes and in Class F to sixteen votes.

(3) The classification shall be determined by the Magistrate of the district.

Election.

16. When it becomes necessary that the Local Government should make an appointment under section 3 (3) of the Act, the Magistrate shall hold an election in the manner prescribed in Rules 8 and 9 in Part I of these Rules.

PART III.

RULES REGARDING THE TENURE OF OFFICE OF MEMBERS OF A MINES BOARD OF HEALTH.

Term of office.

17. (1) Every member of the Board shall vacate his office at the end of three years from the date of the order of the Local Government appointing the Board. The term of three years mentioned in this rule shall be held to include any period which may elapse between the expiration of the said three years and the first meeting of the newly appointed Board at which a quorum shall be present.

Filling of vacancies.

18. If any member of the Board who has been appointed under section 3 (2) or section 3 (3) of the Act shall be unable to complete his full term of office, the Magistrate shall, for the purpose of filling the vacancy, hold an election in the manner described in Rules 8 and 9 in Part I of these Rules.

Removal of members on account of absence.

19. The Commissioner of the Division may remove any member of the Board if he absents himself from eight consecutive meetings of the Board without the permission of such Board.

PART IV.

RULES REGULATING THE PROCEDURE OF A MINES BOARD OF HEALTH AND THE POWERS AND FUNCTIONS OF THE CHAIRMAN.

Date of meeting and notice.

20. (1) Ordinarily a meeting of the Board shall be held once a month on a date to be fixed by the Chairman, but as many meetings may be held and at such times as the Chairman may direct.

(2) At least one week's notice of all meetings shall be given to each Member.

Vice-Chairman.

21. (1) At the first meeting held after the appointment of the Board the members shall elect one of their number to be Vice-Chairman.

Chairman.

(2) The Chairman, or in his absence the Vice-Chairman, shall preside at every meeting, and in the absence of both the Chairman and Vice-Chairman the members present shall choose one of their number to preside.

Quorum.

22. (1) The quorum necessary for the transaction of business shall be three.

(2) If at any meeting a quorum is not present, the member who presides shall adjourn the meeting until such other day as he thinks fit. At such adjourned meeting any number of members present will form a quorum.

Voting by proxy prohibited.

23. (1) Voting by proxy shall not be permitted.

Casting vote.

(2) In the event of an equality of votes on any question brought before the Board, the presiding officer shall have a second or casting vote.

PART V.

RULES FOR THE REGULATION OF EXPENDITURE TO BE INCURRED BY A MINES BOARD OF HEALTH AND FOR THE CALCULATION AND RECOVERY OF SUMS DUE TO IT.

Preparation of estimate.

24. (1) The Board shall prepare, not later than the 1st day of January in each year, an estimate of receipts and expenditure (other than expenditure incurred under sections 7 and 8 of the Act) for the ensuing financial year.

(2) Such estimate shall be accompanied by a statement showing the total amounts to be recovered from (*a*) owners of mines, and (*b*) receivers of royalties, rents and fines and showing also in each case the rate of assessment which it is proposed to impose under section 10 (3) of the Act.

Inspection, consideration and submission of estimate.

25. Such estimate and statement shall be open to the inspection of the public at the office of the Board for a period of not less than fourteen days and on the expiry of that period the Board shall, after considering the objections, if any, which have been received, and after amending, if necessary, the estimate, shall forward it with full explanatory notes to the Commissioner of the Division for approval.

Sanction or return of estimate by Commissioner.

26. The Commissioner may either sanction the estimate as it stands or approve of it after making such alterations therein as he may think necessary, or may return it to the Board for such modifications as he may think necessary, and when such modification has been made, the estimate shall be resubmitted for the approval of the Commissioner.

Estimate on first appointment of Board.

27. When a Board is first appointed, an estimate of receipts and expenditure for the remaining portion of the financial year shall be prepared and published in the manner prescribed in rules 24 and 25 and be submitted to the Commissioner for approval.

Revision of estimate.

28. If during the course of the year it is necessary to revise the estimate, a revised estimate shall be prepared and published in the manner described in rules 24 and 25 and shall be submitted to the Commissioner for approval.

Annual report.

29. The Board shall submit annually to the Commissioner, not later than the 15th of May, a report of the working of the Board during the previous year, accompanied by statements showing the actual receipts and expenditure as well as statements showing in detail—

(*a*) the expenditure incurred under sections 7 and 8 of the Act,

(*b*) the amounts recovered under section 10 (2) of the Act, and

(*c*) the payments made to holders of land under section 10 (5) of the Act.

Account and Audit Rules.

30. The account and audit rules prescribed under the Bengal Local Self-Government Act of 1885 for District Boards shall, so far as possible, be observed by the Board.

PART VI.

RULES PRESCRIBING THE DUTIES OF OWNERS, AGENTS AND MANAGERS OF MINES IN RESPECT OF MINING SETTLEMENTS AND OF ALL PERSONS ACTING UNDER THEM.

Obligation of owners and employés to assist officers of Board.

31. Every mine owner and every employé of a mine owner shall be bound, when called upon, to render all reasonable assistance to officers of the Board in carrying out their duties.

Returns of births and deaths.

32. Every mine owner and manager shall be bound to supply to the Board such periodical returns of births and deaths as they may be called upon to furnish.

Information of cholera, plague or small-pox.

33. Every mine owner and manager shall be bound to furnish to the Chief Sanitary Officer of the Board immediate information regarding the occurrence of any case or suspected case of cholera, plague or small-pox.

Returns of output.

34. Every mine owner and manager shall be bound to supply to the Board such periodical returns of output as they may be called upon to furnish and the Board may for the purpose of verifying such returns inspect or call for the production of any registers or books.

PART VII.

RULES FOR SANITATION AND CONSERVANCY IN MINING SETTLEMENTS FOR THE TAKING OF MEASURES TO PREVENT THE OUTBREAK OR SPREAD OF EPIDEMIC DISEASE AND TO REGULATE THE DUTIES AND POWERS OF SANITARY OFFICERS.

Provision of burning ghats and burial-grounds.

35. The Board may establish and maintain burning ghats and burial-grounds and may, by general order, direct that in the whole or any specified part of the Mining Settlement corpses shall not be burnt or buried at places other than those provided for the purpose.

Closing of wells, tanks and sources of water-supply.

36. (1) The Board may issue a written order on any mine owner, manager, or landholder directing him to close or empty within a time to be stated in the order, and for such time as may be specified therein any well, tank or other source of water-supply situate within or partly within his property which, in the opinion of the Chief Sanitary Officer is contaminated, and, in the event of the work not being carried out within the time stated in the order or to the satisfaction of the Chief Sanitary Officer, the Board may itself carry out the work.

(2) The powers granted by this rule may be delegated by the Board to its Chief Sanitary Officer.

Delegation of powers to Chief Sanitary Officer to seize bad food and dispose of corpses.

37. The Board may delegate to its Chief Sanitary Officer power—

(a) to seize and destroy any articles of food or drink which in his opinion are unfit for consumption,

(b) to seize and dispose of the corpse of any person who he has reason to believe has died of any epidemic disease.

Disinfection and evacuation of houses.

38. (1) The Board may issue a written order on any mine owner, manager or landholder directing him to carry out, within a time to be stated in the order, such measures for the disinfection or evacuation of dwelling-houses, or for the destruction of infected bedding or clothing as the Chief Sanitary Officer may consider necessary, and in the event of such measures not being carried out within the time stated in the order, or to the satisfaction of the Chief Sanitary Officer, may authorize the Chief Sanitary Officer to carry out the work.

(2) The power granted by this rule may be delegated by the Board to its Chief Sanitary Officer.

Power of Board during epidemic to close shops or market.

39. (1) The Board may, during the prevalence of an epidemic, direct that any market shall remain closed for such time as may appear to be necessary.

(2) The power granted by this rule may be delegated by the Board to its Chief Sanitary Officer.

Sanction of Local Government required for exercise of certain powers.

40. The previous sanction of the Local Government shall be required for the exercise by the Board within any prescribed area within the mining settlement of all or any of the powers and functions specified in rules 41 to 60.

41. (1) The Board may provide establishments, cattle, carts and implements required for the removal of sewage, offensive matter and rubbish and may provide places convenient for the deposit thereof by occupiers of houses.

Removal of sewage and rubbish.

(2) Where such places have been provided, the Board may require the occupiers of houses to deposit the same daily or at stated intervals in such places.

(3) Where such places have not been provided, the Board may require every occupier of any house or land to place rubbish at stated hours on the public road adjacent to his house or land.

Drains, privies and cess-pools.

42. All drains, privies and cess-pools shall be subject to the inspection and control of the Board.

Inspection of drains, privies and cess-pools.

43. The Board, or any officer authorized by it in that behalf, may inspect all privies, drains and cess-pools at any time between sunrise and sunset, after two hours' notice in writing to the occupier of any premises in which such privies, drains or cess-pools are situated, and may, if necessary, cause the ground to be opened wherever the Board, or the officer authorized by it, may think fit for the purpose of preventing or removing any nuisance arising from such privies, drains or cess-pools.

Disinfection of privies, drains and cess-pools.

44. Whenever the Board is satisfied that the existence of such privy, drain or cess-pools is attended with risk of disease to the inhabitants of the neighbourhood, it may direct the use of such disinfectants or deodorants as it shall specify, in such privy, drain or cess-pool, in such quantities or for such time as it shall think fit.

Common privies and urinals.

45. The Board may provide and maintain common privies or urinals.

Clearance and drainage of waste land.

46. Whenever any land, being private property or within any private enclosure, appears to the Board by reason of thick or noxious vegetation or jungle, or inequaltides of surface, to be likely to impede sufficient ventilation or to be otherwise injurious to health, or by want of drainage to be in a state injurious to health, or offensive to the neighbourhood, the Board may require the owners or occupiers, or the owners and occupiers of such land, within fifteen days, to clear and remove such vegetation or level such surface or drain such land:

Provided that if, for the purpose of effecting any drainage under this rule, it shall be necessary to acquire any land not being the property of the person who is required to drain his land, or to pay compensation to any other person, the Board shall provide such land and pay such compensation.

Control of public sewers and drains.

47. All existing public sewers, drains and other conservancy works shall be under the direction and control of the Board, who may construct such further works of that nature as they may consider necessary.

Provision of water.

48. The Board may, by order published at such places as it may think fit, set apart any well, tank, part of a river, stream or channel, not being private property, for the supply of water for drinking and for culinary purposes and may prohibit therein all bathing, washing of clothes or animals or other acts calculated to pollute the water; and may similarly set apart any well, tank, part of a river, stream or channel for the purpose of bathing, or for the purpose of washing animals or clothes or for any other purpose conncted with the health, cleanliness or comfort of the inhabitants of the mining settlement.

Prohibition of pollution of public water-supply.

49. The Board may, by an order published at such places as it may think fit, prohibit in the private portion of any stream or channel used as a part of the public water-supply, bathing, washing of clothes or animals or any other act likely to pollute the water in the public portion of such stream or channel.

50. If the Chief Sanitary Officer of the Board certifies that the water in any well, tank or other place is likely, if used for drinking, to engender or cause the spread of any dangerous disease, the Board may prohibit the removal or use of such water for drinking during a period to be specified in the notice.

Prohibition of use of polluted water.

51. The Board may require the owner or occupier of any land within eight days, or such longer period as the Board may fix, either to re-excavate or fill up with suitable material, at his option, or to cleanse any well, watercourse, private tank or pool therein, and to drain off and remove any waste or stagnant water which may appear to be injurious to health or offensive to the neighbourhood:

Power to order improvement of water-supply.

Provided that if, for the purpose of effecting any drainage under this section, it shall be necessary to acquire any land not being the property of the person who is required to drain his land or to pay compensation to any other person, the Board shall provide such land and pay such compensation.

52. The Board may require the owners or occupiers, or the owners and occupiers of any land, within fifteen days to repair and make efficient any drain, privy or cess-pool, or to remove any privy or close any cess-pool which is situated on such land.

Power to order repair of drain, privy or cess-pool.

53. If any person, without the written consent of the Board first obtained, makes or causes to be made, or alters or causes to be altered any drain leading into any of the sewers or drains vested in the Board, the Board may cause such branch drain to be demolished, altered, re-made, or otherwise dealt with as they shall think fit.

Unauthorised alteration of drain.

54. If any land, being within one hundred feet of a sewer, drain or other outlet into which such land may, in the opinion of the Board, be drained, is not drained to the satisfaction of the Board, the Board may require the owner, within one month, to drain the said land into such sewer, drain or outlet.

Power to direct drainage into sewer or drains.

55. (1) No person shall, without the written permission of the Board construct or keep any latrine, urinal, cess-pool, house-drain, or other receptacle, for sewage or other offensive matter, within one hundred feet of any public tank or watercourse or a tank or watercourse which the inhabitants of any locality use.

Prohibition against latrines, urinals in proximity to tanks or watercourses.

(2) The Board may require any owner and occupier upon whose land any latrine, urinal, cess-pool, house-drain or other receptacle so situated exists, or may hereafter be constructed, to remove the same within eight days.

56. No person shall, without the written permission of the Board, construct a privy with a door or trap-door opening on to any road or drain. The Board may require any owner or occupier upon whose land any such privy exists to remove the same within eight days.

Removal of privies with doors opening on road.

57. (1) The Board may, by a general order, prohibit the making of excavations for the purpose of taking earth or stone therefrom, or for the purpose of storing rubbish or offensive matter therein, and the digging of cess-pools, tanks or undrained excavations without special permission previously obtained from them.

Power to prohibit excavations.

(2) If any such excavation, cess-pool or tank is made after the issue and publication of such order, without such special permission, the Board may require the owners and occupiers of the land on which such excavation, cess-pool or tank is made, within two weeks, to fill up such excavation.

58. Whenever the Board is satisfied, from inspection, or by report of competent persons, that any existing block of huts within the mining settlement is, by reason of the manner in which the huts are constructed

Enquiry as to insanitary blocks of huts, and report.

or crowded together, or of the want of drainage and the impracticability of scavengering, attended with risk of disease to the inhabitants of the neighbourhood, they may cause the locality to be inspected by two Medical Officers, who shall make a report in writing on the sanitary condition of the said block of huts; and shall specify, if necessary, in the said report, the huts which should be removed, the roads, drains, and sewers which should be constructed and the low lands which should be filled up, with a view to the removal of the said risk of disease.

Power to enforce recommendations in report

59. On receipt of the said report, the Board may require the owners or occupiers of the huts, or at the option of the Board, the owner of the land on which such huts are built, to carry out and execute, within a reasonable time, to be fixed by the Board for such purpose, all or any of the works specified in the aforesaid report or any portion thereof respectively, and if such owner, owners or occupiers shall fail to comply with such requisition, the Board itself may execute all or any of such works.

Drainage of slaughter houses and places for sale of meat, fish and vegetables

60. Every owner, or occupier, or farmer, of any place for the sale of meat, poultry, fish or vegetables, or of any slaughter-house, within the limits of the mining settlement shall cause such drains to be made therein as shall be considered sufficient by the Board and (if required so to do by the Board) shall cause all the floors and drains to be paved with stone or burnt brick, and shall also cause a supply of water to be provided, sufficient for keeping such place or slaughter-house in a clean and wholesome state.

PUBLIC WORKS DEPARTMENT, BENGAL.

DISTRICT ROAD FUND.

Notification dated 16th August 1913.—The subjoined abstract of the annual report and accounts of the District Road Committee of the Darjeeling district for the year 1912-13 is published for general information.

B. K. FINNIMORE,
Secy. to the Govt. of Bengal.

Letter No. 156P.W.—XVI-2-2, dated the 17th June 1913, from F. C. FRENCH, ESQ., I.C.S., *Officiating Commissioner of the Rajshahi Division, to the Secretary to the Government of Bengal, Public Works Department.*

I HAVE the honour to forward herewith the report on the administration of the District Road Committee, Darjeeling, together with the annual accounts for the year 1912-13. The outstanding cash balance of Rs. 24,567-3-9 and the unadjusted advances, amounting to Rs. 5,978-6-1, were again very large in proportion to the income, and the explanation offered by the Chairman is not very convincing.

Abstract of the Report by the Chairman, District Road Committee of Darjeeling, on the operations of the District Road Fund of the district for the year 1912-13.

[*Vide* letter No. 84R.F., dated 6th June 1913, from S. G. Hart, Esq., I.C.S., Chairman of the District Road Committee, Darjeeling, to the Commissioner of the Rajshahi Division.]

1. *Working of Committees.—(a) District Road Committee.*—There were 18 members—6 official and 12 non-official. Four meetings were held during the year. The average attendance was 9, or 50 per cent.

(*b*) *Kurseong Branch Road Committee.*—The total number of members was 8, of whom 2 were officials. Five meetings were held during the year, and the average attendance was 4, or 50 per cent.

(*c*) *Terai Branch Road Committee.*—The Committee consisted of 18 members, of whom 5 were officials. Seven meetings were held, and the average attendance was 8, or 42 per cent.

2. The year opened with a cash balance of Rs. 20,218-7 and an outstanding advance of Rs. 10,297-7-6. Altogether Rs. 30,515-14-6 was available for expenditure during the year. The total receipts and expenditure during the year amounted to Rs. 73,553-4-7 and Rs. 43,007-10-9, respectively, leaving a cash balance of Rs. 24,567-3-9 and an unadjusted advance of Rs. 5,978-6-1. The closing balance exceeded one quarter's kist. Its unduly large size was due to certain unforeseen events preventing the execution of some of the new and repair works which it had been proposed to carry out during the year. A portion of the balance however, was actually spent, but no accounts were received and no adjustment could be made within the year 1912-13.

RECEIPTS.

3. *Provincial rates.*—The road cess was levied during the year 1912-13 in the district at the rate of six pies in the rupee. The amount collected under the head "Cess on lands" was Rs. 26,133 against Rs. 25,229-0-3 in the preceding year. The increase was due to the revaluation of certain Estates.

4. *Contributions.—(a) Grant from Government.*—A sum of Rs. 9,785-6-1 was credited under this head during the year, including a grant of Rs. 6,308 for augmenting the resources of the Committee. Rupees 7,843-15-1 was the total grant of the preceding year 1911-12. The increase was due to the credit during the year of the grant for 1911-12 on account of Government Estates.

(*b*) A sum of Rs. 7,119 was received from the Darjeeling Improvement Fund as its annual contribution for communications and its share of the cost of the cess and tauzi joint establishment.

(*c*) No contributions from private persons were received during the year.

EXPENDITURE.

5. *Original works.*—Of the estimated cost of Rs. 8,100 for the construction of a bridge over the Chénga river on road No. 52, only Rs. 5,920-7-3 was spent during the year on account of materials and freight. The construction of the proposed Bone and Ruber Khola bridges could not be commenced during the year owing to non-receipt of estimates from the Public Works Department.

6. *Repairs.*—Rupees 21,589-0-9, as detailed below, was spent on repairs against Rs. 22,968-12-6 in the preceding year. The decrease is mainly due to non-adjustment of certain amounts spent during the year owing to delay in submission of accounts.

Particulars of repairs.

7. Nine miles of metalled road, 334 miles of unmetalled road and 4 miles of village road were repaired during the year by the Committee at costs of Rs. 4,776, Rs. 16,751 and Rs. 60, the cost per mile being Rs. 530·6, Rs. 50·16 and Rs. 15, respectively.

8. A sum of Rs. 392 was spent during 1912-13 for putting up signboards on certain roads

9. *Iron railings.*—Rupees 1,888-11-5 was spent on iron railings for dangerous parts of certain hill roads.

10. *Contribution.*—A sum of Rs. 620 was paid to the Deputy Conservator of Forests, Darjeeling Division, for further improvement to the Forests road from Sreekhola in continuation of Road Cess road No. 18A (Kanjilia Bijanbari to Suberkam) *vid* Rembik to Palmajua.

11. *Public Works establishment.*—There is no District Engineer under the District Road Committee. All the works in the hills and most of those in the Terai are executed by other members of the Committee and managers of tea gardens and private gentlemen. The thanks of the Committee are due to them for their valuable assistance Important Road Cess bridges were repaired by the Public Works Department as usual at the expense of the Committee. A sum of Rs. 1,128-8-6, including contingencies, or 3·7 per cent. of the total outlay on works, was spent for the entertainment of an overseer and a peon under the Terai Branch Road Committee. The pay of the overseer was Rs. 60 *plus* a fixed horse allowance of Rs. 20 and that of the peon Rs. 7 per mensem.

12. *Loans.*—No fresh loan was taken during the year Rupees 5,274-8-4 was paid as principal and Rs. 2,036-9-4 as interest on loans previously granted by Government.

13. *Administration.*—There are two Branch Committees, viz., Kurseong and Terai. Mr. J. Lang, the Deputy Commissioner, was *ex-officio* Chairman of the District Road Committee and of the Terai Branch Road Committee throughout the year. Mr. F. G. E. Piffard, the senior Deputy Collector, was the Vice-Chairman of the District Road Committee during the year. Messrs. J. C. B. Drake, F. W. Robertson and C. Bartley, successive Subdivisional Officers of Kurseong, were Chairmen of the Kurseong

Committee and Vice-Chairman of the Terai Branch Committee from 1st to 14th April 1912, 15th April 1912 to 21st February 1913 and 22nd February to 31st March 1913, respectively. Dr. A. D. Humphry, Civil Medical Officer of Kurseong, was Vice-Chairman of the Kurseong Branch Road Committee throughout the year. Members of the District and Branch Committees took an active and practical interest in the roads under their supervision. Acknowledgments are due to them and to the officers above-named.

14. *Audit of accounts.*—The members of the Audit Sub-Committee have audited the accounts for the whole year, and the Examiner of Local Accounts, Bengal, has audited up to November 1911.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

Tsingtau Wireless Time Signals—Alteration in time of sending and method of transmission.

No. 378 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 901 of 1913), are republished:—

Former Notice.—No. 76 of 1913 (*This office No. 83 of 1913.*)

Position.—Wireless station, lat. 36° 04′ N., long. 120° 19¼′ E.

Details.—The Tsingtau Wireless Time Signals have been altered. The new signals will be sent with a uniform wave length of 1,250 metres, the *dashes* will be of about 1 second and the *dots* of about ¼ second duration, each sign being separated from the one which immediately follows in the same group by an interval of about 1 second duration. (*See* diagram attached to Notice No 874 of 1913, which is reproduced below.)

The Time Signals will be made at Noon and 8 p m. Standard Mean Time, corresponding to 16h and Noon. Greenwich Astronomical Mean Time, as follows:—

Preparative signal.—A series of the letter "X" of the Morse alphabet from 15h. 57m. 0s. to 15h. 57m. 50s. and from 23h. 57m. 0s. to 23h. 57m. 50s. followed by three *dashes* ending at 15h. 58m 0s. and 23h. 58m. 0s.

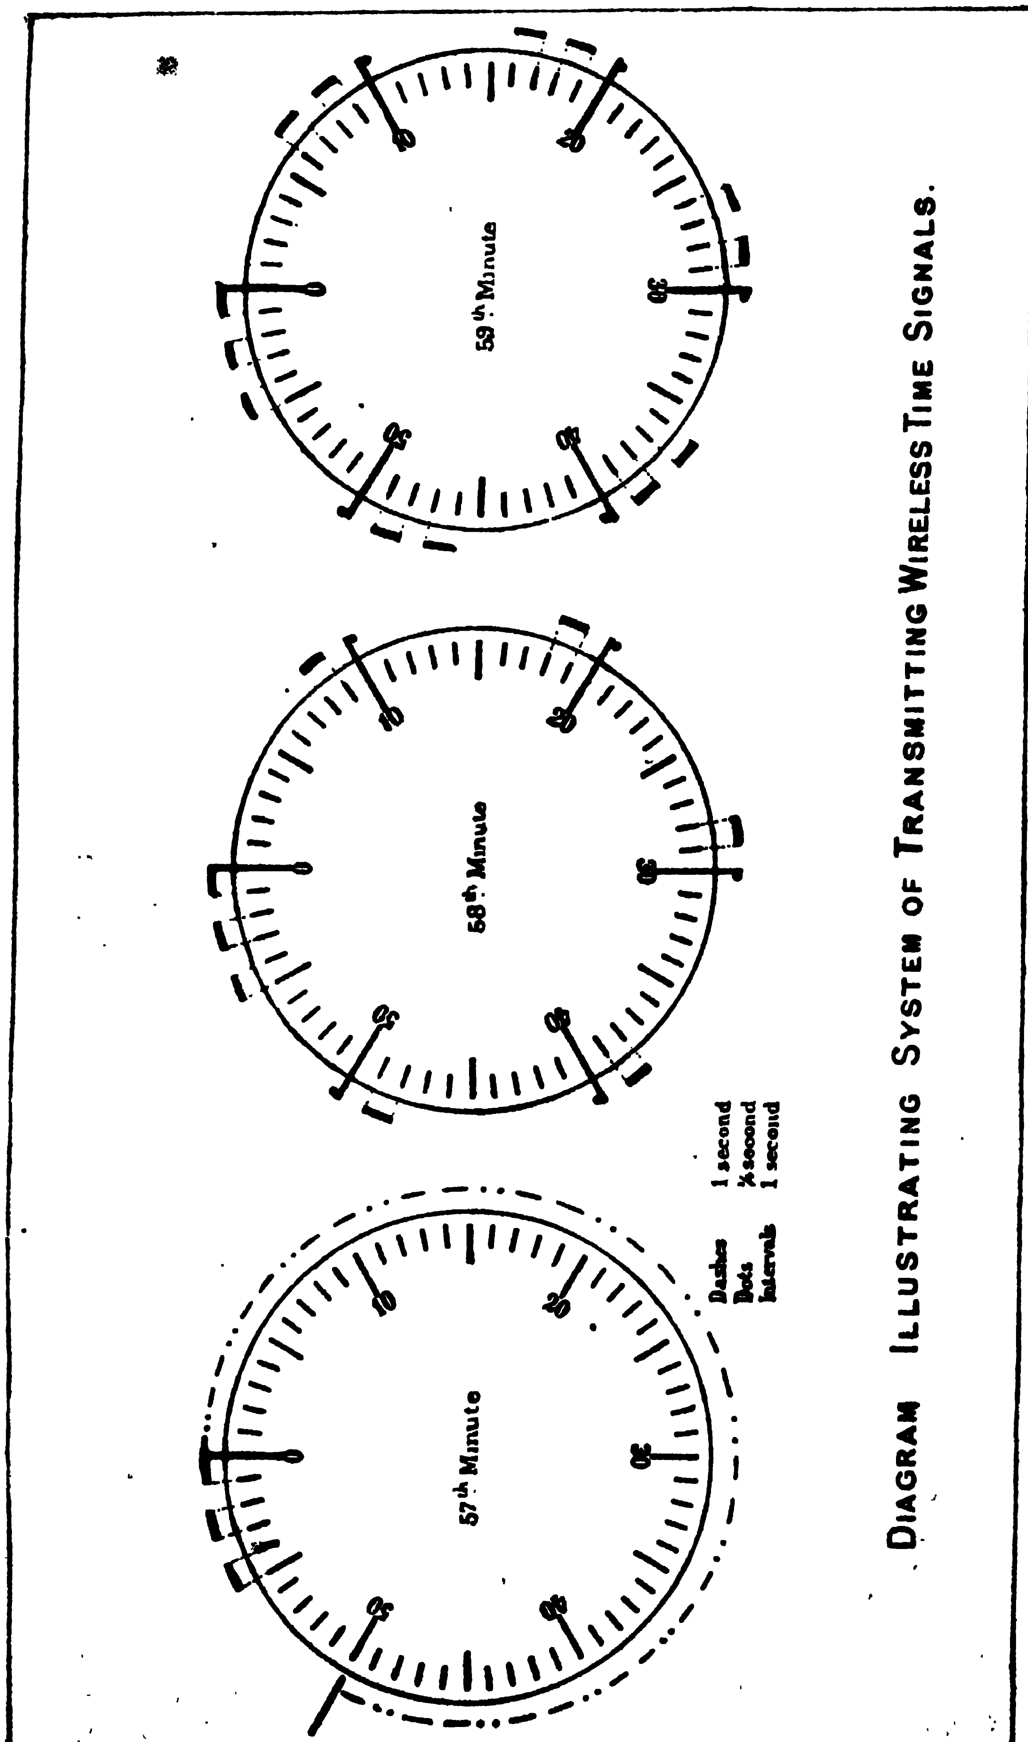
First series of time signals.—Commencing at 15h. 58m. 8s. and 23h. 58m. 8s., the letter "N" of the Morse alphabet, repeated every 10 seconds, the *dot* being made at each even 10 seconds; followed by three *dashes* ending at 15h. 59m. 00s. and 23h. 59m. 00s.

Second series of time signals.—Commencing at 15h. 59m. 6s. and 23h. 59m. 6s., the letter "G" of the Morse alphabet, repeated every 10 seconds, the *dot* being made at each even 10 seconds; followed by three *dashes* ending at 16h. 00m. 00s., and Noon 00m. 00s.

The diagram attached to Notice No. 874 of 1913 and reproduced below represents graphically the foregoing system.

Remarks.—In the case of irregularities in the signals, the procedure will be as hitherto.

The note on chart No. 857 has been amended and now reads:—



"*The Time Ball is dropped at Noon, Standard Mean Time, corresponding to 16h. 0m. 0s. Greenwich Mean Time. A Wireless Time Signal is also made from Diedrich's Hill at Noon and 8 p.m., Standard Mean Time, corresponding to 16h. and Noon G.M.T.*"

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR JULY 1913.

I. *Character of the season.*—During the month under report general rain fell all over the province. The fall was above the normal in the 24-Parganas, Calcutta, Midnapore, Hooghly, Howrah, Jalpaiguri, Rangpur, Faridpur, Bakarganj, Tippera, Chittagong Hill Tracts and Cooch Behar. The usual rainfall statement is appended.

II. *Progress of agricultural operations.*—In eastern districts harvesting of *aus* paddy and jute was proceeding, but in western districts the weeding of those crops was in progress. The transplantation of winter rice was going on briskly throughout the province.

III. *State of standing crop.*—The state of standing crops was not good in West Bengal, but fairly good in East Bengal.

IV. *Prospects and probable outturn of harvests.*—The prospects of crops were poor on low lands being submerged under water from the effects of heavy rain, but the prospects were more promising on higher lands.

V. *Damage to standing crops.*—Reports of damage to standing crops on account of excessive rainfall was received from 24-Parganas, Midnapore, Nadia and Tippera. Damaged by insect-pests was also reported from parts of Nadia, Khulna, Faridpur and Bakarganj.

VI. *Condition of agricultural stock.*—The reports on the condition of agricultural stock were on the whole favourable. Cases of cattle-disease were reported from parts of 24-Parganas, Nadia, Murshidabad, Jessore, Khulna, Bankura, Dinajpur, Darjeeling, Malda, Mymensingh, Tippera and Noakhali.

VII. *Failure of pasturage and fodder.*—The supply of fodder was sufficient, except in parts of Midnapore, Bogra, Tippera and Jessore.

VIII. *Prices of food-grains.*—During the second fortnight of the month under report, the price of common rice rose in eleven districts, fell in four and remained stationary in the rest. It varied from 6⅝ seers per rupee at Tippera to 9 seers per rupee at Bankura and Chittagong.

IX. *The condition of agricultural people.*—The condition of the agricultural population was generally reported to be good.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 18th August 1913.

Summary.—During the week under review general rain fell all over the province. In West Bengal the standing crops have been seriously damaged by the excessive rain and unusually heavy floods of the previous week. Retransplantation of winter rice in parts of damaged area is going on. Relief is being given to the distressed. Condition of cattle in the tracts affected by floods is bad. In East Bengal the prospects of crops are fair. Harvesting of jute and *aus* paddy is in progress. Want of fodder is felt in parts of Jessore, Midnapore, Howra, Bogra and Dacca. Reports of damage to standing crops by insect-pests have been received from parts of Nadia and Khulna. Cattle-disease has been reported from five districts only. The price of common rice has risen by about 2·5 per cent., as compared with that of the previous week.

DECLARATION.

Burdwan.

No. 4197.—The 25th August 1913.—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894, and Act XVIII of 1885, for a public purpose, viz., for such portion of the Sanctoria Branch of the Bengal-Nagpur Railway as lies between mile 201·276 and mile 202·074 and as is edged with pink upon the plan L.A.M.A. No. 208, and whereas coal mines are situate under the said land, and whereas the Bengal Coal Company, Limited, have given notice to the Government of Bengal, in accordance with the provisions

of Act XVIII of 1885, that the said Company intend to work the Disharghar seam, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Bengal Coal Company, Limited, have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working :

Now, therefore the Governor in Council is pleased to declare, under section 5, sub-section (2), clause (b), of the abovementioned Act XVIII of 1885, that the working shall be carried on by the said Bengal Coal Company, Limited, in the manner and subject to the restrictions below specified, viz. :—

(a) (1) To the rise of No 10 shaft level galleries, not exceeding 16 feet in width by 12 feet in height may be driven at distances apart of not less than 76 feet, centre to centre, forming pillars not less than 60 feet square to be left unworked for the support of the acquired land.

(a) (2) To the dip of No 10 shaft level galleries, not exceeding 16 feet in width by 12 feet in height, may be driven at distances apart of not less than 86 feet, centre to centre forming pillars not less than 70 feet square to be left unworked for the support of the acquired land

Provided—

(1) that the main shaft levels may be driven, not exceeding 20 feet in width, being supported by a row of vertical double permanent way rails, being of a section not less than 75 lbs. to the yard, of cast iron columns of equal strength, set down the centre of the level at distances apart of not less than 15 feet, centre to centre, with lids not less than 4 feet in length, made of rails of similar section,

(2) that, at distances apart of not less than 500 feet, centre to centre, main feeder levels may be driven, not exceeding 20 feet in width, being supported in the same way as detailed in proviso (1),

(3) that galleries may be driven, not exceeding 12 feet in height by 12 feet in width, in the approximate direction and position as shown by the double red lines on the plan, the barrier A.B. being left as a solid barrier of coal.

(b) Manholes not exceeding 5 feet in height by 3 feet in width by 4 feet in depth may be made where required by any rule made under the Indian Mines Act, 1901.

(c) Any inrush of water, quicksand or soft material shall be reported to the Chief Inspector of Mines without delay.

(d) These restrictions apply to the Dishargarh seam only and to the area edged with pink, and the Bengal Coal Company, Limited, shall give notice under section 4 of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under such area or to work coal under any other area of acquired land ;

and that in all the above cases, except to comply with the above conditions, no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the plan marked L.A.M.A. No 208, signed by the Chief Inspector of Mines.

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

UNIVERSITY OF CALCUTTA.

NOTICE.

THE Senate will proceed in the month of August 1914 to the election of a Tagore Professor of Law for the term of one year to commence on the 1st of August 1916.

The salary of the professorship is Rs. 9,000 per annum, and the Professor is expected to deliver a course of not less than twelve lectures on one of the following subjects:—

(1) The growth and development of Hindu Law from the earliest times to the end of the eighteenth century.
(2) Law of Pre-emption in British India.
(3) Principles of the Law of Monopolies, with special reference to British India.

The salary of the Professor shall be paid in twelve equal monthly instalments, the first instalment to be paid on the first day of the month following that in which the first lecture is delivered.

Candidates for the professorship are requested to forward their applications to the Registrar on or before the 1st of May 1914, stating on which of the abovenamed three subjects they are prepared to lecture. Each candidate will forward with his application one hundred copies of a brief synopsis of his proposed lectures; and, if he so pleases, the same number of copies of his Introductory Lecture.

The Professor will not, later than the month of August following his election, forward to the Registrar a complete copy (manuscript or typewritten) of the lectures which he proposes to deliver. The copy will be referred to a Committee of the Faculty of Law, consisting of not more than three members, to be chosen by the Faculty, who will examine the same and, before the 1st November, report to the Faculty whether the work is complete and ready for the Press. If, upon such report, the Faculty are satisfied that the work is complete, the Professor will commence to deliver his lectures in the month of December and complete the delivery thereof in the following February. The copy of the lectures delivered will remain in the custody of the Registrar, and will be sent to the Press as soon as practicable after delivery thereof.

If the Professor fails to submit the copy of the lectures, or if the copy submitted be found, on examination, to be incomplete and not ready for the Press, the matter will be referred to the Faculty of Law, upon whose recommendation the Senate may either extend the time or cancel the appointment.

By order of the Syndicate,

P. BRÜHL, *Offg. Registrar.*

SENATE HOUSE, *the 19th August 1913.*

RULES FOR THE GUIDANCE OF PRIVATE CANDIDATES FOR THE MATRICULATION EXAMINATION, 1914.

THE following rules for the guidance of private candidates for the Matriculation examination are published for general information.

2. Private students are those who have not attended any recognised or unrecognised school for at least one year previous to the examination. The term private students includes *bonâ fide* school-masters.

3. Private students must appear at the test examination of one of the following institutions on the dates mentioned against it:—

NAME OF SCHOOL.	Date of Examination
Rajshahi Collegiate School ...	On the date fixed by the Principal of the College.
Dinajpur Zilla School	15th December 1913.
Jalpaiguri Zilla School	15th December 1913.
Darjeeling High School	15th December 1913.
Rangpur Zilla School	15th December 1913.
Bogra Zilla School	15th December 1913.
Pabna Zilla School	15th December 1913.
Malda Zilla School	15th December 1913.

Each private student will pay a fee of Rs. 2 to the head of the institution at which he appears for the test examination. The balance after the payment of the expenses (stationery, etc.) will go to the Examiners

as remuneration. No private student will be admitted to the test examination unless he is accompanied for the purpose of identification by some person known to the Head Master of the institution at which he appears.

4. Applications for permission to appear must be sent in time to reach this office not later than the 7th November 1913. The information to be given and the documents to be appended in original are the following:—

(a) The name of the school in which the candidate last studied.
(b) The transfer certificate in original granted to the candidate by the Head Master of the school in which he last read; or
(c) in the case of a candidate who previously appeared at the Matriculation Examination, the Registrar's receipt in original for the fee paid.
(d) Age of the candidate. No candidate who has not completed the age of 16 years on the first day of the Matriculation examination will be allowed to appear at it.
(e) In the case of school-masters a certificate of good conduct from the Secretary or proprietor of the school in which he is serving or from the Deputy Inspector of the district concerned.
(f) A certificate from a respectable gentleman to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline and that he has not read in any school since the last Matriculation examination.
(g) A statement by the candidate giving the following facts:—

(i) Residence.
(ii) Father's name.
(iii) Second language besides English.
(iv) Vernacular language from which translation is to be made into English in the first English paper.
(v) Which of the following subjects he has taken up:—

(i) Additional Mathematics.
(ii) Additional paper in the classical language.
(iii) History.
(iv) Geography.
(v) Elementary Mechanics.

N.B.—A student who failed to pass the annual examination for promotion to the first class at the end of the session 1913 and then left the school can, under no circumstances, be allowed to appear at the examination.

5. The Inspector on being satisfied will countersign and return the application, which will then be the candidate's passport for admission to the test examination.

6. The Head Masters of the institutions named above should direct private students who satisfy the test to appear before them in due time with their applications for admission to the Matriculation examination and to sign them in their presence. They will then grant the necessary certificates and forward the application to the Inspector for countersignature, after which they will be sent by the Inspector direct to the candidates.

7. In no circumstances should the fee for the Matriculation examination be sent to the Inspector's office. It should be sent to the Registrar by the candidates themselves together with the countersigned applications.

8. Private students must understand that the test examination of any school other than those named above will not be accepted by the Inspector.

9. The Matriculation examination will be held on the 2nd March 1914 and the following days. The applications and fees must reach the office of the Registrar on or before the 17th January 1914.

J. W. GUNN,
Offg. Inspector of Schools, Rajshahi Division.

JALPAIGURI, *the 8th August 1913.*

DACCA DIVISION.

Rules for the admission of Private Candidates to the University Matriculation Examination, 1914.

1. A student who has not attended any school, recognised or unrecognised, for at least one year previous to the examination will be treated as a private candidate. Teachers of schools are also considered as private candidates.

2. Private candidates desirous of sitting at the ensuing University Matriculation Examination must appear at the test examination of one of the undermentioned schools to be held on the 1st December 1913 and the following days:—

1. Dacca Collegiate School.	3. Faridpur Zilla School.
2. Mymensingh Zilla School.	4. Barisal Zilla School.

3. Every private candidate must submit his application for admission to the test examination on or before the 1st November 1913 to the Head Master of one of the schools named above where he intends to appear, producing a certificate from a respectable gentleman to the effect (1) that he has not attended any school, recognised or unrecognised, for at least one year previous to the examination, (2) that his conduct and character have been good, (3) that he has diligently and regularly prosecuted his studies and has been subject to proper discipline.

4. He should also forward with his application his transfer certificate from the school (if any) in which he last read, or the Registrar's receipt (if he appeared at any previous Entrance Examination) or a certificate from a respectable person with personal knowledge of the facts of the case that he has never been to any school.

5. No one will be admittted to the test examination unless he shall produce satisfactory evidence that he will have completed the age of sixteen years on the second day of March 1914. For the purpose of this rule the age as recorded in a transfer certificate from a recognised school or in the Registrar's receipt (in case of those who appeared at any previous examination) will be accepted. Those who have never read in any school must produce either their horoscope or an affidavit sworn by their parents or guardians before a competent Magistrate declaring their age.

6. Every private candidate shall state in his application his name, father's name, date of birth, residence, postal address and the following particulars:—

1. Whether he appeared at the Entrance Examination in any previous year.
2. Language in which (besides English) he is to be examined.
3. Vernacular language for composition.
4. Vernacular language from which translation is to be made in to English in the 1st English paper.
5. Which of the following subjects taken up—

(*a*) Additional Mathematics.	(*c*) History.
(*b*) Additional paper in classical language.	(*d*) Geography.
	(*e*) Elementary Mechanics.

7. Every private candidate must pay a fee of Rs. 2 to the Head Master of the school at which he appears for examination. After payment of the necessary expenses the balance of the fees will be paid to the examiners as remuneration.

8. On the date of examination, he must be accompanied, for the purpose of identification, by some person known to the officer conducting the examination, otherwise he will not be admitted to the test examination.

9. The Head Masters of the schools named above should send to this office for orders a statement in duplicate showing the marks gained by each private candidate in each subject at the test examination within a fortnight from the date of the said examination. The application forms of candidates who are declared eligible should be forwarded to this office for countersignature duly filled in and signed and accompanied by the documentary evidence referred to in paragraphs 3, 4 and 5.

10. Private candidates should arrange to remit their examination fees, together with the countersigned application forms, direct to the Registrar, so as to reach him on or before the 17th January 1914. The fee payable by each candidate for the examination is Rs. 12.

11. The Matriculation Examination for 1914 will be held on the 2nd March and the following days.

H. E. STAPLETON,
Inspector of Schools, Dacca Division.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

Tsingtau Wireless Time Signals—Alteration in time of sending and method of transmission.

No. 378 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 901 of 1913), are republished :—

Former Notice.—No. 76 of 1913. (*This office No. 83 of 1913.*)
Position.—Wireless station, lat. 36° 04′ N., long. 120° 19½′ E.
Details.—The Tsingtau Wireless Time Signals have been altered. The new signals will be sent with a uniform wave length of 1,250 metres, the *dashes* will be of about 1 second and the *dots* of about ¼ second duration, each sign being separated from the one which immediately follows in the same group by an interval of about 1 second duration. (*See* diagram attached to Notice No. 874 of 1913, which is reproduced below.)

The Time Signals will be made at Noon and 8 p.m. Standard Mean Time, corresponding to 16h and Noon. Greenwich Astronomical Mean Time, as follows :—

Preparative signal.—A series of the letter "X" of the Morse alphabet from 15h. 57m. 0s. to 15h. 57m. 50s. and from 23h. 57m. 0s. to 23h. 57m. 50s. followed by three *dashes* ending at 15h. 58m 0s. and 23h. 58m. 0s.

First series of time signals.—Commencing at 15h. 58m. 8s. and 23h. 58m. 8s., the letter "N" of the Morse alphabet, repeated every 10 seconds, the *dot* being made at each even 10 seconds; followed by three *dashes* ending at 15h. 59m. 00s. and 23h. 59m. 00s.

Second series of time signals.—Commencing at 15h. 59m. 6s. and 23h. 59m. 6s., the letter "G" of the Morse alphabet, repeated every 10 seconds, the *dot* being made at each even 10 seconds ; followed by three *dashes* ending at 16h. 00m. 00s., and Noon 00m. 00s.

The diagram attached to Notice No. 874 of 1913 and reproduced below represents graphically the foregoing system.

Remarks.—In the case of irregularities in the signals, the procedure will be as hitherto.

The note on chart No. 857 has been amended and now reads :—

"*The Time Ball is dropped at Noon, Standard Mean Time, corresponding to 16h. 0m. 0s. Greenwich Mean Time. A Wireless Time Signal is also made from Diedrich's Hill at Noon and 8 p.m., Standard Mean Time, corresponding to 16h. and Noon G.M.T.*"
